

POWER Award Summaries by State

As of October 2020

The Appalachian Regional Commission (ARC) has invested over \$238 million specifically to diversify the economy in the Region's coal-impacted communities through the [POWER \(Partnerships for Opportunity and Workforce and Economic Revitalizations\) Initiative](#). These 293 investments are projected to create or retain more than 26,000 jobs, leverage an additional \$1.1 billion into the Region, and prepare tens of thousands of workers and students for jobs in technology, manufacturing, entrepreneurship, agriculture, and other sectors creating a strong economic future for Appalachia.

ALABAMA (11 awards)

Project Title: *Bevill State Community College POWER 2017 Initiative*

Grantee: Bevill State Community College

Award Amount: \$1,920,000

Announcement Date: January 2017

Project Summary: ARC grant to Bevill State Community College in Jasper, AL, for the *Bevill State Community College POWER 2017 Initiative*. The project will create a new Rapid Training Center at Bevill State's Jasper campus that will serve as a regional workforce training and job placement hub in northwest Alabama—an area that has been adversely affected by the recent retirement of coal-fired power generation facilities and the closure of multiple coal mines. The Rapid Training Center will offer accelerated workforce training programs that provide industry-recognized credentials in six growing regional industries: welding, commercial trucking, rigging, hydraulics/pneumatics, healthcare, and print reading. Through a partnership with the Alabama Department of Labor, individuals directly impacted by the decline in coal production will be offered up to \$1,000 in scholarships and stipends to move them through the Center's retraining programming in the most efficient manner possible. In addition, Bevill State is partnering with the AARP to tailor a portion of the retraining and placement support for individuals who are 50+ years old. The project will train 4,000 trainees over the life of the award, and will improve 40 existing businesses in the region.

Project Title: *Alabama S.T.R.O.N.G. (Skills Training to support Real Opportunities for New job Growth)*

Grantee: Alabama Community College System

Award Amount: \$1,750,000

Announcement Date: October 2018

Project Summary: ARC grant to the Alabama Community College System in Montgomery, AL, for the Alabama S.T.R.O.N.G. (Skills Training to support Real Opportunities for New job Growth) project, which will target the coal-impacted communities in ten ARC counties in Alabama. The project seeks to increase awareness about the current and future job

opportunities available in the advanced manufacturing sector, a growing part of the regional economy. It will provide students and workers with life skills, remedial education, cutting-edge technical skills, and certificate training to prepare them for either additional postsecondary education or direct placement into high-wage and high-demand careers available in Alabama's advanced manufacturing industry. Overall coordination will be provided through the state community college system, with individual course offerings delivered by Beville State, Jefferson State, Lawson State, and Shelton State Community Colleges. The project will expose thousands of residents to the benefits of working in advanced manufacturing, and it will serve close to 4,200 participants and their families directly with critical life and technical skills gap training, new job opportunities, and access to vital social and financial services necessary to succeed. At least 2,101 workers/trainees and 976 students will obtain new or enhanced positions, 1,132 jobs will be retained, seven new jobs will be created and six new programs implemented, and all 77 participating businesses will be improved by having access to a more skilled workforce.

Project Title: *WAW's 2020 Initiative*

Grantee: West Alabama Works (WAW)

Award Amount: \$1,500,810

Announcement Date: January 2017

Project Summary: ARC grant to West Alabama Works (WAW) - Region 3 Workforce Development Council in Tuscaloosa, AL, for the *WAW 2020 Initiative*. The project will deliver job training services to fill critical regional workforce needs in the rapidly growing automotive and advanced manufacturing industries in western Alabama—an area that has been adversely affected by the changing economics of the regional coal economy. WAW has partnered with Mercedes Benz to develop a specific recruitment and training plan for positions in mechatronics and industrial maintenance at their facilities in the area. In addition, the project will create a “pop-up” Community Resource Center in Brookwood, AL, to serve as a hub for community engagement; renovate the Brookwood Technical High School and Training Center to offer credentialing services to students at four regional high schools for employment in hospitality and culinary arts, healthcare, and advanced manufacturing; and, through a partnership with Energy Alabama and the Alabama Automotive Manufacturer's Association, develop business-specific plans that will speed the adoption of sustainable energy in Alabama's automotive industry. The project will train 1,000 dislocated workers and credential 500 students over the life of the award.

Project Title: *Rapid Training Center Expansion*

Grantee: Beville State Community College

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Beville State Community College in Jasper, AL, for the *Rapid Training Center Expansion* project. The project will provide a range of expanded and accelerated workforce training programs that provide industry-recognized credentials for high-quality, in-demand jobs. It will renovate and expand an existing facility on the college's Hamilton campus. The project will also expand the college's training program offerings there to create a Rapid Training Center. The Center will be able to respond quickly to the changing workforce needs of local businesses. The project will also specifically support the expansion of welding and HVAC (heating, ventilation, and air conditioning) programs, for which there is considerable demand for trained workers in the area. The new Center will build a competitive workforce with employees who have skill sets that can also be used in advanced manufacturing and other in-demand jobs. The college will prepare and upskill 135 students and 40 workers/trainees for careers in HVAC and welding technology.

Project Title: *POWER2 Expand Initiative*

Grantee: West Alabama Works (WAW)

Award Amount: \$1,459,335

Announcement Date: February 2019

Project Summary: ARC grant to West Alabama Works (WAW) in Tuscaloosa, AL, for the *POWER2 Expand Initiative*. In partnership with the West Alabama Chamber of Commerce, West Alabama Works (the regional workforce council) will deliver training and reemployment opportunities to residents in 10 coal-impacted counties of Central Alabama (Bibb, Fayette, Hale, Jefferson, Lamar, Marion, Pickens, Shelby, Tuscaloosa, and Walker). In addition to connecting high school students and adults with industry-driven credentials, the project will strategically connect unemployed and underemployed individuals with adult basic education and advanced training opportunities. This will enable them to obtain the necessary credentials to earn a livable wage. The training programs include General Education Development (GED), Test of Adult Basic Education (TABE), high school diploma, as well as short- and long-term, post-secondary training. The project builds on WAW's strong partnership with local industries. The project will improve 1,615 workers/trainees, connect 1020 individuals with employment, and equip 859 individuals with industry-recognized credentials. Additional support for the project is being provided by the Alabama Department of Commerce and Cengage Learning.

Project Title: *The Prosperity Fund - Fostering Entrepreneurial Activity in Coal Impacted Communities in Alabama*

Grantee: Southern Research Institute

Award Amount: \$1,200,000

Announcement Date: June 2017

Project Summary: ARC grant to the Southern Research Institute (SRI) in Birmingham, AL, to establish *The Prosperity Fund* to foster entrepreneurial activity in a four-county area in Alabama that has been significantly impacted by the decline in the coal industry. With this ARC investment, The Prosperity Fund will connect entrepreneurs with seasoned private-sector business leaders and key representatives from state economic development agencies to provide the tools necessary to build high-growth companies and create wealth in Walker, Jefferson, Fayette, and Tuscaloosa Counties. SRI will focus on five business sectors that have significant potential in those counties: automotive, agriculture, primary materials, forestry products, and chemicals. The Prosperity Fund team will also provide entrepreneurs in the area with access to resources to raise capital, create and administer customer discovery and marketing programs, and obtain other training and support opportunities. This implementation grant builds on an earlier POWER technical assistance grant to SRI. The project is expected to create 80 jobs and leverage \$6.2 million in private investment.

Project Title: *Shoals Shift*

Grantee: Shoals Entrepreneurial Center

Award Amount: \$997,150

Announcement Date: August 2016

Project Summary: ARC grant to the Shoals Entrepreneurial Center in Florence, AL, for the *Shoals Shift* project. The funds will be used to offer a wide range of entrepreneurial programming, including improved access to capital and credit and development of strategies to increase the profitability of the region's start-ups and existing businesses through more efficient use of broadband technologies. The programming includes training and activities for community members and student entrepreneurs from middle schools all the way to the university level. Activities will take place in a nine-county region covering parts of northwest Alabama, northeast Mississippi, and south central Tennessee. The project is expected to help create or retain 110 jobs, start 20 new businesses, and leverage \$10,000,000 in private investment.

Project Title: *Northwest Alabama Revitalization*

Grantee: Tombigbee Electric Cooperative Inc.

Award Amount: \$774,912

Announcement Date: October 2019

Project Summary: ARC grant to Tombigbee Electric Cooperative Inc. (TEC) in Hamilton, AL for the *Northwest Alabama Revitalization* project. This project will implement a fiber optic network providing broadband service to areas of Fayette, Franklin, Lamar, Marion, and Winston Counties. More than 925 unserved businesses will have the opportunity to obtain high-speed broadband service, while 30,495 households will potentially benefit from fiber-to-the-premise access. The project capitalizes on an overall expected investment of \$60 million from private and public sources and will enable service expansion to 116,000 residents through 2,000 miles of newly constructed fiber over the next three years.

Project Title: *Creating Opportunity for Alabama (COAL) Initiative*

Grantee: Opportunity Alabama, Inc.

Award Amount: \$733,150

Announcement Date: February 2020

Project Summary: ARC grant of \$733,150 to Opportunity Alabama, Inc. in Birmingham, AL, for the Creating Opportunity for Alabama (COAL) Initiative. The project will create an investment funding and business development ecosystem targeted to the federally designated Opportunity Zones in 36 coal-impacted counties in Alabama. Opportunity Alabama will work with a team of local, state, and national partners in a three-phased approach: 1) building local capacity to effectively prepare for and attract Opportunity Zone investments, focusing particularly on rural communities; 2) creating a pipeline of investment opportunities to attract substantial private investment by facilitating demand studies, environmental assessments, and construction cost estimates; and 3) developing and implementing an impact investment data collection and analysis process that can make it easier for investors to deploy their capital. The project will yield 250 new jobs, create 25 new businesses, and leverage \$100 million in private investment. Additional financial support for the project is being provided by Alabama Power and the Alabama Power Foundation.

Project Title: *Alabama Advanced Energy Economic Impact Report (AAEEIR)*

Grantee: Alabama Center for Sustainable Energy (ALCSE) d/b/a Energy Alabama

Award Amount: \$77,680

Announcement Date: January 2017

Project Summary: ARC grant to the Alabama Center for Sustainable Energy (ALCSE) d/b/a Energy Alabama in Madison, AL, for technical assistance for a study of strategies to develop an advanced energy economy, with an emphasis on coal-impacted communities. It will identify the advanced energy industry of the coal-impacted areas, the available jobs within that industry, the resources of community colleges to support workforce training, and the career centers that can facilitate placement in the advanced energy industry of unemployed workers. The project will also support stakeholder engagement to explore and harness additional careers in sectors such as aerospace, advanced manufacturing, entrepreneurship, healthcare and information technology. Local sources will provide an additional \$79,857 to fund the project.

Project Title: *Fostering Entrepreneurial Activity in Coal Impacted Communities in Alabama*

Grantee: Southern Research Institute

Award Amount: \$60,202

Announcement Date: August 2016

Project Summary: ARC grant to the Southern Research Institute in Birmingham, AL, for the development of a strategic plan focusing on entrepreneurship in coal-impacted counties in

the Appalachian part of Alabama. Innovation and increasing business startup activity will be the primary focus.

KENTUCKY (47 awards)

Project Title: *Kentucky College of Optometry: Equipment*

Grantee: University of Pikeville

Award Amount: \$7,474,100 total (a \$4,974,100 EDA grant and a \$2,500,000 ARC grant)

Announcement Date: August 2016

Project Summary: Grant to the University of Pikeville in Pikeville, KY, for the *Kentucky College of Optometry (KYCO)* project. POWER funds will be used to purchase equipment, instructional supplies, and other materials to help launch a new College of Optometry. The college will both grow the healthcare workforce and improve access to vision care in Central Appalachia. KYCO will be only the second optometry college in the Appalachian Region, and will primarily serve Eastern Kentucky, Southern West Virginia, and Southwestern Virginia. Within the first three years of the award, KYCO will graduate 60 optometrists, provide care to 12,000 patients, and bring \$26,000,000 in direct economic impact to the regional economy.

Project Title: *Eastern Kentucky Coal County Transformation*

Grantee: Big Sandy Community and Technical College

Award Amount: \$3,500,000

Announcement Date: January 2017

Project Summary: ARC grant to Big Sandy Community and Technical College in Prestonsburg, KY, for the *Eastern Kentucky Coal County Transformation* project. The ARC award will enable three eastern Kentucky education institutions—Big Sandy, Hazard Community and Technical College, and Southeast Kentucky Community and Technical College—to launch a comprehensive, employer-driven workforce development program focused on building the digital economy and strengthening digital innovation and entrepreneurship across a 16- county region in eastern Kentucky. The consortium—in partnership with Shaping Our Appalachian Region (SOAR) and the Eastern Kentucky Concentrated Employment Program (EKCEP)—will establish educational programs that develop workforce skills in emerging regional career clusters such as cybersecurity, medical coding, and advanced manufacturing. The program will specifically engage dislocated workers from the coal industry through targeted advertisements, and will provide adult basic education as needed to ensure that these individuals can participate in the training courses. In addition, to support the development of a technology-driven economy beyond classroom training, the program will identify and promote a number of digital innovation hubs, providing facilities and resources to encourage entrepreneurial activities. Success coaches will be available to instill critical 21st century skills and provide support to nascent technology workers, and a regional committee will be established to monitor industry trends and best practices. The project will serve 300 trainees and improve the operations of 30 existing businesses in the first two years of the award, and will lay the groundwork for the development of a vibrant and lasting digital economy in eastern Kentucky.

Project Title: *TechHire Eastern Kentucky (TEKY) Initiative: Developing a Technology-Driven Workforce to Transform Rural Appalachia*

Grantee: Eastern Kentucky Concentrated Employment Program, Inc

Award Amount: \$2,750,000

Announcement Date: August 2016

Project Summary: ARC grant to the Eastern Kentucky Concentrated Employment Program (EKCEP) in Hazard, KY, for the *TechHire Eastern Kentucky (TEKY) Initiative: Developing a Technology-Driven Workforce* project. The project will serve young adults aged 17-29 who are

out of school, and older adults who are unemployed, laid-off, or underemployed by offering several avenues to industry-led accelerated technology training, paid work-based internships, and employment opportunities in IT careers. This comprehensive workforce development initiative will train 200 new workers, create 160 jobs, and serve to bolster existing and emerging sectors that rely on a skilled information technology workforce in 23 Eastern Kentucky counties. The initiative will provide the trained workers necessary for a private technology company to expand its operations into Eastern Kentucky.

Project Title: *Economic Transition for Eastern Kentucky (ETEK) Initiative*

Grantee: Mountain Association for Community Economic Development (MACED)

Award Amount: \$2,022,133

Announcement Date: August 2016

Project Summary: ARC grant to the Mountain Association for Community Economic Development (MACED) in Berea, KY, for the *Economic Transition for Eastern Kentucky (ETEK) Initiative*. The ARC award will expand fast-track retraining and entrepreneurial technical assistance services targeted to dislocated coal workers; establish an intern program aimed at placing former coal workers in the energy efficiency sector; and increase access to capital through a \$1,000,000 venture capital loan fund. The project will create 200 new jobs and 100 new enterprises, serve 500 existing businesses, and bring \$12,000,000 in leveraged financing to a 54-county region in Eastern Kentucky.

Project Title: *Appalachian Wildlife Center Infrastructure*

Grantee: Appalachian Wildlife Foundation, Inc.

Award Amount: \$1,800,000

Announcement Date: October 2016

Project Summary: ARC grant to the Appalachian Wildlife Foundation Inc. in Corbin, KY, for the *Appalachian Wildlife Center Infrastructure* project. ARC funds will be used to install water infrastructure at the future site of the Appalachian Wildlife Center, a conservation education and research facility. The Wildlife Center facility—located on 19 miles of reclaimed mine land—will feature the largest elk restoration and viewing effort in the United States. The facility will be modeled on the successful Elk Country Visitor Center in Benezette, Pennsylvania. The project will position a 10-county region in the tri-state area of southeastern Kentucky, northeastern Tennessee, and southwestern Virginia as a national tourist attraction, and will create 86 new jobs.

