|----------------------------------|--|
| Your Name | |
| Title | |
| Organization(s) | |
| Primary geographic area of focus | |
| Email contact | |
| Phone contact | |

My primary experience with diabetes relates to:
(Check up to two)

| | |
|---|---|
| <input type="checkbox"/> Research | <input type="checkbox"/> Policy Development |
| <input type="checkbox"/> Community Involvement | <input type="checkbox"/> Prevention/ Lifestyle (diet, exercise, other) |
| <input type="checkbox"/> Clinical Care | <input type="checkbox"/> Workforce Development |
| <input type="checkbox"/> Program Funding/ Reimbursement | <input type="checkbox"/> Other (Specify other here) |

1. Name **one** key health/development policy issue that warrants greater attention in the Appalachian region.

2. What do you believe are the biggest gaps in knowledge or practice regarding diabetes in Appalachia?

The remaining questions relate to a promising practice that you would like to share .

1. Provide a short descriptive title of the model.

2. Describe in one sentence the primary purpose of the model and its ultimate outcome, e.g. "To improve clinical outcomes in diabetes management by placing lay health workers in schools."

3. Describe **up to three** key components of the model.

4. Describe **up to three** key performance metrics for the model.

5. Describe **two** lessons learned that support or challenge replication of the model in the Appalachian Region.

6. Describe hurdles if any to sustaining the model in Appalachia.

7. Other comments you want to make.

The conference is sponsored by the Appalachian Regional Commission.