Project Title: *Recovery, Hope, Opportunity and Resiliency (RHOAR)*

Grantee: The Fletcher Group

Award Amount: \$1,677,529

Announcement Date: February 2019

Project Summary: ARC grant to The Fletcher Group in Lexington, KY, for the *Recovery, Hope, Opportunity and Resiliency* program (RHOAR), which will address the challenges of unemployment and opioid use in Eastern Kentucky by establishing new addiction recovery programs. The RHOAR initiative will expand economic development through workforce development, social enterprises, and entrepreneurship in collaboration with educational institutions to provide meaningful employment for those recovering from substance use disorders. The Fletcher Group will partner with the Kentucky Community and Technical College System, Fahe (another POWER grantee), Kentucky Housing Corporation, Recovery Kentucky, Operation Unite, and others to identify information and criteria needed to complete the "tool kit" that will be utilized throughout the programs, as well areas to place new facilities. The project will serve 300 individuals in recovery and will leverage \$24 million in private capital and up to \$4.8 million annually in other funding.

Project Title: *Transitional Housing Facility*

Grantee: Mountain Comprehensive Health Corporation (MCHC)

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Mountain Comprehensive Health Corporation (MCHC) in Whitesburg, KY for the *Transitional Housing Facility* project. The project includes the creation of 22 units of transitional housing for men who are in recovery from substance use disorders. Letcher County and its neighboring communities have been hard hit by both the downturn in the coal economy and the substance use crisis. It is often impossible for people who have completed treatment to find safe, sober housing or the services that would help them return to the community. The project will renovate a former high school to create efficiency apartments. MCHC staff will work with community partners to coordinate healthcare, education, and other social supports for residents of the new facility. Residents will also receive job-skills training through collaboration with local program partners, including Southeast Kentucky Community and Technical College and the Eastern Kentucky Concentrated Employment Program, Inc. (EKCEP). The facility can serve 44 residents each year; approximately 28 are expected to reach at least two key milestones such as maintaining sobriety, finding a job, or furthering education. Seven jobs will be created for new staff members.

Project Title: *Dataseam K-12 IT Apprenticeship Expansion*

Grantee: Mountain Kentucky Dataseam Initiative, Inc.

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Kentucky Dataseam Initiative, Inc., in Louisville, KY for the *Dataseam K-12 IT Apprenticeship Expansion* project. Dataseam will work with school districts in 20 Eastern Kentucky counties to deliver an information technology (IT) student apprenticeship program that includes paid IT jobs for students, hands-on coursework, on-the-job training, and vital technology infrastructure to communities for K-12 education. Dataseam will also help Morehead State University and the University of Louisville identify and recruit students into STEM education programs and STEM careers. Each student apprentice will earn two industry-standard IT certifications as part of earning a U.S. Department of Labor Information Technology Support Specialist Certificate. The program will operate under the supervision of the Kentucky Education and Workforce Cabinet. At least 60 student apprentices will continue their education and/or obtain employment and all 25 participating teachers/staff and 29 school districts will benefit.

Project Title: *Foothills Independent Transitional Living Center (FIT)*

Grantee: Foothills Academy, Inc.

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Foothills Academy, Inc., in Albany, KY for the *Foothills Independent Transitional Living Center (FIT)*. The project will construct a Center to deliver transitional housing, training, case management, drug abuse prevention, and reemployment services to youth who age out of the child welfare system and have limited support networks to enter or reenter the workforce. The Center will be located adjacent to Somerset Community and Technical College with access to vocational and professional training, career counseling, and student supports. The FIT Living Center residents will be 16 young men and women, ages 18 to 21. Licensed therapists and case managers will provide key services. Partners include Somerset Community College, the Kentucky Cabinet for Families and Children, The Job Shop, and Lake Cumberland Area Development District. The project will give at-risk young adults the opportunity for upward mobility, building skills to

further their education, maintain employment, and learn to live on their own with a healthy lifestyle and positive behaviors.

Project Title: *Revitalize, Redevelop, and Reinvest (R3) Initiative*

Grantee: Foundation for Appalachian Kentucky

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Foundation for Appalachian Kentucky in Hazard, KY for the *Revitalize, Redevelop, and Reinvest (R3) Initiative*. The Foundation for Appalachian Kentucky will partner with the Community Economic Development Initiative of Kentucky (CEDIK) at the University of Kentucky to create an Appalachian Impact Fund. The Fund, along with ancillary technical assistance services, will support downtown revitalization and strengthen the entrepreneurial ecosystem across ten counties in Southeastern Kentucky. The Fund will assist downtown real estate development projects through a mixture of grants, low-interest loans, and long-term equity investments, while a large-scale technical assistance program (modeled on the work of CEDIK under a previous POWER grant) will help communities with strategic project investment planning. The project will improve 10 communities, serve 200 businesses, create 60 jobs, and leverage \$7.6 million in private investment. Additional funding is provided by the James Graham Brown Foundation, the Marguerite Casey Foundation, and a major private donor.

Project Title: *Big Sandy Healthy Workforce*

Grantee: Mountain Comprehensive Care Center (MCCC)

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Mountain Comprehensive Care Center (MCCC) in Prestonsburg, KY for the *Big Sandy Healthy Workforce* project. This funding will support renovating Osbourne Elementary School in Floyd County, KY to construct a substance abuse treatment center that will serve five economically distressed counties (Floyd, Johnson, Magoffin, Martin, and Pike). The project will create short-term, long-term, and outpatient substance abuse treatment opportunities, as well as wrap-around support services that emphasize workforce training, education, skills development, and post-treatment job placement. Workforce Specialists will collaborate with the Eastern Kentucky Advanced Manufacturing Institute (a prior POWER grantee) and the Kentucky Works Program to ensure that participants have access to the resources and opportunities associated with successful job placement. The creation of MCCC's new facility is expected to create 27 new jobs while serving 200 patients per year.

Project Title: *Workforce Training Center*

Grantee: KCEOC Community Action Partnership, Inc.

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to KCEOC Community Action Partnership, Inc. in Gray, KY for the *Workforce Training Center* project. The project will construct a Work Ready Training Center (WRTC) and offer trade, certificate, and post-secondary education provided by Southeast Kentucky Community and Technical College. Fast-track programs will allow local and distance students to receive training in the fields of healthcare, technology, advanced manufacturing, and transportation/logistics. A partnership between KCEOC and the Eastern Kentucky Concentrated Employment Program will enable the WRTC to begin attaining goals and outcomes within the first three months after completion of construction. The new WRTC is expected to create 10 jobs in faculty and staff, while improving 500 workers and serving 1,400 students. Additional funding for the project comes from the U.S. Economic

Development Administration and the Commonwealth of Kentucky's Education and Workforce Development Cabinet.

Project Title: *Pikeville Medical Center's Children's Hospital*

Grantee: Pikeville Medical Center (PMC)

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Pikeville Medical Center (PMC) in Pikeville, KY for the *Pikeville Medical Center's Children's Hospital*. Pikeville Medical Center will construct and equip a new facility to provide health care for over 100,000 children in 23 counties in Kentucky, Virginia, and West Virginia. The project will create 50 permanent jobs, while retaining over 100 other pediatric medical and non-medical staff. PMC will work with the University of Pikeville and Big Sandy Community and Technical College to strengthen the regional healthcare workforce. The new facility will bolster the health care industry cluster, diversify an economy that has been heavily dependent on coal, and strengthen the regional workforce. The children's hospital will treat children from birth to age 18, including infants born with drug dependencies. Additional funding for the PMC Children's Hospital comes from the federal Abandoned Mine Lands pilot program.

Project Title: *Restoring Pride in Kentucky's Appalachia-Phase II*

Grantee: Eastern Kentucky PRIDE

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to Eastern Kentucky PRIDE in Somerset, KY for the *Restoring Pride in Kentucky's Appalachia-Phase II* project. Eastern Kentucky PRIDE will implement a robust tourism marketing and branding campaign to establish 41 counties in southern and eastern Kentucky as a tourism destination. The destination branding initiative will leverage the region's natural assets and strong cultural heritage to promote new or enhanced traveler experiences in order to increase tourism spending and create tourism as an economic driver for the region, whose economy has been adversely affected by the decline in the coal industry. The campaign will include a new tourism website; print, billboard, television, and online advertising; tourism guides and brochures; and branded merchandise. The marketing efforts are expected to attract 2,000 new day visitors and 200 overnight visitors per year and create 30 tourism-related jobs. The project implements a regional tourism strategic plan that was developed through an earlier POWER grant.

Project Title: *Intergenerational Training Center*

Grantee: Hazard Community and Technical College

Award Amount: \$1,500,000

Announcement Date: January 2017

Project Summary: ARC grant to Hazard Community and Technical College (HCTC) in Hazard, KY, for the *Intergenerational Training Center*. ARC funds will be used to construct a 14,700 square foot facility at HCTC's Lees College Campus in Jackson, KY that will deliver job training and credentialing courses focused around four emerging regional career clusters: information technology, telemedicine and health sciences, mechatronics, and eco-tourism/small business development. The project will leverage the capacity of the Eastern Kentucky Concentrated Employment Inc. (EKCEP) and the Kentucky Career Center to promote and market the program to out-of-school youth and displaced and underemployed workers impacted by the decline in the coal industry. The project will serve a seven-county area in southeastern Kentucky, and will train 295 dislocated workers and credential 228 students over the life of the award.

Project Title: *eKAMI Workforce Development Program*

Grantee: East Kentucky Advanced Manufacturing Institute, Inc.

Award Amount: \$1,500,000

Announcement Date: February 2019

Project Summary: ARC grant to the East Kentucky Advanced Manufacturing Institute, Inc. in Paintsville, KY, for the *eKAMI Workforce Development Program*. Through eKAMI's basic program dislocated, unemployed, and underemployed adults receive training in the CNC machining industry leading to certifications on Haas equipment. The project will expand the existing eKAMI programming to include support of a nine-month Young Adult Advanced Manufacturing Technology Program for those out of school and new to the workforce and support of the High School Advanced Manufacturing Technology Program, providing a career path for current high school students. The expansion will also include initiation of an Advanced Manufacturing Technology Teacher Training Program for high school career and technical education instructors, initiation of a Correctional Facility Workforce Development Pilot Program, and expansion of eKAMI's signature 16-week Adult Training Program for those unemployed and underemployed who have work experience in other careers.

Project Title: *Downtown Revitalization in the Promise Zone*

Grantee: University of Kentucky Research Foundation

Award Amount: \$1,464,251

Announcement Date: August 2016

Project Summary: ARC grant to the University of Kentucky Research Foundation in Lexington, KY, for the *Downtown Revitalization in the Promise Zone* project. This project—partnering with the Community and Economic Development Initiative of Kentucky, the Foundation for Appalachian Kentucky, the Kentucky Promise Zone, Shaping Our Appalachian Region (SOAR), and the Kentucky Mainstreet Program—will help revitalize the downtowns of 8 distressed towns in the Southeastern Kentucky Promise Zone. The project will provide each community with tailored economic studies that identify economic opportunities, support strategic planning sessions to capitalize on those opportunities, provide financial support for key steps to implement those strategies, and build local leadership and business capacity. The project will create 24 new downtown businesses, 72 new jobs, and leverage \$800,000 in private investment.

Project Title: *Kentucky's Appalachia Aviation Maintenance Technician Training Project*

Grantee: Eastern Kentucky University

Award Amount: \$1,463,927

Announcement Date: February 2019

Project Summary: ARC grant to Eastern Kentucky University (EKU) in Richmond, KY, for the *Kentucky's Appalachia Aviation Maintenance Technician Training* project. In partnership with two community colleges and regional airports, ECU will create an aviation maintenance technician program at multiple campuses in Eastern Kentucky. Identifying a growing employment sector, the project responds to the need for economic diversification, job creation, and workforce development within Kentucky's Appalachian counties. Each aviation maintenance technician cohort will begin training in classrooms at the Richmond ECU campus and two of Eastern Kentucky University's regional campuses, Hazard Community & Technical College and Big Sandy Community & Technical College. Each is strategically chosen for its proximity to a partnering regional airport. Once trainees fulfill basic coursework requirements inside the traditional classroom setting, the training will move to the regional airports for hands-on work training. The program will yield industry-recognized certification and will serve 86 workers/trainees, all of whom will be certified and employed as aviation maintenance technicians.

Project Title: *Eastern Kentucky Addiction Recovery & Training (eKART)*

Grantee: Eastern Kentucky Concentrated Employment Program (EKCEP), Inc.

Award Amount: \$1,461,078

Announcement Date: February 2019

Project Summary: ARC grant to Eastern Kentucky Concentrated Employment Program, Inc. (EKCEP) in Hazard, KY, for the *Eastern Kentucky Addiction Recovery & Training Program (eKART)*. EKCEP is partnering with Sullivan University and Addiction Recovery Care to implement the eKART program, which will bridge the gap between addiction recovery and productive participation in the workforce for individuals in recovery. The program will provide valuable career training and supportive services, as well as cultivate second-chance job opportunities. This project will provide regional businesses with information on ways to provide a supportive environment for employees in recovery, increasing the opportunities for work-based training and apprenticeships, while also partnering with treatment providers to identify and recruit recovering individuals appropriate for those opportunities. Sullivan University, which is successfully training individuals in recovery to become Peer Support Specialists, will enable participants to return to the workforce in jobs where they can help other individuals enter and complete recovery. The project will train 65 new peer support specialists and at least 125 individuals in recovery will re-enter the Eastern Kentucky workforce. Sixty-three businesses will be certified as recovery-friendly workplaces. Additional funding is provided by the Kentucky Department of Behavioral, Developmental, and Intellectual Disabilities and Kentucky Opioid Response Effort.

Project Title: *Appalachian Wildlife Center Wastewater Treatment Project*

Grantee: Appalachian Wildlife Foundation, Inc.

Award Amount: \$1,305,200

Announcement Date: October 2018

Project Summary: ARC grant to the Appalachian Wildlife Foundation, Inc. in Corbin, KY, to install a wastewater treatment facility for the Appalachian Wildlife Center (the Center). The Center will be a major tourist attraction and a world-class education and research facility focused on wildlife conservation and re-use of reclaimed coal lands of Appalachia. Located on 19 miles of reclaimed mine land, the Center will feature the largest elk restoration and viewing effort in the United States and will boost tourism in a tristate area. When fully operational, the Center expects to host over 835,000 annual paying attendees. The visitor center building will house classrooms, a museum of natural history and wildlife conservation, and a museum of regional history. An artisans' market, display gallery, and work area will highlight regional artists. Following the project's completion, 11 communities will be improved through revenues from tourism and 99 jobs will be created at the facility during the performance period. Additional funding for the Center is being provided through the Abandoned Mine Lands program of the Office of Surface Mining Reclamation and Enforcement of the U.S. Department of the Interior.

Project Title: *Supplier Education Economic Development (SEED) Program Expansion*

Grantee: Southeast Kentucky Economic Development Corporation (SKED)

Award Amount: \$1,301,983

Announcement Date: February 2019

Project Summary: ARC grant to Southeast Kentucky Economic Development Corporation (SKED) in Somerset, KY, to expand the reach and capacity of the *Supplier Education and Economic Development (SEED) Program*. The project's training and support services will improve the competitiveness of manufacturing companies in coal-impacted counties of Eastern Kentucky and will help them acquire the competence needed to win government and private contracts. Key partners in the project are Advantage Kentucky Alliance (AKA), which will provide the training, and the Kentucky Procurement Technical Assistance Center (KY PTAC), which will assist participating companies in developing new business with

Department of Defense prime contractors. The project expects to create 350 jobs and leverage \$3 million in private investment.

Project Title: *KY-WV Regional Drone Technology Workforce Project*

Grantee: Maysville Community and Technical College

Award Amount: \$1,290,000

Announcement Date: January 2017

Project Summary: ARC grant to Maysville Community and Technical College (MCTC) in Maysville, KY, for the *KY-WV Regional Drone Technology Workforce Project*. MCTC will partner with Southern West Virginia Community and Technical College to deliver comprehensive training courses in small-air drone operation to a seven-county area in southern West Virginia and a 13-county area in northeastern Kentucky. Specific training activities will enable graduates to operate drones and drone sensors to provide in-demand commercial services -- such as the close-up inspection of fixed structures like power lines, utility poles, and cell phone towers. The project will serve 100 trainees over the two-year life of the award, will leverage \$14,000,000 in private investment, and will, in conjunction with a previous ARC POWER award, further strengthen the emerging drone industry cluster in the West Virginia-Kentucky-Virginia tri-state area.

Project Title: *Kentucky Highlands Employment and Financial Training Program*

Grantee: Kentucky Highlands Investment Corporation

Award Amount: \$1,250,000

Announcement Date: January 2017

Project Summary: ARC grant to the Kentucky Highlands Investment Corporation in London, KY, for the *Kentucky Highlands Employment and Financial Training Program*. The ARC award will capitalize a loan fund to enable Kentucky Highlands to invest in local entrepreneurs at both the start-up and expansion stages of companies located across 21 southeastern Kentucky counties. In addition, ARC's award will engage the Appalachian Community Federal Credit Union (ACFCU) to expand their portfolio of financial literacy services to the project's service territory. Specifically, ACFCU programs will increase financial knowledge, security, and wellness through the provision of credit builder loans, debt consolidation loans, payday alternative loans, affordable non-prime auto loans, and 80/20 mortgage loans. The project will create or retain 200 jobs and leverage \$2,250,000 in private investment.

Project Title: *WestCare Kentucky/Judi Patton Center for Families*

Grantee: WestCare Kentucky, Inc.

Award Amount: \$1,136,225

Announcement Date: April 2019

Project Summary: ARC grant to WestCare Kentucky, Inc., in Pikeville, KY, for the *Judi Patton Center for Families*. The project will renovate a 24,600-square-foot building into a facility that will provide residential substance abuse treatment for women in tandem with therapeutic treatment for their children. Female patients will live with their children at the site while receiving treatment through professional, licensed, evidence-based, gender-specific programming for women. Onsite therapeutic child care will provide a safe environment for children while their mothers obtain needed recovery services. Some patients will be trained to become peer recovery coaches, thus supporting efforts to help people in recovery return to the job market. When fully operational, the center will serve 300 patients each year. The project will create 25 permanent jobs that are needed to operate the facility. The project complements a 2015 POWER award from the U.S. Economic Development Administration.

Project Title: *Community Oriented Access to Learning (COAL)*

Grantee: The Center for Rural Development

Award Amount: \$1,000,000

Announcement Date: October 2018

Project Summary: ARC grant to the Center for Rural Development in Somerset, KY, to support the Center's Community Oriented Access to Learning (COAL) program. This training program will serve 14 counties in southern and eastern Kentucky that have been severely impacted by the downturn of coal production. The program will assist unemployed and under-employed individuals from these communities in obtaining training and education that will support them in finding employment. Additionally, the program will benefit employers within the region by providing a more skilled workforce to meet growing workforce demands. The grant will support training and education in two growing sectors: Allied Health and Information Technology. The COAL program will also offer much-needed soft skills training. The COAL program expects that 50 Allied Health workers/trainees will obtain employment in a field related to their training, 110 Information Technology students will obtain employment and/or move into a higher-level position based on the training they receive through this program, and 26 broadband technology students will obtain employment and/or continue their education.

Project Title: *Community Ventures -- Build Appalachia Loan Fund*

Grantee: Community Ventures Corporation

Award Amount: \$1,000,000

Announcement Date: June 2017

Project Summary: ARC grant to Community Ventures Corporation in Lexington, KY, for the *Build Appalachia Loan Fund* project. The Build Appalachia Loan Fund will provide affordable capital to educational institutions in Appalachian Kentucky and West Virginia that will own, operate, and manage facilities that are eligible for New Markets Tax Credits (NMTC). The loan fund will provide gap financing for major projects and will attract primary and leveraged financing for the construction or renovation of college facilities. A strategic partner in the Build Appalachia Loan Fund is the Appalachian College Association, a group of 4-year private educational institutions that seek new sources of investment capital. The fund's focus will be in healthcare-related higher education, given that much of the region is medically underserved and there is strong demand for qualified health professionals. Additional financial support for the fund is being provided by the Robert Wood Johnson Foundation, the Mary Reynolds Babcock Foundation, and the Opportunity Finance Network. The Build Appalachia Loan Fund will leverage \$50 million in private investment in 5 projects, creating 500 new jobs in healthcare-related activities.

Project Title: *Appalachian HEAT Squad*

Grantee: Fahe

Award Amount: \$1,000,000

Announcement Date: October 2016

Project Summary: ARC grant to the Federation of Appalachian Housing Enterprises, Inc., (Fahe) in Berea, KY, for the *Appalachian HEAT Squad* project. ARC's investment will be utilized to improve the energy efficiency of low-income homes in coal-impacted communities across a nine-county region in eastern Kentucky—while also creating entrepreneurial and skills-based training opportunities in the area. The project will partner with Hazard Community and Technical College and the Mountain Association for Community Economic Development (MACED) to deliver the entrepreneurial education and construction training component, and with two other training organizations to increase the skill-base for private housing contractors operating in the region. The project will create or retain 119 jobs, increase the quality, affordability, and performance of over 270 homes, and leverage \$525,000 in private investment.

Project Title: *UPLIFT Appalachia Recovery*

Grantee: Fahe

Award Amount: \$1,000,000

Announcement Date: January 2017

Project Summary: ARC grant to the Federation of Appalachian Housing Enterprises (Fahe) in Berea, KY, for the *UPLIFT Appalachia Recovery* project. The ARC award will be used to finance three community recovery facilities that will support residents' recovery from addiction, provide needed health services, and create job opportunities in coal-impacted communities. These facilities will primarily serve three eastern Kentucky counties—each of which is located within the federally designated USDA Strike Force Zone. Specifically, the award will facilitate the development of a housing facility in Louisa, KY, that works with patients for 2-3 years and focuses on transitioning them from the center's care directly into an internship or job; assist in the creation of a 100-bed facility in Somerset, KY, that employs a peer-based care model in which patients in different stages of recovery work together to get and remain sober; and enable an existing facility in Jackson, KY to expand their services to an additional 990 people, to build a dental clinic, and to partner with the University of Pikeville for optometry care. The award will serve 5,060 patients, create or retain 63 jobs, and will leverage investment from USDA's Uplift America program and private investors.

Project Title: *Second Chance Employment*

Grantee: Fahe

Award Amount: \$1,000,000

Announcement Date: February 2019

Project Summary: ARC grant to Fahe Inc. in Berea, KY, for the *Second Chance Employment* project, which will create a stronger second-chance employment market for those in recovery from addiction in Eastern Kentucky. Fahe will work with local employers in 6 coal-impacted counties (Harlan, Jackson, Knox, Rockcastle, Laurel, and Pulaski) to expand successful reemployment models by creating opportunities for business owners to become part of the solution, and by enabling Kentuckians in recovery to craft a better future for themselves, their families, and their communities. The project will create a coach/mentorship program for those interested in becoming Second Chance employers. Fahe will partner with DV8, an innovative business located in Lexington, Kentucky, that is pioneering a reemployment model built on providing second-chance opportunities for individuals in recovery by providing job training and above-average pay. The experienced staff of DV8 Kitchen (a social enterprise restaurant and bakery focused on hiring and training people in recovery) will educate local businesses and organizations on the facts about recovery and offer the chance for these organizations to apply for an intern. Employers will apply to obtain a six-month paid recovery intern, with the understanding that the employee will be hired after satisfactory performance. The labor pool for these internships will be derived from Kentucky addiction treatment centers. As a result of the project, 45 businesses will be improved through their knowledge of recovery-friendly workplaces and 30 workers will be placed as interns.

Project Title: *Neonatal Intensive Care Unit (NICU)*

Grantee: Saint Joseph London Foundation, Inc.

Award Amount: \$990,510

Announcement Date: October 2020

Project Summary: ARC grant of \$990,510 to the Saint Joseph London Foundation, Inc., in London, KY to create a *Neonatal Intensive Care Unit (NICU)* at Saint Joseph London Hospital. The new facility will have the capacity to serve 100 newborn babies each year and will enable the creation of 19 full-time jobs. London and surrounding areas of Kentucky have seen troubling increases in the number of babies born with neonatal abstinence syndrome (NAS), reflecting the prevalence of drug use among mothers and the lack of effective substance

abuse prevention and treatment services. Few facilities offer NICU capabilities for NAS babies or others born with severe needs, and the nearest Level II NICU services are in Lexington or Pikeville. By establishing a neonatal intensive care unit, Saint Joseph Hospital will offer local specialized care for babies, improving treatment while reducing burdens on parents and families. The project will renovate a major area of the existing hospital and acquire equipment and supplies needed to establish a six-bed NICU.

Project Title: *Troublesome Creek Stringed Instruments Company*

Grantee: Appalachian Artisan Center, Inc

Award Amount: \$867,582

Announcement Date: February 2019

Project Summary: ARC grant to the Appalachian Artisan Center, Inc. in Hindman, KY, for the *Troublesome Creek Stringed Instruments Company*. The project will support a startup manufacturing company in making high-end custom artisanal guitars, mandolins, and mountain dulcimers from Appalachian hardwoods. The Appalachian Artisan Center's existing School of Luthiery will serve as the workforce development arm and Eastern Kentucky Concentrated Employment Program (EKCEP) will provide financial assistance for training for supplemental employment costs. The company will use an existing building and woodworking facility at the Kentucky School of Craft, which will be rented to the company at a discounted rate by the Hazard Community and Technical College. This will be Knott County's first manufacturing plant. The project will create additional demand for high quality Appalachian hardwood tonewoods and will support local businesses supplying these woods. The company projects new employment of 18 over the first three years, growing to 37 by year six and ultimately reaching 65 employees.

Project Title: *Hope Building*

Grantee: Housing Development Alliance, Inc.

Award Amount: \$833,670

Announcement Date: February 2019

Project Summary: ARC grant to the Housing Development Alliance, Inc. in Hazard, KY, for the *Hope Building* program. Housing Development Alliance (HDA), in partnership with the Perry County Drug Court (PCDC), Hickory Hill Recovery Center (HHRC), Hazard Community and Technical College (HCTC), and Eastern Kentucky Concentrated Employment Program (EKCEP), will provide people in recovery from addiction with training and support services to re-enter the workforce. Through paid, on-the-job training opportunities in the residential construction industry, Hope Building participants will develop a positive work history and gain valuable certifications while earning wages from on-the-job training. Trainees will be supported by EKCEP as they search for permanent job placement and will receive counseling and support services from HHRC or PCDC. Hope Building will benefit the regional economy by creating workforce housing in an area where the demand for new, modest housing exceeds the current housing supply. After homes are constructed and sold by HDA, the proceeds will be reinvested in the program. Over three years approximately 25 participants will receive training, counseling, and related services and build 15 units of workforce housing.

Project Title: *Welding Technology*

Grantee: Hazard Community and Technical College

Award Amount: \$600,000

Announcement Date: October 2018

Project Summary: ARC grant to Hazard Community and Technical College (HCTC) in Hazard, KY, to expand the college's welding technology program. HCTC's welding technology program is operating at capacity and the demand generated by regional employers exceeds the resources available to the college. The grant will fund renovations, equipment, and

personnel, serving at least 12 more students per cohort in each short-term training. The training is developed in consultation with area employers. At the end of the grant period, HCTC expects 70 workers/trainees will obtain a job in the field for which they were specifically trained and 60 students will complete the credit-bearing training program. The expansion of the welding program builds on a prior POWER grant to HCTC to expand its course offerings in four other career clusters. Over three years approximately 25 participants will receive training, counseling, and related services and build 15 units of workforce housing.

Project Title: *Southeast Kentucky Revitalization Project*

Grantee: Southeast Kentucky Community & Technical College

Award Amount: \$596,250

Announcement Date: September 2017

Project Summary: ARC grant to the Southeast Kentucky Community and Technical College (SKCTC) in Cumberland, KY, for the Southeast Kentucky Revitalization project. SKCTC is working with strategic partners to develop an innovative series of training programs to develop and retrain the workforce and create economic sustainability. The goal of these programs is to prepare individuals for opportunities in emerging sectors and develop social and physical infrastructure better suited to take advantage of these developing economic opportunities. The first phase of the project will involve community engagement and other planning activities that will be used to refine the final training programs in the second phase. Training areas will initially include hospitality and customer service training, design and digital literacy, and training for next-generation contractors and builders. The project is expected to improve 29 businesses, create or retain 80 jobs, and train 165 people.

Project Title: *Whitesburg Daniel Boone Hotel Stabilization*

Grantee: City of Whitesburg, KY

Award Amount: \$500,000

Announcement Date: January 2017

Project Summary: ARC grant to the City of Whitesburg, KY, for the Whitesburg Daniel Boone Hotel Stabilization project. ARC funds will be utilized to make immediate and urgent repairs to stabilize the historic, brick Daniel Boone Hotel—which represents the city's rise after the arrival of railroads and the opening of the region's coalfields. The hotel is a central component of Whitesburg's economic development future and revitalization plans. After the structure is stabilized and renovated, it will be a regional destination and economic driver. The project will create 23 jobs, leverage \$2,000,000 in private investment, and will attract 9,900 additional visitors annually to the area.

Project Title: *Shaping Our Appalachian Region Science, Technology, Engineering, and Mathematics (SOAR STEM) Initiative*

Grantee: Morehead State University

Award Amount: \$497,305

Announcement Date: June 2017

Project Summary: ARC grant to Morehead State University in Morehead, KY, for the next phase of *Shaping Our Appalachian Region Science, Technology, Engineering, and Mathematics (SOAR STEM)* project. The project's goal is to develop a highly skilled STEM workforce that can foster job growth and business expansion in an area that has experienced major job losses because of the decline in coal. It has four main areas of focus: upskilling teachers so that they receive National Board Certification; training high school teachers across 27 counties of eastern Kentucky to implement curriculum developed by Project Lead The Way, a nationally recognized developer of K–12 STEM education curricula and professional development; supporting the development of Mentoring Centers—partnerships between industry and local school districts that provide paid internships and mentoring for high school students and connect the future workforce with local employers; and support for

maker spaces, entrepreneur hubs, and a Navy Seals coding boot camp that provide hands-on skill training and experience. The program will train over 80 teachers and impact 20,000 students over the first three years of implementation.

Project Title: *Selling to the World Initiative*

Grantee: Southeast Kentucky Community and Technical College

Award Amount: \$300,000

Announcement Date: June 2017

Project Summary: ARC grant to Southeast Kentucky Community and Technical College (SEKCTC) in Cumberland, KY, for the *Selling to the World Initiative*. SEKCTC, along with Eastern Kentucky Concentrated Employment Program (EKCEP) and the Discover Downtown Middlesboro Main Street Association, piloted an initiative in 2015 targeting eastern Kentucky artisans and craftspeople whose products are the type and quality that could support internet-based businesses for world-wide marketing and sales. The initiative seeks to boost the region's economy—which has been adversely affected major job losses in the coal industry—by growing local businesses, strengthening the entrepreneurial support system, helping “brand” products from the region, and promoting exports. The two-year launch phase of the initiative was privately funded by the New York Community Trust. The ARC investment will continue this activity, concentrating on artisan businesses from four coal-impacted eastern Kentucky counties, one county from northeast Tennessee, and one county from southwest Virginia. The program for artists and craft makers is expected to help create 30 new jobs and leverage \$297,000 in private investment.

Project Title: *Restoring PRIDE in Kentucky's Appalachia*

Grantee: Eastern Kentucky PRIDE, Inc.

Award Amount: \$80,000

Announcement Date: June 2017

Project Summary: ARC technical assistance grant for Eastern Kentucky PRIDE, Inc., in Somerset, KY, for the *Restoring PRIDE in Kentucky's Appalachia* project. PRIDE, along with The Foundation for Appalachian Kentucky, Eastern Kentucky University, and Union College, will develop a tourism-based strategic plan for 41 counties in eastern Kentucky, an area impacted by the downturn in the coal industry. By the end of the 12-month technical assistance, the partners will decide upon a branding plan to attract public and private investment for increased economic activity via joint marketing initiatives, new branding, and heritage tourism activities.

Project Title: *Creative Capital Investment Assessment: Southeastern Kentucky*

Grantee: Southeast Kentucky Community & Technical College

Award Amount: \$80,000

Announcement Date: October 2018

Project Summary: ARC grant to Southeast Kentucky Community and Technical College in Cumberland, KY, for an assessment of investment opportunities in five Southeastern Kentucky counties (Bell, Harlan, Knott, Letcher, Perry), focusing on identifying redevelopment projects that also include potential entrepreneurship components. The assessment will include an executive summary that presents an overview of creative place-making in the five-county region, an economic and financial snapshot for each county, and investment case studies from within Southeastern Kentucky as well as from outside the region. The findings will yield a set of recommended investments and opportunities. Additionally, a communications strategy will be released to help market these opportunities to local communities, developers, and philanthropies. The assessment will tie in the work of six POWER-funded projects in the area.

Project Title: *Lewis County Broadband Strategic Plan and Feasibility Study*

Grantee: Lewis County Fiscal Court

Award Amount: \$76,000

Announcement Date: February 2019

Project Summary: ARC grant to the Lewis County Fiscal Court in Vanceburg, KY, for the *Lewis County Broadband Strategic Plan and Feasibility Study*. Lewis County, like most of Eastern Kentucky, does not have adequate broadband coverage. The project will conduct a feasibility study and craft a strategic plan to assist the county in creating a phased broadband implementation plan that can be used as a roadmap for action. The study will determine what broadband assets and resources currently exist in the county and determine what broadband bandwidth the community needs to foster economic growth.

Project Title: *Local Food Supply Chain Development in Eastern Kentucky*

Grantee: Kentucky Center for Agriculture and Rural Development

Award Amount: \$75,000

Announcement Date: October 2015

Project Summary: ARC grant to the Kentucky Center for Agriculture and Rural Development in Elizabethtown, KY, for *Local Food Supply Chain Development in Eastern Kentucky* project. The U.S. Economic Development Administration is also awarding \$468,635 to this project. Entrepreneurs using the Jackson County Regional Food Center in Tyner, KY, will receive technical assistance in areas such as business planning and marketing to help them reach targeted markets for their products.

Project Title: *Unleashing the POWER of the I-Way*

Grantee: Shaping Our Appalachian Region, Inc.

Award Amount: \$75,000

Announcement Date: October 2015

Project Summary: ARC grant to Saving Our Appalachian Region (SOAR) in Pikeville, KY, for *Unleashing the Power of the I-Way!* The U.S. Economic Development Administration is awarding \$1,000,000 and ETA is awarding \$2,000,000 to the Commonwealth of Kentucky as part of this project. The Kentucky Institute for Economic Development will offer annual training in professional development and economic development best practices to professionals recruited by the Eastern Kentucky Concentrated Employment Program (EKCEP) and other partners.

Project Title: *Mines to Minds: SE Kentucky High Tech Workforce Training*

Grantee: Appalshop, Inc.

Award Amount: \$75,000

Announcement Date: October 2015

Project Summary: ARC grant to Appalshop, Inc., in Whitesburg, KY, for *Mines to Minds: Southeast Kentucky HighTech Workforce Training*. The U.S. Economic Development Administration is also awarding \$200,000 to this project. ARC funds will be used to purchase digital multi-media supplies and equipment and to fund the creation of a technology and digital workforce development training curriculum in collaboration with area educators and regional employers.

Project Title: *Gateway Regional Workforce Development Plan*

Grantee: Gateway Area Development District

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to Gateway Area Development District in Morehead, KY for the *Gateway Regional Workforce Development Plan*. This technical assistance project will create a plan that identifies the area's primary economic sectors and potential emerging

sectors that can provide sustainable economic growth and development. The plan will be used as a guide by key partners and community stakeholders to implement training and transition programs that will fill skillset gaps, aid the workforce in transitioning to other existing and emerging economic sectors, and expand the local workforce in a nine-county area.

Project Title: *Patriot Drug Treatment and Rehabilitative Center*

Grantee: Whitley County Fiscal Court

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to the Whitley County Fiscal Court in Williamsburg, KY for the *Patriot Drug Treatment and Rehabilitative Center* feasibility study. The study will determine the viability of a drug treatment and rehabilitative center with a workforce training component located near Williamsburg, KY. The study will analyze the assets and resources that already exist in the area and will recommend the best practices for implementing this type of facility to meet the community's needs. The proposed Center will be located on property owned by the University of the Cumberlands. It will offer detox, inpatient residential treatment, and outpatient services, and will promote re-entry into the workforce through close relationships with workforce development organizations. The county will use the study as a roadmap to develop the appropriate programs/services to combat the opioid epidemic, while assisting in increasing labor force participation rates to spur economic growth.

Project Title: *The Magic of Carr Creek: A Community Revitalization Project*

Grantee: Carr Creek Alumni Association

Award Amount: \$50,000

Announcement Date: February 2019

Project Summary: ARC grant to the Carr Creek Alumni Association in Littcarr, KY, for *The Magic of Carr Creek: A Community Revitalization Project*. Designed to maximize the economic impact of over 690,000 annual visitors to Carr Creek Lake, the project will examine the conversion of a former high school into a multi-use facility. The project will conduct an economic feasibility/market demand study, develop a regional strategic agenda for tourism, and conduct community engagement and partnership development efforts. Project partners include the tourism offices of Letcher, Knott, and Perry counties.

Project Title: *Tiny House Manufacturing*

Grantee: Eastern Kentucky (EKY) Heritage Foundation, Inc.

Award Amount: \$6,320

Announcement Date: October 2020

Project Summary: ARC grant of \$6,320 to the Eastern Kentucky (EKY) Heritage Foundation, Inc., in Whitesburg, KY for the *Tiny House Manufacturing* project. The Foundation will conduct a feasibility study to determine the viability of providing vocational training to persons in addiction recovery care and hiring them to build tiny houses. A strategic plan will be based on the findings in the feasibility study. The study will be conducted in collaboration with HOMES, Inc., Fahe, and Addiction Recovery. By using the construction and distribution of tiny houses to support the drug and substance abuse post-treatment to employment continuum, tiny house manufacturing could serve as a model for second chance employment in the Region.

MARYLAND (2 awards)

Project Title: *Feasibility Study for the Industrial Hemp Processing Industry*

Grantee: Western Maryland Resource Conservation & Development Council

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to the Western Maryland Resource Conservation & Development Council in Hagerstown, MD for a *Feasibility Study for the Industrial Hemp Processing Industry*. The project will conduct a feasibility study to determine the steps, conditions, and resources necessary to establish an industrial hemp processing facility that serves six counties in Maryland, West Virginia, and Pennsylvania. Industrial hemp shows promise for improving farm income, sustainability, community tax bases, and soil health in an area that has a strong agricultural history. As a result of the study, 100 businesses will be served and 10 businesses improved.

Project Title: *I-68 Regional Economic Partnership*

Grantee: Tri-County Council for Western Maryland

Award Amount: \$48,000

Announcement Date: January 2017

Project Summary: ARC grant to Tri-County Council for Western Maryland, Inc. in Frostburg, MD, for technical assistance to develop an economic development plan for the I-68 region in Maryland and West Virginia. The *I-68 Regional Economic Partnership* project will include the development of a regional asset map regional labor shed analysis, a target industry list, as well as county and regional lists of recommendations. The data and maps developed through the project will serve as resources for companies looking to build, hire, or expand in the region. Workforce training and job creation are two anticipated outcomes of the project. Local sources will match the \$48,000 in project funding provided by ARC.

MISSISSIPPI (1 award)

Project Title: *East Mississippi Power Initiative 2018*

Grantee: Golden Triangle Planning and Development District

Award Amount: \$730,559

Announcement Date: October 2018

Project Summary: ARC grant to the Golden Triangle Planning and Development District in Starkville, MS, to support a project that will diversify the economy of four coal-impacted Mississippi counties (Choctaw, Kemper, Webster, and Winston) by building a competitive manufacturing workforce. The project's first goal is to implement a middle-skill manufacturing training program based on the *Mississippi Works Smart Start Career Pathway Model* to build up a skilled workforce in the four counties. The second goal is to strengthen existing *Pathway Model* programs in the region, especially work experience opportunities. Developed by the State of Mississippi, the *Pathway Model* consists of intensive career development, necessary skills assessment, and basic skills development with career enrichment activities geared toward in-demand, middle-skilled occupations. Training will be provided by three area community colleges. At least six of the eight participating companies will be improved by hiring students and trainees. It is anticipated that 108 of the students who enter a training program will complete and obtain employment. All 165 incumbent workers will benefit from having higher level skills, and 31 of the unemployed adults will obtain employment.

NEW YORK (6 awards)

Project Title: *Creating a Diverse, Redundant and Resilient High Capacity Fiber Network*

Grantee: Southern Tier Network

Award Amount: \$1,552,554

Announcement Date: February 2020

Project Summary: ARC grant of \$1,552,554 to the Southern Tier Network in Corning, NY, for the Creating a Diverse, Redundant and Resilient High Capacity Fiber Network project. The project will enable the Southern Tier Network (STN), a non-profit, open-access fiber network, to expand its existing high-speed fiber-optic ring in the Southern Tier of New York by adding 84 miles of fiber loops, increasing the network's redundancy. This will create a less vulnerable and more resilient broadband asset in five counties of New York's Southern Tier (Chemung, Schuler, Steuben, Tioga, and Thompkins). The expansion and stabilization of the network will ensure that rural businesses have reliable access to broadband services, students will be able to complete Internet-based homework, and telehealth options are available to residents. The project will provide more reliable internet service to 29 businesses employing over 500 people, including a hospital and 8 medical clinics, as well as to 911 emergency response services. The fiber network is used by eight for-profit service providers that lease fiber from STN to provide service to over 50,000 customers. Additional financial support is being provided by the U.S. Economic Development Administration and the State of New York.

Project Title: *Biorefinery Development and Commercialization Center*

Grantee: The Research Foundation for SUNY on behalf of Alfred State College

Award Amount: \$1,500,000

Announcement Date: September 2017

Project Summary: ARC grant to Alfred State College (ASC) in Alfred, NY, for the *Biorefinery Development and Commercialization Center (BDCC)* project. The project will help private and public partners leverage natural resources (wood) to create sustainable businesses using advanced manufacturing processes. It will strengthen a regional economy that has experienced the closure of a coal-fired power plant and job losses in coal supply-chain companies. The BDCC is a prototype facility that will develop and commercialize a process that extracts valuable chemical assets from wood and uses them to manufacture basic commodities and advanced technology materials, energy, and biofuels. The facility will spur additional investment, including business start-ups and full-scale biorefineries. It will be used by ASC, the State University of New York (SUNY), universities from other ARC states, and private-sector bioenergy and biochemical companies. The college and its network will also provide training and technical services to coal-impacted companies as they seek to enter new markets, diversify their manufacturing base, and adapt their workforce. The facility will contribute to the creation of 15 new business and help 125 workers gain skills and retain or gain employment.

Project Title: *Allegany County-Wide Broadband*

Grantee: Southern Tier West Regional Planning and Development Board

Award Amount: \$426,304

Announcement Date: October 2020

Project Summary: ARC grant of \$426,304 to the Southern Tier West Regional Planning and Development Board in Salamanca, NY for the *Allegany County-Wide Broadband* project. The project will install fixed wireless broadband equipment at 12 telecom sites in the county, offering 50 Mbps internet speeds to 2,879 households, 170 businesses, and 39 communities. Due to Allegany County's low population density and rugged terrain, the high cost to deploy traditional fiber broadband infrastructure has served as a barrier to expanding high-speed internet service in the area. As a result, households and businesses must rely on satellite internet, whose service is encumbered by low latency, unreliability, and data caps. The

project will bring reliable high-speed wireless internet service to unserved and underserved areas of the county, enabling businesses to expand their supply chain and customer base and residents to take advantage of telemedicine and online learning opportunities.

Project Title: *Cayuga Data Juice–Broadband Connectivity*

Grantee: Tompkins County Area Development

Award Amount: \$404,170

Announcement Date: October 2020

Project Summary: ARC grant of \$404,170 to Tompkins County Area Development in Ithaca, NY for the *Cayuga Data Juice–Broadband Connectivity Project*. This project will install a 17-mile fiber broadband trunk from Ithaca to the recently retired Cayuga coal plant in Lansing, NY. In partnership with Binghamton University and Beowulf Energy, this middle-mile broadband expansion will provide gigabit service to the proposed \$100 million Cayuga Data Center, a high-capacity data center with a strong focus on artificial intelligence and machine learning. The fiber will allow the data center to connect to the Southern Tier Network (STN), which has received support through a previous POWER grant. The project will improve 2,134 businesses and serve 16,234 households within a two-mile radius of the proposed line. Matching funds are provided by Heorot Power Management and the grantee.

Project Title: *Southwest NY Wireless Broadband*

Grantee: Southern Tier West Regional Planning and Development Board (STW)

Award Amount: \$395,000

Announcement Date: October 2019

Project Summary: ARC grant to Southern Tier West Regional Planning and Development Board (STW) in Salamanca, NY for the *Southwest NY Wireless Broadband* project. The project will purchase and install fixed wireless broadband equipment and backhaul fiber. This new equipment will enable delivery of effective capacity and cost competitive Wi-Fi broadband service in underserved and unserved areas of eight rural communities in three New York counties (Allegany, Cattaraugus, and Chautauqua). The counties have been adversely affected by the closure of coal-fired power plants and the decline in freight rail volume due to reduced coal traffic. STW is collaborating with two internet providers to close the high-speed coverage gap, improving access to telehealth, business resources, and economic opportunity. The installation of new antennas on eight existing cell towers and the construction of a new tower will provide high-speed, low latency coverage to over 1,100 locations. This includes 206 small businesses, 121 agricultural locations, and 10 tourism destinations.

Project Title: *Dunkirk/Chautauqua County Power Plant Redevelopment Alternatives and Feasibility Analysis*

Grantee: The City of Dunkirk

Award Amount: \$60,000

Announcement Date: February 2019

Project Summary: ARC grant to the city of Dunkirk, NY, for the *Dunkirk/Chautauqua County Power Plant Redevelopment Alternatives and Feasibility Analysis* project. The city of Dunkirk will conduct a redevelopment and feasibility analysis for the NRG Power Plant site, the location of a closed coal-fired power plant. The site consists of 75.9 acres of land located at Dunkirk Harbor on the City's Lake Erie waterfront. NRG has announced that the company will abandon the site, resulting in lost jobs and reduced tax revenue. The feasibility analysis will guide the redevelopment of the site into a productive and tax-generating property. The scope of the work includes an assessment of the assets and liabilities of the site, market analysis, reuse strategy alternatives, and recommended actions.

NORTH CAROLINA (15 awards)

Project Title: *French Broad EMC Fiber Deployment*

Grantee: French Broad Electric Membership Corporation (FBEMC)

Award Amount: \$1,939,814

Announcement Date: October 2020

Project Summary: ARC grant of \$1,939,814 to the French Broad Electric Membership Corporation (FBEMC) in Marshall, North Carolina, for the *French Broad EMC Fiber Deployment* project. The project will deploy 120 miles of broadband fiber, which will serve 1,300 households, 44 businesses, and two communities in Unicoi County, Tennessee, and Madison County, North Carolina. The project will deploy high-speed fiber broadband to areas in and around Rocky Fork State Park (a major asset in the region) that currently lack access to broadband internet. FBEMC will use existing right-of-way to expand the infrastructure. The expansion of broadband in the area will create opportunities for economic development, telemedicine, and higher education attainment. Both counties were adversely affected when a decline in coal traffic led to the closure of a rail yard in Erwin, TN.

Project Title: *Broadband Deployment to Rocky Fork State Park and Surrounding Area*

Grantee: French Broad Electric Membership Corporation (FBEMC)

Award Amount: \$1,932,500

Announcement Date: October 2019

Project Summary: ARC grant to French Broad Electric Membership Corporation (FBEMC) in Marshall, NC for the *Broadband Deployment to Rocky Fork State Park and Surrounding Area* project. This project will address provide broadband access to unserved and underserved sections of Madison County, NC and Unicoi County, TN. Both counties were adversely affected when a decline in coal traffic led to the closure of a rail yard in Erwin, TN. A local survey in 2016 determined that approximately 30 percent of Madison county residents reported limited or no broadband service. FBEMC predicts that Unicoi county exhibits a similar gap in broadband coverage. By designing and installing over 50 miles of critical fiber infrastructure to these areas, increased access will enable greater opportunities for telecommuting lifestyles, business creation, and educational services. FBEMC will use existing right-of-way to expand the infrastructure. The deployed fiber will serve Rocky Fork State Park (a major asset in the region), an estimated 20 businesses, and approximately 1,100 homes (thereby assisting students and strengthening home-based businesses).

Project Title: *TROSA's Expansion to Forsyth County*

Grantee: Triangle Residential Options for Substance Abusers, Inc. (TROSA)

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to Triangle Residential Options for Substance Abusers, Inc. (TROSA) in Durham, NC, for the *TROSA's Expansion to Forsyth County, NC* project. TROSA will establish a substance use recovery program in Forsyth County to serve Appalachian residents. The Forsyth County area has seen supply-chain manufacturing job losses as a result of the decline in the coal industry. Using a "Recovery to Work" model, the program will emphasize job and life skills training for participants with substance use disorder, developing a ready workforce. TROSA's existing program, which is outside the Appalachian Region, is nearing its daily capacity, and the new campus will focus on providing the treatment and recovery services to individuals within Appalachia. The Appalachian campus will have a daily capacity of 200 residents. The program will open several social enterprises, which will provide hands- on job skills training for residents while generating revenue to keep services cost-free. The new campus is expected to create 18 new staff positions. After completing the program, 100 percent of graduates will leave with full-time employment, and at least 90 percent of

graduates from the two-year program are expected to remain sober and employed for at least one year.

Project Title: *WNC Farmers Market Value-Added Manufacturing & Training Center*

Grantee: Southwestern NC Planning and Economic Development Commission

Award Amount: \$1,250,000

Announcement Date: October 2018

Project Summary: ARC grant to the Southwestern NC Planning and Economic Development Commission in Sylva, NC, for physical improvements to the Western North Carolina Farmers Market (WNCFM). This investment will bring the market to appropriate standards and capacity to expand the region's food and agricultural economy. The project will strengthen the economy in an area that has seen job losses associated with the closure of a nearby coal-fired power plant and the conversion of another coal-power generation facility to natural gas. The infrastructure improvements will provide immediate benefits to 64 market-dependent businesses, will attract new clients and consumers to the market, and will provide space to incubate value-added businesses. Construction of a Value-Added Food Business Support Center, managed by Blue Ridge Food Ventures, will expand operations at the WNCFM to include entrepreneurs engaged in production and sale of foods, cosmetics, and natural products in an FDA certified facility. Performance outcomes from this investment are expected to include 64 businesses improved, 36 businesses created, 50 new jobs created, 120 existing jobs retained, 150 students improved, 25 worker trainees improved, and \$700,000 in leveraged private investment. Additional funding is being provided by the North Carolina Department of Agriculture.

Project Title: *EmPOWERing Mountain Food Systems*

Grantee: North Carolina State University

Award Amount: \$1,100,000

Announcement Date: April 2019

Project Summary: ARC grant to North Carolina State University in Raleigh, NC, for *EmPOWERing Mountain Food Systems*. Focused in a seven-county "foodshed" region in Western North Carolina, the project will develop a sustainable infrastructure for local and regional food systems, thereby strengthening the regional economy. This comprehensive model will include entrepreneurship and business development, workforce development and apprenticeships, training for growers and food businesses, market development, value-added production, infrastructure, and agritourism promotion. The project features collaboration among multiple Cooperative Extension offices, three community colleges, Southwestern Commission Council of Governments, Blue Ridge Food Ventures, and the Eastern Band of Cherokee Indians. It will create 129 new jobs, train over 1700 workers and students, and generate \$1.04 million in private investment. Additional financial support is being provided by the Cherokee Preservation Foundation.

Project Title: *Creating a Textile and Furniture Circular*

Grantee: The Industrial Commons

Award Amount: \$977,850

Announcement Date: October 2020

Project Summary: ARC grant of \$977,850 to The Industrial Commons in Morganton, NC for the *Creating a Textile and Furniture Circular Economy* project. The project will create a textile and furniture circular economy, marked by recycling, that supports small- to mid-size manufacturers in diversifying and expanding into new sustainable markets. The Industrial Commons, an interconnected web of employers, networks, and cooperatives, will expand operations of a waste aggregation site, initiate production of and demand for recycled yarn, create two new companies, and deliver innovative training programs. These training programs will include a focus on key business sectors such as business finance and

entrepreneurship, and will offer skills training to those overcoming substance abuse issues. In addition to the creation of two new enterprises, the program will create 30 new jobs and improve five businesses and 360 participants. The project will result in \$1.175 million of leveraged private investment and will serve businesses in western North Carolina and upstate South Carolina. The project is the outgrowth of a feasibility study funded under a prior POWER grant.

Project Title: *Growing Outdoors: Expanding the Outdoor Gear Manufacturing Sector*

Grantee: Mountain BizCapital Inc. dba Mountain BizWorks

Award Amount: \$940,000

Announcement Date: April 2019

Project Summary: \$940,000 ARC grant to Mountain BizWorks in Asheville, NC, for a collaborative regional approach to expanding Western North Carolina's (WNC) promising outdoor gear manufacturing industry. With a focus on fostering entrepreneurship in this sector, the project will leverage assets within the region's coal-impacted communities to create and grow new businesses. These assets include a skilled workforce, the region's manufacturing heritage, and popular natural and cultural resources. The project will also support timely economic diversification in WNC's communities that have lost jobs and economic activity related to coal industry contractions, including the conversion of coal-fired power generating facilities, the closure of a key coal rail yard, and the loss of mining-related customers for local manufacturers. Strategies for boosting the outdoor gear sector include workforce development, entrepreneurship and access to capital, supply chain optimization, and engagement of local economic development practitioners. To advance the sector, Western Carolina University will develop new degree and certificate programs and the area's community colleges will promote outdoor industry career pathways. Outcomes for this project are expected to include 100 businesses improved, 50 students improved, 45 workers/trainees improved through enhanced skills, \$4 million in leveraged private investment, 35 new businesses created, 150 new jobs created, 65 jobs obtained, and \$6 million in new revenue by participating firms.

Project Title: *Healthy and Connected Workforce Initiative*

Grantee: North Carolina Department of Information Technology (DIT)

Award Amount: \$633,940

Announcement Date: October 2020

Project Summary: ARC grant of \$633,940 to the North Carolina Department of Information Technology (DIT) in Raleigh, NC for the *Healthy and Connected Workforce Initiative*. The project will enable DIT's Broadband Infrastructure Office and Office of Rural Health to develop a comprehensive program that will increase access to healthcare for vulnerable populations and disadvantaged groups while simultaneously increasing the economic viability and digital skills for residents seeking to re-enter the workforce and for those currently employed. Increasing access to quality healthcare through telehealth, broadband adoption, and increased digital literacy will both improve the health of residents and enhance their ability to actively participate in the local workforce. The project responds to findings in a year-long feasibility study completed by the project's partners with support from a previous POWER award. The project will improve 124 organizations, 235 patients, 135 households, and 180 participants throughout the grant's life cycle.

Project Title: *Redeveloping Coal Impacted Communities within the Appalachian Region: The Role of Community Colleges in Entrepreneurial Training and the Opioid Crisis*

Grantee: Mayland Community College

Award Amount: \$100,000

Announcement Date: October 2018

Project Summary: ARC grant to Mayland Community College in Spruce Pine, NC, on behalf of the Community Colleges of Appalachia (CCA) to develop two strategic plans that address both opioid issues and entrepreneurial training in the coal-impacted communities served by the community colleges. The funding will allow two CCA colleges from each of the thirteen ARC states to participate in the plans' formulation. As plans are developed, they will be made available to all community colleges in the Appalachian region, fostering partnerships that address ARC's goals of developing and maintaining a healthy workforce and creating environments that support the growth of entrepreneurial enterprises. This project will help identify sources of funding that will help with the implementation of the plans.

Project Title: *Dream. Career. Academy. Workforce Development Training and Education Hub Plan*

Grantee: Piedmont Triad Regional Council

Award Amount: \$99,000

Announcement Date: October 2018

Project Summary: ARC grant to the Piedmont Triad Regional Council in Kernersville, NC, for a strategic plan to address the current and future workforce needs of Forsyth and Surry counties—two counties that are experiencing challenges associated with the decline of the coal supply chain as local manufacturers lose customers in the coal industry. This plan will include a state-of-the-art workforce development and education center called the Dream. Career. Academy. The center's purpose will be to train workers to fit the needs of the local and regional economies and close the growing talent alignment and skills gap.

Project Title: *Planning for a Textile and Furniture Circular Economy*

Grantee: The Industrial Commons

Award Amount: \$98,300

Announcement Date: February 2019

Project Summary: ARC grant to The Industrial Commons in Morganton, NC, for *Capturing Emerging Markets Through the Creation of a Textile and Furniture Circular Economy*, a feasibility study of creating a closed circle economy network in Western North Carolina and upstate South Carolina that aggregates textile and furniture waste and transforms it into new, marketable products that go back into the supply chain. The study will identify and map manufacturers in two regions and conduct 100 waste stream audits to understand the content and volume of their waste. The study will also produce a business plan and proformas that define the financial viability of operating a sorting and aggregation facility (the one component missing to create the loop), and provide an understanding of the job creation and investment impacts that could result from such a model.

Project Title: *Broadband Feasibility Study for Telehealth Deployment in Western North Carolina*

Grantee: North Carolina Department of Information Technology

Award Amount: \$98,273

Announcement Date: February 2019

Project Summary: ARC grant to the North Carolina Department of Information Technology in Raleigh, NC, for the *Broadband Feasibility Study for Telehealth Deployment in Western North Carolina* project. The feasibility study will investigate telehealth programs and assess broadband capabilities for 20 counties in Appalachian North Carolina. The study will examine

existing telehealth programs to gauge their efficiency and will conduct an analysis of the broadband infrastructure required to effectively support telehealth applications.

Project Title: *Creation of the Pinebridge Development Strategic Plan*

Grantee: Mayland Community College

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to Mayland Community College in Spruce Pine, NC for *Creation of the Pinebridge Development Strategic Plan*. The College expects to invest over \$22 million to repurpose the unused Pinebridge Coliseum in Mitchell County into an education, business, and community development support center that can facilitate economic development in the region. The strategic plan will draw on existing data and will examine best practices of similar projects at other colleges and in other communities. The plan will create action steps for adapting and scaling those proven successes to the Pinebridge project.

Project Title: *WNC Works: Recovery to Careers*

Grantee: Isothermal Planning and Development Commission

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to the Isothermal Planning and Development Commission in Rutherfordton, NC for the *WNC Works: Recovery to Careers* program. The project will assist the six western North Carolina Local Development Districts (LDD) in coordinating existing regional organizations and programs that promote "Recovery to Work" strategies for individuals recovering from substance abuse. The project will compile a database of existing recovery-to-work programs, survey best practices across all 29 western North Carolina counties, and start a regional recovery-to-work working group made up of representatives from each LDD. The goal is to boost utilization of existing programs, increase the number of individuals returning to work, and help meet employer workforce needs in high-demand occupations and sectors.

Project Title: *Collective Impact Strategies for Expanding Beginning Farmer Support and Training Strategic Plan*

Grantee: Organic Growers School, Inc.

Award Amount: \$34,487

Announcement Date: October 2020

Project Summary: ARC grant of \$34,487 to Organic Growers School, Inc., in Asheville, NC for the *Collective Impact Strategies for Expanding Beginning Farmer Support and Training Strategic Plan*. This project will support the creation of a plan to deploy entrepreneurship education programs and support systems for beginning farmers across Appalachia. The project represents a partnership between eight organizations across Appalachian Virginia, North Carolina, and Georgia. The strategic plan will identify potential partners, assets, and resources, and will provide a funding strategy to implement the strategic plan. The deployment of a multi-state coalition will create a strong network of beginning farmers and support organizations across the Appalachian agricultural and entrepreneurial ecosystem.

OHIO (30 awards)

Project Title: *Southeast Ohio Broadband Backbone*

Grantee: Buckeye Rural Electric Cooperative

Award Amount: \$2,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Buckeye Rural Electric Cooperative in Gallipolis, OH for the *Southeast Ohio Broadband Backbone* project. This grant will fund the installation of 168 miles of fiber to create a broadband network reaching unserved and underserved areas in six counties in Southeast Ohio that have been adversely affected by the decline in the coal economy (Athens, Gallia, Jackson, Lawrence, Meigs, and Vinton). The fiber installation will optimize a \$19.8 million distribution system construction project. Buckeye Rural Electric Cooperative will partner with two internet service providers to economically deliver high-speed internet to rural homes, businesses, farms, ranches, and community facilities such as first responders, health care sites, and schools that are currently underserved. The Buckeye Rural Electric Cooperative is matching ARC funds with \$1,100,000 in private investment. The fiber backbone will serve 1,988 households and 70 businesses.

Project Title: *Leveraging Innovation Gateways and Hubs Towards Sustainability*

Grantee: Ohio University

Award Amount: \$2,000,000

Announcement Date: October 2016

Project Summary: ARC grant to Ohio University in Athens, OH, for the *Leveraging Innovation Gateways and Hubs Toward Sustainability (LIGHTS)* project. The ARC award will strengthen Southern Ohio's entrepreneurial ecosystem by leveraging the capacity of four strategically located "Innovation Hubs"—which provide facilities, equipment and design/engineering expertise to entrepreneurs—and five regional "Gateway Centers" that link local entrepreneurs to a broad array of support services throughout the ecosystem. The project will build on the successful TechGROWTH Ohio model, create 360 new jobs, 50 new small businesses, and bring \$5,000,000 in leveraged private investment to the area.

Project Title: *Social Enterprise Ecosystem Impact (SEE Impact)*

Grantee: Foundation for Appalachian Ohio

Award Amount: \$1,498,637

Announcement Date: October 2020

Project Summary: ARC grant of \$1,498,637 to the Foundation for Appalachian Ohio in Nelsonville, OH for *Social Enterprise Ecosystem Impact (SEE Impact)*. Through technical assistance, outreach, and the formation of an investment fund, SEE Impact will grow the capital resources available to fund social enterprises in Appalachian Ohio and West Virginia. Social enterprises are an underserved entrepreneurial sector that comprises a significant portion of the Appalachian economy. This project will create additional capital opportunities for social enterprises and improve social impact investor recruitment. Using the Social Return on Investment (SROI) methodology, which was developed and refined by Ohio University under prior POWER grants, SEE Impact will provide angel and venture capital investors quantitative measures of social impact in financial terms, facilitating "triple bottom line" investment opportunities in Appalachian social enterprises. The new investment fund will be capitalized at \$1 million. As a result of this project, 120 businesses, 45 communities, and 80 participants will be served; 60 businesses, 45 communities and 20 participants will be improved; 25 businesses and 55 jobs will be created; and \$17 million of total private investment will be leveraged. Ohio University will be a key partner in the project.

Project Title: *LIGHTS-INC*

Grantee: Shawnee State University (SSU)

Award Amount: \$1,496,585

Announcement Date: October 2019

Project Summary: ARC grant to Shawnee State University (SSU) in Portsmouth, OH for the *LIGHTS Inclusive (LIGHTS-INC)* project. The project will build on the success of a previous POWER award, Leveraging Innovation Gateways and Hubs Toward Sustainability (LIGHTS), expanding its geographic footprint and broadening its entrepreneurial training program by incorporating substance abuse recovery support. SSU will extend the LIGHTS Regional Innovation Network by partnering with innovative, existing recovery networks in 26 counties across West Virginia, Kentucky, and Ohio. LIGHTS-INC will combine proven methods of helping those suffering from addiction with entrepreneurial expertise and makerspaces in its Innovation Gateways. The initiative is expected to create 133 jobs and 49 new businesses; leverage over \$1.6 million in private investment; and improve economic opportunities in 38 communities. Partners include Hocking College, Ohio University, the Washington County (OH) Career Center, and the Robert C. Byrd Institute for Advanced Manufacturing at Marshall University.

Project Title: *Youngstown SMART² Network*

Grantee: Eastgate Council of Governments

Award Amount: \$1,450,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,450,000 to the Eastgate Council of Governments in Youngstown, OH for the *Youngstown SMART² Network*. The project will install over 10 miles of fiber conduit in downtown Youngstown as the first step toward establishing a broadband network that can support businesses, healthcare, education, and residents working and learning remotely. The SMART Network is a collection of infrastructure improvements designed to revitalize the Youngstown central business district. It will help reverse decades of outward migration and disinvestment by providing the basic infrastructure needed to support and attract business. The project will capitalize on over \$50 million in recent public and private investments. Matching funds are being provided through a BUILD grant from the U.S. Department of Transportation, a surface transportation block grant, Youngstown State University, Mercy Health, and other public and private partners. The conduit is projected to serve 212 business locations and create 119 new jobs.

Project Title: *Appalachia Rises, Appalachia is Revitalizing an Industry-ready Skilling Ecosystem for Sustainability*

Grantee: Hocking College

Award Amount: \$1,422,965

Announcement Date: October 2016

Project Summary: ARC grant to Hocking College in Nelsonville, OH, for the *Appalachia RISES (Revitalizing an Industry-ready Skilling Ecosystem for Sustainability)* Initiative. The project will leverage the expertise of regional education, business, and government entities to deliver comprehensive workforce training services in employment fields that meet current and anticipated industry needs in North Central Appalachia—including advanced energy, automotive technology, petroleum technology, welding, and commercial driver's license (CDL). The project will train 306 workers over the life of the award, and primarily serve a 17-county region covering southeastern Ohio and central West Virginia.

Project Title: *Asset-based Entrepreneurship: Trails, Towns, and Tourism in the Appalachian Ohio Economy*

Grantee: Rural Action Inc.

Award Amount: \$1,235,727

Announcement Date: October 2019

Project Summary: ARC grant to Rural Action Inc. in The Plains, OH for the *Asset-based Entrepreneurship: Trails, Towns, and Tourism in the Appalachian Ohio Economy* project. The project will help diversify and restructure the regional economy by investing in an emergent tourism sector that celebrates Appalachian Ohio's natural, cultural, and entrepreneurial assets. The project's targeted geography is between the northern Hocking Hills and the city of Athens, extending into parts of five counties. The project consists of two major components: 1) construction of 31 miles of the Bailey's Trail in the Wayne National Forest and 2) an integrated package of activities to take economic advantage of the trail, such as collaborative marketing, entrepreneurial training and support, trail town place-making, and workforce development. When complete, the 88-mile mountain bike trail system will attract 181,000 visitors annually, resulting in \$20 million of increased spending. The project will lead to the creation of 25 new tourism-related business and the expansion of 50 existing business, the creation or retention of 190 jobs, and \$5.7 million in leveraged investment. Additional funding is provided by the National Forest Foundation, a Community Development Block Grant from the State of Ohio, and the Sugar Bush Foundation.

Project Title: *Innovation Gateway Network of Appalachian Ohio*

Grantee: Buckeye Hills Regional Council

Award Amount: \$1,200,000

Announcement Date: June 2017

Project Summary: ARC grant to Buckeye Hills Regional Council in Marietta, OH, for the *Innovation Gateway Network of Appalachian Ohio* project. The Gateway Network will provide an innovative program of learning, makerspace activities, and entrepreneurship development in three multi-use facilities, located in Somerset, Nelsonville, and Marietta, Ohio. Each center will be designed to reflect the specific needs of its local community, with access to commercial-grade broadband, a range of immediate job opportunities from employer-paid training to entry-level work, a technology hub, and flexible classroom and small group workspaces. The Innovation Gateway Network programming aims to boost employment and income; strengthen and diversify local economies; and grow, retain, and attract talent to the region through alternative learning and career pathways. In developing its offerings, each of the three sites will rely on the expertise of Ohio University's Innovation Center, a collaborating partner in the project. During the three-year project period, this project will help at least 205 adults obtain jobs, 55 students obtain a high school diploma, and 75 students make progress towards an associate's degree. The project will also help 130 participants earn additional income and/or complete an industry credential.

Project Title: *Vinton & Meigs County Rural Broadband Initiative*

Grantee: Vinton County Commissioners

Award Amount: \$1,180,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,180,000 to the Vinton County Commissioners in McArthur, OH for the *Vinton & Meigs County Rural Broadband Initiative*. The project will place three communication towers in rural Vinton and Meigs counties. The towers will be used to provide wireless broadband service to unserved areas in the counties. Using a 70 percent penetration rate, it is estimated that 28 businesses and 280 households will have access to 25/3 broadband service. COVID-19 has demonstrated the need for employees working from home to be able to access their work environment remotely. Students likewise need to be able to access virtual learning opportunities. In the more remote areas of Vinton and Meigs Counties

targeted by this project, this access is currently not available. The project is an outgrowth of an earlier technical assistance POWER grant that demonstrated the feasibility of the project.

Project Title: *Appalachian Recovery Project: An Ohio Opioid Initiative*

Grantee: Ohio University

Award Amount: \$1,100,000

Announcement Date: April 2019

Project Summary: ARC grant to Ohio University in Athens, OH, for the *Appalachian Recovery Project: An Ohio Opioid Workforce Initiative*. By establishing and coordinating services in a variety of settings, the project will build a recovery ecosystem for justice-involved women with substance use disorders from five coal-impacted counties (Athens, Hocking, Morgan, Perry, and Vinton), helping them move from treatment to recovery to re-entry into the workforce. Key aspects of this recovery ecosystem include residential treatment for women who are leaving jail or are enrolled in drug court, as well as primary care and addiction treatment services for justice-involved women. Additionally, the project will include community health workers and quick response teams to help navigate available clinical and non-clinical supports and workforce development services, such as training and job placement assistance. The project will capitalize on the repurposing the state's Hocking Correctional Institute as the Appalachian Recovery Campus, which will be a site for the delivery of services. The project will be led by Ohio University's College of Health Sciences and Professions. The project will create 31 jobs, serve 300 patients, and place 27 community health worker trainees in permanent positions. 95 clients will complete workforce or vocational programming during or after their residential treatment.

Project Title: *CDFI for Appalachian Ohio*

Grantee: Appalachian Growth Capital (AGC)

Award Amount: \$1,000,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,000,000 to Appalachian Growth Capital (AGC) in Nelsonville, OH for the *CDFI for Appalachian Ohio* project. The project will enable AGC, a community development financial institution (CDFI), to expand access to capital for small businesses in Appalachian Ohio through technical assistance to potential business borrowers and by increasing the capital available in AGC's loan fund. AGC will assist businesses in improving their business plans, becoming bankable, finding other sources of funding, and solving critical issues facing them. It will leverage \$750,000 of grant funds to attract \$2.25 million in private investment in AGC's loan fund. The project will strengthen entrepreneurship in Southeast Ohio, helping diversify an economy that has been heavily dependent on coal. The project will serve 300 businesses, improve 150 businesses, create 180 jobs, retain 360 jobs, leverage \$29,250,000 in total private investment in the region (including borrower commitments), and create 15 new businesses. The project builds on a previous POWER grant that helped create AGC.

Project Title: *Excellence Training Center*

Grantee: Youngstown State University

Award Amount: \$1,000,000

Announcement Date: April 2019

Project Summary: ARC grant to Youngstown State University (YSU) in Youngstown, OH, for the *Excellence Training Center* project. The grant will allow YSU to renovate a facility to house the Excellence Training Center, an advanced manufacturing education and workforce training facility that will benefit a 14-county, three-state region (OH, PA, WV). The center will be developed as a 24/7 access, shared-use facility with a manufacturing training lab and group project and workroom space supporting displaced workers, students, manufacturers, and entrepreneurs. Regional partners for the project include Eastern Gateway Community

College, Mahoning Valley Manufacturers Coalition, Youngstown Business Incubator, the Southwestern Pennsylvania Commission, and regional workforce development boards. The center will help address regional employment problems caused by the downturn of the coal industry by providing requisite hands-on training for high-demand advanced manufacturing skills, creating a pipeline of knowledgeable and trained workers. It is expected the project will train 200 workers and create or retain 188 jobs. Funding from the State of Ohio is matching the ARC grant.

Project Title: *Tri-State Gateway to Growth Training Center*

Grantee: Eastern Gateway Community College

Award Amount: \$836,332

Announcement Date: October 2019

Project Summary: ARC grant to Eastern Gateway Community College in Steubenville, OH for the *Tri-State Gateway to Growth Training Center*. The project will establish a training center to serve a 12-county region in Ohio, West Virginia, and Pennsylvania. The new training center will educate a competitive workforce for this region in advanced manufacturing (including welding, machining, electronics, pneumatics, hydraulics, and industrial maintenance), logistics, and energy industries. The area served by the new center has experienced declines in coal mining employment as well as the closure of a coal-fired power plant. Over the three-year grant period at least 650 workers/trainees and 120 students will obtain new positions or enhance their current ones, and six businesses will be improved by the training model.

Project Title: *Social Enterprise Ecosystem II*

Grantee: Ohio University

Award Amount: \$750,000

Announcement Date: October 2018

Project Summary: ARC grant to Ohio University in Athens, OH, for the Social Enterprise Ecosystem (SEE) program to foster social enterprise activities in coal-impacted communities in Ohio and West Virginia. The grant will support a two-year continuation and expansion of the one-year SEE pilot project previously funded by a POWER grant. Social enterprises use for-profit business strategies to achieve specific social benefits. The project focuses on several key areas, including entrepreneurial and business development, creating a ready workforce, building critical infrastructure (such as broadband), leveraging cultural assets to stimulate economic activity, building capacity for social enterprises, and convening and facilitating impact investors' investments in the region. Through the grant, new or strengthened social enterprises will serve at least 32 communities. Key partners for the work include the Foundation for Appalachian Ohio, the Parkersburg (WV) Area Community Foundation, and Rural Action. The project expects to improve the performance of at least 42 social enterprise businesses and help launch 17 new ones. In addition, the SEE team projects that 38 new jobs will be created, and the grant will yield at least \$6 million in leveraged private investment.

Project Title: *Robotics & Manufacturing Technology Education Collaborative (RAMTEC)*

Grantee: Washington State Community College

Award Amount: \$618,150

Announcement Date: October 2019

Project Summary: ARC grant to Washington State Community College in Marietta, OH for the *Robotics & Manufacturing Technology Education Collaborative (RAMTEC)*. The project will expand RAMTEC—a training and workforce development program designed to educate workers in advanced manufacturing, automation, and robotics, as well as CNC machining, welding, and industrial maintenance—to the southern portion of Appalachian Ohio, the only region in the state currently not benefiting from it. This proven instructional model includes industry-led educational programming designed to deliver in-demand credentialed training. The training from this program will bolster a workforce that has been adversely affected by

the decline in the coal industry. The project will serve 5 counties in Ohio and West Virginia (Monroe, Morgan, Noble, and Washington in Ohio and Wood in West Virginia). At least 70 workers/trainees, including approximately 20 dislocated and 50 incumbent workers, and 630 students will participate in training activities, and at least six businesses will be improved.

Project Title: *Building Technical Capacity for Angel Investment in the Tri-State Region of Ohio, Kentucky, and West Virginia*

Grantee: Lawrence County Economic Development Corporation

Award Amount: \$538,200

Announcement Date: October 2018

Project Summary: \$538,200 ARC grant to the Lawrence County Economic Development Corporation in South Point, OH, to foster the creation of a dynamic angel investment group serving the tri-state region of Ohio, Kentucky, and West Virginia. The project will build the technical capabilities of the Tri-State Angel Investing Group (TSAIG) so that increased amounts of private funds can be raised and invested in potential high-growth companies across 19 counties in Kentucky, Ohio, and West Virginia. The lack of angel capital is an impediment to entrepreneurial growth and job creation in the tri-state region. The expected outcomes for this project include 30 businesses improved, five new businesses created, 40 new jobs, 19 communities improved, and \$1 million in private investment that will be leveraged through ten new investors.

Project Title: *Building the Wood Bridge: A Forest, to Product, to Market Value Chain*

Grantee: Appalachian Center for Economic Networks (ACENet)

Award Amount: \$514,827

Announcement Date: October 2020

Project Summary: ARC grant of \$514,827 to the Appalachian Center for Economic Networks (ACENet) in Athens, OH for *Building the Wood Bridge: A Forest, to Product, to Market Value Chain*. Taking advantage of the economic opportunities in Southeast Ohio offered by value-added, hardwood manufactured products, the project will accelerate small business startup and development in this sector by way of three broad activities. It will provide training and technical assistance to land owners, hardwood sector startups, established hardwood entrepreneurs, and students enrolled in accredited hardwood sector programs. It will encourage the formation of new partnerships for value chain coordination in the forest and hardwood products sectors. It will foster expanded investment in the infrastructure and equipment for the ACENet Nelsonville Business Center and Hocking College Maker Network to scale production and diversify product lines. Key partners include Rural Action, Hocking College, and the Central Appalachian Network. The project is expected to help create 25 new jobs, create 15 new businesses, and leverage \$500,000 in new private investment. The project builds upon an earlier POWER investment targeted to Ohio's hardwood forest products sector.

Project Title: *Appalachian Ohio -- Community Development Financial Institution (CDFI) Formation*

Grantee: Appalachian Partnership for Economic Growth, Inc.

Award Amount: \$450,000

Announcement Date: October 2016

Project Summary: ARC grant for Appalachian Partnership for Economic Growth (APEG) in Nelsonville, OH, to establish an *Appalachian Ohio Community Development Financial Institution (AO CDFI)* to provide business loan products that are currently unavailable in southeast Ohio. In crafting and delivering these products, APEG will partner with regional entities like local development districts and private lenders. The Appalachian Ohio CDFI will provide gap financing for capital equipment and facility purchases, as well as longer-term capital financing. The loan products will support business growth that would not otherwise

occur, thereby enabling new employment opportunities for dislocated coal economy workers. A number of national and regional banks that serve southeast Ohio have committed funds to support the creation of the CDFI. APEG projects that 54 loans will be originated in the grant period, leading to the creation or retention of 227 jobs and leveraging \$2.75 million in private investment.

Project Title: *Social Enterprise Ecosystem: SEE*

Grantee: Ohio University

Award Amount: \$300,000

Announcement Date: October 2016

Project Summary: \$300,000 ARC grant to Ohio University in Athens, OH, for the *Social Enterprise Ecosystem (SEE Appalachia)* project. Ohio University and its partners will work to strengthen entrepreneurial ecosystems that support the start-up and/or expansion, funding, growth, and sustainability of social enterprises in Ohio and West Virginia. Social enterprises combine the social mission of a nonprofit with the market-driven approach of a business to solve complex social and environmental problems in a financially sustainable and scalable way. SEE Appalachia will assist social enterprises that focus on health and wellness, education, and the environment. The Foundation for Appalachian Ohio and the Parkersburg Area Community Foundation will provide regional outreach and identify potential social enterprise clients, assist in building capacity for social enterprise work, and advise on venture investment decisions. The project is expected to assist at least 12 social enterprises to gain investment sufficient for start-up and launch, create 20 well-paying jobs, and leverage \$1.18 million in private investment in the first year.

Project Title: *Appalachian Ohio Solar Supply-Chain Initiative*

Grantee: Rural Action

Award Amount: \$119,460

Announcement Date: October 2016

Project Summary: ARC grant to Rural Action in The Plains, OH, to develop a strategic plan and feasibility study for the Appalachian Ohio Solar Supply-Chain Initiative. This regional planning effort will focus on building a stakeholder partnership that will develop a regional solar manufacturing supply-chain in response to a major utility's plan to deploy new solar resources in Ohio.

Project Title: *U.S. 33 Corridor Broadband Feasibility Project*

Grantee: Buckeye Hills Regional Council

Award Amount: \$78,624

Announcement Date: October 2018

Project Summary: ARC grant to Buckeye Hills Regional Council in Marietta, OH, for a feasibility study examining broadband deployment opportunities along Route 33 in Ohio between Groveport and Belpre. Half of Appalachian Ohio's residents and business are without broadband service that meets FCC standards. This study will analyze service gaps, gauge demand in underserved communities, inventory existing assets, and develop strategies for deployment. The ultimate goal is to attract new jobs and investments in areas affected by the loss of coal-related jobs and establish a new "high tech corridor."

Project Title: *Emerging Social Enterprise Development*

Grantee: Rural Action Inc.

Award Amount: \$68,700

Announcement Date: October 2015

Project Summary: ARC grant to Rural Action, Inc., in The Plains, OH, for *Emerging Social Enterprise Development*. SBA is also awarding up to \$2.5 million to the Appalachian Partnership for Economic Growth as part of this project. The project will expand social

enterprise development in sustainable forestry and other emerging sectors by providing technical assistance and support to non-profits and private enterprises in idea generation, market assessment, and business modeling.

Project Title: *Noble County Broadband Technical Assistance*

Grantee: Noble County Commissioners

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to the Noble County Commissioners in Caldwell, OH for the *Noble County Broadband Technical Assistance* project. The project will determine the feasibility of broadband expansion available to Noble County. According to the 2020 Connected Nation Ohio broadband study, Noble County is the least connected in Appalachian Ohio, with only 58 percent of residents able to access broadband services of 25/3 Mbps. A blueprint for expanding broadband access will help community leaders and stakeholders to acquire additional funding and will determine strategies to provide more equitable internet access and connectivity.

Project Title: *Energy Storage Road Map for Appalachian Ohio, Pennsylvania, and West Virginia*

Grantee: Tech Belt Energy Innovation Center

Award Amount: \$49,950

Announcement Date: October 2020

Project Summary: ARC grant of \$49,950 to the Tech Belt Energy Innovation Center in Warren, OH for the *Energy Storage Road Map for Appalachian Ohio, Pennsylvania, and West Virginia* project. Identifying energy storage assets in Ohio, Pennsylvania, and West Virginia, the project's study will be an analysis and framework for leveraging the burgeoning energy storage cluster in the tri-state area with an emphasis on coal-impacted areas. The study will outline key assets in energy storage for grid generation, transportation, and consumer electronics. It will provide the groundwork needed to create entrepreneurial and business development strategies within the energy storage cluster. The study is specific to strengthening the supply chain for energy-tech, an industrial cluster, which enables the region to compete in the global economy.

Project Title: *Broadband Infrastructure Improvement - Vinton & Meigs County*

Grantee: Vinton County Commissioners

Award Amount: \$49,000

Announcement Date: February 2019

Project Summary: ARC grant to the Vinton County Commissioners in McArthur, OH, for the *Broadband Infrastructure Improvement Project*. The project will produce a broadband feasibility study for Meigs and Vinton counties in Southeast Ohio. Both counties are interested in expanding the broadband footprint in their region and the results of this study will provide information needed for specific plans to build the necessary infrastructure (both fiber and towers) needed for that expansion. The study will concentrate on a complete inventory of existing assets, the development of a partner plan, a model for network design, and an analysis of fiber and tower costs.

Project Title: *Coal Business United Resource Network (Coal BURN) Real-Time Insights for Real-Time Actions*

Grantee: Workforce Initiative Association

Award Amount: \$41,065

Announcement Date: June 2017

Project Summary: ARC grant to the Workforce Initiative Association in Canton, OH, for the *Coal Business United Resource Network (Coal BURN) Real-Time Insights for Real-Time*

Actions project. The project will implement a formal multi-state planning process to obtain a better understanding of current and future workforce opportunities (“real-time” data) in coal-impacted communities in parts of Ohio, Pennsylvania, and West Virginia. The new multi-county, multi-state consortium will draw on data and actions that currently exist while obtaining information and data on specific skills needed in the workplace, helping the workforce system to more effectively enable dislocated workers to meet the needs of local businesses. The primary goal of the Resource Network in Ohio will be to connect workforce development, economic development, and education in a collaborative, seamless, and customer focused partnership structure to deliver effective and efficient business services. Through the planning process, the model will be expanded into Pennsylvania and West Virginia.

Project Title: *Rail and Port Transportation Strategic Plan*

Grantee: Growth Partnership for Ashtabula

Award Amount: \$30,000

Announcement Date: June 2017

Project Summary: ARC grant to Growth Partnership for Ashtabula in Jefferson, OH, to develop a strategic plan for Ashtabula County’s rail and port transportation infrastructure. Due to the downturn of the coal economy, service has been cut at the County’s ports and along its rail lines. The plan will inventory existing transportation infrastructure assets and review market needs in order to identify opportunities for greater usage of current assets by local businesses.

Project Title: *Trumbull County Broadband Feasibility Study*

Grantee: Trumbull County Planning Commission

Award Amount: \$27,500

Announcement Date: October 2019

Project Summary: ARC grant to the Trumbull County Planning Commission in Warren, OH for the *Trumbull County Broadband Feasibility Study*. The study will create the road map for the implementation of a fiber network throughout Trumbull County. It will perform a market analysis of adoption rates, competition, and pricing; conduct a needs assessment for area businesses, schools, hospitals, and other anchor institutions; review current trends in telecommunications technologies; and develop a framework for a structure to govern the fiber network as a publicly owned and operated utility.

Project Title: *Broadband Feasibility Study*

Grantee: Washington Electric Cooperative, Inc. (WECI)

Award Amount: \$24,500

Announcement Date: October 2019

Project Summary: ARC grant to Washington Electric Cooperative, Inc. (WECI) in Marietta, OH for a *Broadband Feasibility Study*. The study will assist WECI with decisions on whether to pursue deployment of broadband services within its member service territory of Athens, Guernsey, Monroe, Morgan, Noble, and Washington Counties. Major tasks include conducting an initial competitive analysis of market conditions, developing capital expenditure cost estimates, preparing a high-level financial business plan, and conducting a market study to determine the potential “take rate” of broadband services. Through this study, WECI will be able to determine the gaps that exist in the local broadband infrastructure and how to bridge those gaps.

Project Title: *Advanced Manufacturing Innovation & Commercialization Center*

Grantee: Youngstown State University

Award Amount: \$22,758

Announcement Date: August 2016

Project Summary: ARC grant to Youngstown State University in Youngstown, OH, to analyze and develop a project plan for the Advanced Manufacturing Innovation and Commercialization Center. The project is expected to serve 14 counties in Ohio, Pennsylvania, and West Virginia.

PENNSYLVANIA (45 awards)

Project Title: *4-County Central Pennsylvania Rural Broadband Deployment Implementation project*

Grantee: Union County

Award Amount: \$2,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$2,500,000 to Union County in Lewisburg, PA for the *4-County Central Pennsylvania Rural Broadband Deployment Implementation project*. The project will bring high-speed broadband service to four locations in four underserved counties in Pennsylvania. One site will be served in each of the following counties: Clinton, Lycoming, Union, and Northumberland. It is expected that 20 businesses and 270 households will initially be served by the new infrastructure. An earlier broadband feasibility study, funded by a POWER grant, identified appropriate areas where broadband deployment could address access issues that have negatively affected business competitiveness. Matching funds are being provided by the Susquehanna Economic Development Association Council of Governments (SEDA-COG) Revolving Loan Fund and partnering internet service providers.

Project Title: *Northern Pennsylvania Broadband Connectivity Project*

Grantee: Tioga County

Award Amount: \$2,500,000

Announcement Date: October 2019

Project Summary: ARC grant to Tioga County in Wellsboro, PA for the *Northern Pennsylvania Broadband Connectivity Project*. Tioga County, in conjunction with Tri-County Rural Electric Cooperative, will construct over 175 miles of fiber in three counties (Tioga, Potter, and Lycoming) to bring access to reliable high-speed broadband to 60 businesses and 581 households in one the most underserved areas of rural Pennsylvania. From 2007-2017 Tri-County Electric Cooperative's service area saw a 66 percent decrease in the number of active coal mines, with a drop of 42 percent in mine employment. The new fiber network will help bolster economic development, assist educational institutions, provide telemedicine opportunities for area hospitals, assist healthcare workers in addressing the opioid crisis, and help prevent youth out-migration. Tri-County Rural Electric Cooperative is providing \$3,242,125 for the project.

Project Title: *Southwestern PA Development of a Local Food Shed*

Grantee: Fayette County Community Action Agency, Inc.

Award Amount: \$1,750,000

Announcement Date: June 2017

Project Summary: ARC grant to Fayette County Community Action Agency, Inc. in Uniontown, PA, for the *Southwestern PA Development of a Local Food Shed* project. The project will develop a robust local food shed that provides new and diverse economic opportunities to communities in 38 counties impacted by the decline of the coal industry across Pennsylvania, West Virginia, and Maryland. ARC's investment will support the

cultivation of four of southwestern Pennsylvania's existing agricultural industry clusters: sheep, lamb, and goats; poultry; specialty crops; and value-added processing. A diverse group of partners will establish a Regional Agriculture Advisory Council to steer the project's goals and objectives and sustain the local food shed efforts in the long-term. Major project activities will include comprehensive asset mapping to identify new products, technologies, and emerging markets; and diverse training and technical assistance to farmers and food entrepreneurs to assist them with increasing production, business skills, and marketing. Partners include the Pennsylvania Department of Agriculture and a regional Community Development Financial Institution. It is anticipated that the project will serve 50 existing businesses, create 10 new businesses and 100 jobs, and leverage \$3.5 million in private investment.

Project Title: *Wayne County Recovery-to-Work Facility*

Grantee: Wayne County

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Wayne County in Honesdale, PA for the *Wayne County Recovery-to-Work Facility*, a multi-faceted effort that will improve the integration of services for people with substance use disorders or other mental health conditions. Once completed, this cluster of services is expected to serve 1,720 patients each year; 64 jobs will be created for new employees. The project will construct a cluster of buildings adjacent to SCI Waymart, which will house drug and alcohol detox and rehabilitation services, behavioral health services, sober living recovery housing, and administrative space. Services will be provided by licensed agencies under contract with the county. Clients will also have access to skills training and job placement programs that are tailored for people in recovery, with active engagement from local employers and entrepreneurs. This development of a local recovery ecosystem is expected to improve outcomes for patients and the community. Wayne County will provide matching funds for the project.

Project Title: *Erie to Pittsburgh Trail—PAWilds Loop Trail Construction*

Grantee: Crawford County

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Crawford County in Meadville, PA for the *Erie to Pittsburgh Trail—PAWilds Loop Trail Construction* project—Phase I. The project will construct 18.2 miles of key trail segments in the Erie to Pittsburgh Trail and the PA Wilds Loop trail network. It will attract more than 50,000 day and overnight visitors to the region annually, generating \$1.4 million in direct visitor spending and support the creation of 15 new jobs. The Erie to Pittsburgh Trail (EPT) is a planned 270-mile network of trails that will connect the Erie waterfront to Point State Park in Pittsburgh. The Pennsylvania Wilds Loop is a 220-mile network of trails spanning the Pennsylvania Wilds region. A study to prioritize the uncompleted sections of each trail system was released in 2019. The project will complete segments with maximum economic impact to the communities through which they pass. Long-distance trails built along former railroad corridors can bring stable economic benefits to communities that previously relied on a diminishing extractive economy. State sources will provide \$1,753,000 and local sources will provide \$130,050.

Project Title: *Business Innovation Center and Fiber Optic Expansion*

Grantee: Venango County Economic Development Authority

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Venango County Economic Development Authority in Franklin, PA for the *Business Innovation Center and Fiber Optic Expansion* project. This grant

will fund the development of a new Business Innovation Center, including a co-working and maker space, in Oil City, PA and will expand a fiber optic network throughout the business district served by the Center. The Innovation Center will foster an entrepreneurial ecosystem, serving as a catalyst for economic diversification in the region through innovation and business creation. By eliminating the fiber network “dead end,” the project will enable businesses in this section of the city to compete in a technology-driven economy. Within three years of completion, the Innovation Center will launch the development of 20 new businesses, and at least 29 businesses will connect to the new fiber network. The project is projected to leverage \$1,200,000 in private investment as entrepreneurs create 12 new businesses using these new community assets.

Project Title: *Enhancing the Tri-State Entrepreneurial Ecosystem Through the Innovation Beehive Network*

Grantee: Pennsylvania State University

Award Amount: \$1,499,225

Announcement Date: October 2020

Project Summary: ARC grant of \$1,499,225 to Pennsylvania State University in University Park, PA for *Enhancing the Tri-State Entrepreneurial Ecosystem Through the Innovation Beehive Network*. The Innovation Beehive Network—a partnership between Penn State’s Behrend campus in Erie, Edinboro University, Gannon University, and Mercyhurst University—will leverage the institutional strengths of its members to provide no-cost services to businesses and entrepreneurs using faculty, students, and research capabilities to enhance economic growth across Pennsylvania, Ohio, and the southern tier of New York. The Beehive seeks to create a vibrant entrepreneurial innovation ecosystem, increasing new start-up and scale-up businesses and improving economic outcomes by providing access to university resources. The project will expand the Beehive’s service area, spur new successful businesses, protect and secure current ones, and lower the barriers to success for entrepreneurs and intrapreneurs. As a result of this project, 90 businesses, 18 communities, 100 participants, and 100 students will be served; 70 businesses, 15 communities, 90 participants, and 90 students will be improved; 15 businesses and 20 jobs will be created; and \$500,000 in private investment will be leveraged.

Project Title: *ARCODE Initiative – Appalachian Region Code Initiative*

Grantee: Washington Greene County Job Training Agency, Inc.

Award Amount: \$1,489,945

Announcement Date: June 2017

Project Summary: ARC grant to Washington Greene County Job Training Agency, Inc., in Washington, PA, for the *Appalachian Region Code (ARCODE) Initiative*. The ARCODE Initiative will teach high-demand skills in software engineering and development to displaced workers from the coal sector in southwest Pennsylvania and West Virginia. It harnesses and combines the software training expertise of Mined Minds, a proven software development training organization, and CentralApp, an international software solutions developer. The two will work together to provide courses and certifications needed to qualify for high-demand technology jobs, enabling participants to work locally for companies that can be located anywhere in the world. Mined Minds will provide a supply of certified tech talent that program partners and others will be able to hire locally or contract for short-term, labor-intensive projects. CentralApp trainees who obtain certifications will have access to CentralApp Talent Exchange and will obtain work from its customer base of thousands of active Salesforce customers, systems integrators, and consultancies. The project will train and place 71 workers in computer tech jobs at seven or more companies.

Project Title: *Startup Alleghenies Ecosystem*

Grantee: JARI Growth Fund, Inc.

Award Amount: \$1,281,900

Announcement Date: October 2020

Project Summary: ARC grant of \$1,281,900 to JARI Growth Fund, Inc., in Johnstown, PA for the *Startup Alleghenies Ecosystem* project. Through a combination of technical assistance to small businesses and leveraged investment capital, the project will strengthen a vibrant entrepreneurial ecosystem in the Southern Alleghenies region of Pennsylvania. The project will create the Startup Alleghenies Microloan Fund, a flexible, gap financing resource for entrepreneurial enterprises. It will provide other key aspects of an entrepreneurial ecosystem by offering business technical assistance through business coaches and providing access to entrepreneurial spaces such as “makerspaces,” co-working spaces, and commercial kitchen incubators. Other components include networking and highlighting the robust set of business support services across the region. The project will provide \$1 million in capital for the Microloan Fund, attracting \$3 million in private capital. The project will serve 540 businesses, improve 170 businesses, create 300 jobs, and create 25 new businesses. The project builds on the work of the Southern Alleghenies Planning & Development Commission in developing and launching Start-Up Alleghenies, which has been supported by two previous POWER grants.

Project Title: *The Alleghenies Entrepreneurial Ecosystem*

Grantee: Southern Alleghenies Planning & Development Commission (SAPDC)

Award Amount: \$1,227,447

Announcement Date: October 2018

Project Summary: ARC grant to the Southern Alleghenies Planning & Development Commission in Altoona, PA, to expand the Alleghenies Entrepreneurial Ecosystem (“Startup Alleghenies”). Startup Alleghenies seeks to recognize, encourage, and guide entrepreneurs to create new businesses or expand existing businesses, ultimately generating new jobs and investments in the Alleghenies Region. The project will identify innovative, entrepreneurial individuals and connect them with coaches/mentors who will link them with resources and training to facilitate their success. Startup Alleghenies first received a POWER grant in 2017, with the work focused on Blair, Cambria, and Somerset Counties. The new grant will help the Alleghenies Entrepreneurial Ecosystem increase the number of new business starts by expanding the geography served to include Bedford, Fulton, and Huntingdon Counties and by enriching the offerings provided through the four existing pillars of the ecosystem including: providing coaching, creating places for entrepreneurs, establishing a network of resources, and producing events, gatherings, and trainings. The expansion is expected to create 30 new businesses, improve 20 existing businesses, leverage \$2 million in private investment, and create 150 new jobs. Additional funding for the work of Startup Alleghenies is provided by the U.S. Economic Development Administration (EDA) and the Community Foundation for the Alleghenies.

Project Title: *Western Pennsylvania Entrepreneur Diversification Fund*

Grantee: Bridgeway Capital

Award Amount: \$1,223,551

Announcement Date: October 2019

Project Summary: ARC grant to Bridgeway Capital in Pittsburgh, PA for the *Western Pennsylvania Entrepreneur Diversification Fund*. Through a combination of technical assistance to entrepreneurs and the capitalization of a revolving loan fund, Bridgeway Capital, a Community Development Financial Institution, will promote entrepreneurial activity across its 15-county service area of western Pennsylvania, a region whose economy has been adversely affected by the decline in the coal industry. Activities will include business development workshops, one-on-one counseling, support for a regional business incubator,

and small grants to entrepreneurs for training and licensure. The project is expected to lead to the creation of 65 new businesses and 200 new jobs, while leveraging \$5,625,000 in private investment. Additional funding is being provided by Penn State University, the Fay-Penn Economic Development Council, and the Connellsville Redevelopment Authority. Private capital for the revolving loan fund is being provided by TriState Capital Bank.

Project Title: *The Alleghenies Entrepreneurial Ecosystem*

Grantee: Southern Alleghenies Planning & Development Commission (SAPDC)

Award Amount: \$1,213,868

Announcement Date: January 2017

Project Summary: ARC grant to the Southern Alleghenies Planning and Development Commission (SAPDC) in Altoona, PA, for the *Southern Alleghenies Entrepreneurial Ecosystem* project. The project will strengthen the entrepreneurial ecosystem of a three-county region in southwestern Pennsylvania through the provision of a wide array of diverse, wrap-around business support services, facilitated via business coaches and mentors. In addition, the award will renovate several existing entrepreneurial spaces in the region where much of the programmatic activity will take place. The project will create 125 new jobs and 25 new businesses, and will leverage \$3,750,000 in private investment.

Project Title: *New Start Retraining Initiative for Dislocated Coal Industry Workers*

Grantee: UMWA Career Centers Inc.

Award Amount: \$1,200,000

Announcement Date: January 2017

Project Summary: ARC grant to the United Mine Workers of America (UMWA) Career Centers Inc. in Prosperity, PA, for the *New Start Retraining Initiative for Displaced Coal Industry Workers* project. The ARC award will deliver workforce training and job placement services to unemployed coal mine workers in eight southwest Pennsylvania counties and two southern West Virginia counties. UMWA will partner with the Pittsburgh Institute of Aeronautics, the Allegany College of Maryland, and Pennsylvania Highlands Community College to design and implement training programs in strategic regional career sectors including commercial trucking, cybersecurity, and advanced manufacturing. Training will be complemented by job placement and other wraparound support to ensure that each trainee has maximum potential for securing employment. The project will serve 400 trainees over the life of the award.

Project Title: *Northwest Pennsylvania Diversifying the Regional Economy*

Grantee: Clarion University of Pennsylvania

Award Amount: \$1,100,000

Announcement Date: February 2019

Project Summary: ARC grant to Clarion University in Clarion, PA, for the *Northwest Pennsylvania Diversifying the Regional Economy* project. The project offers training opportunities to reinvigorate the regional economy and prepare for the emerging petrochemical industry by developing highly skilled secondary education pre-apprenticeship programs, offering certification of employer-demanded apprenticeships, creating career-ladder training in targeted industry clusters, identifying customized training needs to upgrade the existing workforce, and implementing entrepreneurial training leading to job growth. By the conclusion of the project, 150 high school students will have obtained employment or enrolled in further education or training, 75 workers/trainees will have enhanced their position or found new employment, and 30 adult participants will have completed entrepreneurship training and started at least four businesses.

Project Title: *Reboot Workforce Program: Recovery at Work in Central Pennsylvania*

Grantee: Central Pennsylvania Workforce Development Corporation

Award Amount: \$1,018,500

Announcement Date: October 2020

Project Summary: ARC grant of \$1,018,500 to the Central Pennsylvania Workforce Development Corporation (CPWDC) in Lewisburg, PA for the *Reboot Workforce Program: Recovery at Work in Central Pennsylvania*. The CPWDC, in partnership with Geisinger Health and Susquehanna Economic Development Association Council of Governments (SEDA-COG), will build a recovery ecosystem and a ready workforce by increasing labor participation rates of individuals who have opted out of the workforce because of their addiction to opioids. CPWDC will also provide solutions to address the opioid crisis in Central Pennsylvania by expanding access to treatment services using telemedicine, providing workforce preparation and training services to individuals in recovery, and connecting individuals with businesses that are "recovery friendly." SEDA-COG and the PA CareerLink Business Service Teams will identify employers that are already recovery-friendly and assist other businesses to become recovery-friendly to increase their pool of workforce talent. The project will improve 250 patients, 30 businesses, and 120 worker/trainees, as well as create three new telemedicine sites for persons in recovery.

Project Title: *Western PA Small Business Services for Coal-Impacted Communities*

Grantee: Innovation Works Inc.

Award Amount: \$1,035,000

Announcement Date: October 2018

Project Summary: ARC grant to Innovation Works, Inc. in Pittsburgh, PA, for the Western Pennsylvania Small Business Services for Coal-Impacted Communities (SBS) program. The project focuses on the revitalization of western Pennsylvania's coal-impacted communities through innovation and entrepreneurship by providing opportunities for those negatively impacted by contractions in the coal economy, including displaced individuals looking for new jobs or opportunities to start their own businesses, main-street businesses in need of business-support services, and new and existing manufacturing and technology businesses. The SBS is a joint initiative of Innovation Works/Ben Franklin Technology Partners of Southwestern Pennsylvania, Ben Franklin Technology Partners of Central and Northern Pennsylvania, and the University of Pittsburgh's Institute of Entrepreneurial Excellence (IEE). Together, they will provide opportunities through co-working spaces, accelerators, and incubators to service business owners, independent contractors, and entrepreneurs in communities where there are limited resources. Targeting 24 coal-impacted counties in western Pennsylvania, the project is expected to help create 32 new businesses and 156 new jobs, retain 260 existing jobs, and leverage \$20 million in private investment.

Project Title: *NWPA Regional Broadband Deployment Initiative*

Grantee: Youngsville Television Corporation

Award Amount: \$1,014,730

Announcement Date: February 2019

Project Summary: ARC grant to Youngsville Television Corporation in Youngsville, PA, for the *Northwest Pennsylvania Regional Broadband Deployment Initiative*. The project will provide broadband services to unserved and under-served areas in the northwest region of Pennsylvania. Using a combination of wired and wireless systems, the project will deploy broadband service to business districts in Crawford and Warren counties, partnering with the municipalities' Volunteer Fire Departments. The Volunteer Fire Departments will serve as anchor institutions, housing the equipment and hardware needed to support the regional wired and wireless broadband deployment. For serving as the anchor institutions, each fire department will be afforded broadband connectivity at no cost for the life of the fiber network. Given the large potential impact broadband access may have on the economic

development and revitalization of Northwest Pennsylvania, the project will open the doors to a variety of possibilities for diversifying the regional economy, which has suffered from the decline of the coal industry.

Project Title: *Building a Peer Support Workforce in Pennsylvania*

Grantee: Pennsylvania Peer Support Coalition

Award Amount: \$1,000,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,000,000 to the Pennsylvania Peer Support Coalition in Lancaster, PA for the *Building a Peer Support Workforce in Pennsylvania* project. The Pennsylvania Peer Support Coalition will train and develop a sustainable, ready workforce of new Certified Peer Specialists and create regional Recovery Ecosystem Coalitions to support them in serving individuals in recovery from substance abuse. Additional existing Certified Peer Specialists will participate in the newly created Coalitions to add value to the current workforce of specialists across Appalachian Pennsylvania. The project will assist in linking the new Certified Peer Specialists to potential employers in their area. At least 200 new Certified Peer Specialists will obtain employment and 500 specialists currently working in the field will enhance their positions. An estimated 40 businesses will be improved through new hires and 10 Recovery Ecosystem Coalitions will be created. Partners include the Pennsylvania Mental Health Consumers Association, the Copeland Center for Wellness and Recovery, the Pennsylvania Office of Mental Health and Substance Abuse Services Mental Health Planning Council, and Clarion University.

Project Title: *Twin Lakes Center Expansion*

Grantee: Somerset County Commissioners

Award Amount: \$1,000,000

Announcement Date: February 2020

Project Summary: ARC grant of \$1,000,000 to Somerset County Commissioners in Somerset, PA, for the Twin Lakes Center Expansion project. The project will expand access to drug and alcohol treatment and rehabilitation services for residents in 16 counties in Southwestern Pennsylvania that have been impacted by the decline in the coal economy. It will facilitate patients' successful re-entry into the workforce through Twin Lakes Center's Recovery to Work program, a collaboration with the local CareerLink and Chamber of Commerce that focuses on getting people in recovery back into the workforce. The project will increase the number of beds available for individuals suffering from substance use disorder and will expand the availability of professional support services through additional counselors, chemical dependency technicians, and nurses. The project will provide an additional 472 patients annually with substance abuse and workforce training services and will create 33 jobs for substance abuse recovery professionals. The Commonwealth of Pennsylvania's Redevelopment Assistance Capital Program is providing \$1 million for expansion of the Center, while the Richard King Mellon Foundation is contributing \$500,000.

Project Title: *REAL Jobs in Energy & Manufacturing*

Grantee: Catalyst Connection

Award Amount: \$994,883

Announcement Date: October 2020

Project Summary: ARC grant of \$994,883 to Catalyst Connection in Pittsburgh, PA, for the *REAL Jobs in Energy & Manufacturing* project. The project is expected to help create 272 new jobs and leverage \$5 million in new private investment. A previous POWER grantee, Catalyst Connection serves as the Manufacturing Extension Partnership (MEP) Center for southwestern Pennsylvania. Focusing on the energy and manufacturing sectors, Catalyst Connection will undertake and coordinate new workforce development activities across a 12-county region with established partner networks. Components of the program are organized

into four parts: 1) recruitment and provision of pre-employment training; 2) placement of manufacturing workers with engaged and supported employers; 3) training incumbent workers through on-the-job and apprenticeship programs; and 4) provision of real-time data on employment demand and project analysis. Matching funds are provided by several public and private sector entities, including Chevron Corporation, the Richard King Mellon Foundation, the Pennsylvania Department of Community and Economic Development, and the Claude Worthington Benedum Foundation.

Project Title: *Somerset County Fiber Extension Project*

Grantee: Somerset County

Award Amount: \$948,673

Announcement Date: January 2017

Project Summary: ARC grant to Somerset County, PA, for the *Somerset County Fiber Extension Project*. ARC funds will be used to install 22 miles of fiber optic cable on existing pole lines that will allow a variety of business, residential, medical, and educational customers in Somerset County access to broadband services. The area does not currently have cable broadband available and DSL service is not offered ubiquitously. The project will serve 1,094 businesses and 3,962 households, and will act as an economic and tourism driver in the county.

Project Title: *Road to Recovery and Reemployment*

Grantee: Allegheny Health Network

Award Amount: \$946,000

Announcement Date: October 2020

Project Summary: ARC grant of \$946,000 to Allegheny Health Network in Pittsburgh, PA for the *Road to Recovery and Reemployment* project. Allegheny Health Network has partnered with the Pennsylvania Orthopedic Society, Rothman Institute Foundation for Opioid Research and Education, and pain prescribers across Appalachian Pennsylvania to implement a series of opioid-based continuing medical education (CME) events. These events include opioid-focused symposia for scientists, providers, and guest lecturers; educational events for students in orthopedic residency; and webinars for health providers, students, residents, extenders, and staff. The project will focus particularly on those counties with the highest rates of opioid overdose (Fayette, Westmoreland, and Armstrong). The project is expected to serve 40 rural practices, improve treatment for 320 patients, and improve 120 medical providers. Additional funding for the project is being provided by the Pennsylvania Orthopedic Society.

Project Title: *Recovery to Reemployment (Remote Monitoring)*

Grantee: Fayette County

Award Amount: \$917,368

Announcement Date: October 2020

Project Summary: ARC grant of \$917,368 to Fayette County in Uniontown, PA for the *Recovery to Reemployment (Remote Monitoring)* project. Fayette County will create a robust telemedicine program to address substance use disorder, COVID-19, and chronic conditions facing communities in four coal-impacted counties in Southwest Pennsylvania (Cambria, Fayette, Greene, and Washington). The program will increase access and treatment of substance use disorders using a chronic care management approach combined with remote patient monitoring, where the patient is monitored 24 hours a day via the Virtual Care Center. The goal, by connecting patients to treatment services, is a reduction in fatal overdose deaths, and the return of patients to a lifestyle of work and family support, while remaining compliant with the drug-court treatment programs. The program leverages improved patient outcomes by increasing medication adherence and improving access to treatment centers, while resulting in savings to the county justice and recovery systems. It

will improve five organizations, 200 patients, and 320 workers/trainees, as well as create five new telecom sites and five jobs.

Project Title: *Critical Infrastructure Workforce Academy (CIWA) Phase I*

Grantee: Armstrong County

Award Amount: \$750,000

Announcement Date: October 2020

Project Summary: ARC grant of \$750,000 to Armstrong County in Kittanning, PA for the *Critical Infrastructure Workforce Academy (CIWA) Phase I* project. The project will construct a facility to house “critical infrastructure” training programs. The CIWA is a regional training program conceived through a strategic planning effort after participation in the National Association of Counties (NACO) Innovation Challenge for Coal-Reliant Communities and a subsequent feasibility study funded through a prior POWER grant. The CIWA facility will utilize virtual/augmented reality technology alongside traditional classroom instruction to train high school, technical school, and community college graduates. The proposed facility in Northpointe will enable the overarching CIWA project to expand the expected number of classes and programs. Ultimately, this project will serve 1,300 trainees and 60 new classes. The facility will be part of a 20-acre Critical Infrastructure Workforce Academy simulation city project.

Project Title: *North Central PA Launchbox and Innovation Collaborative*

Grantee: Clearfield County

Award Amount: \$725,850

Announcement Date: October 2019

Project Summary: ARC grant to Clearfield County in Clearfield, PA for the *North Central PA Launchbox and Innovation Collaborative*. The project will equip the Collaborative’s business incubator to offer three sets of services: a makerspace with sophisticated equipment; research and development services to help manufacturers solve problems; and a training center that offers opportunities in powdered metals, automation, and additive manufacturing. The Collaborative seeks to strengthen the entrepreneurial ecosystem, providing wraparound services that increase access to capital, up-skill local talent to secure advanced manufacturing jobs, and provide technical assistance and specialized manufacturing support services for businesses. The project rests on a broad network of partners, including Penn State Dubois, the Clarion Small Business Development Center, Ben Franklin Technology Partners, and North Central Regional Planning & Development Commission. It will benefit seven counties in North Central Pennsylvania and lead to the improvement of 45 businesses and 60 workers/trainees.

Project Title: *PA MAKES: Mini-Grants for Small Manufacturers*

Grantee: Catalyst Connection

Award Amount: \$670,000

Announcement Date: October 2018

Project Summary: ARC grant to Catalyst Connection in Pittsburgh, PA, for PA MAKES (Pennsylvania

Manufacturing Assistance for Keystone Entrepreneurial Success). This initiative will be implemented in over 48 coal-impacted counties across Pennsylvania and use mini grants that will support small and medium manufacturing enterprises (SME’s) in an “economic gardening approach” that provides targeted and direct assistance to companies. Catalyst Connection is the region’s Manufacturing Extension Partnership (MEP), providing technical assistance to help businesses increase their competitiveness. PA MAKES’ efforts to diversify and grow SMEs will include building SMEs’ capacity, improving efficiencies and demand locally, stimulating job creation, and driving economic impact. To help SMEs become more competitive, PA MAKES will help these enterprises make strategic business investments that

will foster market and product diversification and growth. Outcomes of the initiative are expected to include 42 businesses improved, 120 new jobs created, 1,200 jobs retained, and \$15 million in leveraged private investment.

Project Title: *Southwest Pennsylvania Economic Gardening Initiative*

Grantee: Southwestern Pennsylvania Corporation

Award Amount: \$662,567

Announcement Date: October 2016

Project Summary: ARC grant to the Southwestern Pennsylvania Corporation in Pittsburgh, PA, for the *Southwest Pennsylvania Economic Gardening Initiative*. ARC funds will diversify the business operations of supply chain industries in a 10-county region in southwestern Pennsylvania. Working with Catalyst Connection (the regional Manufacturing Extension Partnership), the project will focus on small manufacturing establishments (SMEs) in the coal supply chain by providing mini-grants to targeted firms that enable the most impactful business development strategies to move forward quickly and efficiently—with a specific emphasis on increasing access to advanced manufacturing technologies. In addition, the project will target freight and logistics firms operating along the waterways of southwest Pennsylvania to increase their competitiveness by identifying and prioritizing new markets and opportunities. The project will create or retain 330 jobs, serve 55 supply chain businesses, and leverage \$25,000,000 in private funds.

Project Title: *Transitioning from Black to Blue: Training Former Coal Workers for Natural Gas Utility and Pipeline Careers in Appalachia*

Grantee: Washington Greene County Job Training Agency, Inc.

Award Amount: \$653,400

Announcement Date: January 2017

Project Summary: ARC grant to the Washington Greene County Job Training Agency Inc. in Washington, PA, for the *Transitioning from Black to Blue: Training Former Coal Workers for Natural Gas Utility and Pipeline Careers in Appalachia* project. The ARC award will provide a targeted retraining program for displaced coal workers that enables them to pursue local employment in the natural gas utility and pipeline industry. The training courses will be offered at three regional education institutions—Butler County Community College, Westmoreland County Community College, and Washington State Community College. The curriculum includes input from the Gas Technology Institute to ensure that participants' knowledge and skill development is industry-standard and best positions them to find stable employment in an expedited manner. The project will primarily serve a 23-county area in southeast Ohio and southwest Pennsylvania, and will serve 100 trainees.

Project Title: *Pennsylvania LDDAP Statewide Broadband Initiative*

Grantee: North Central Pennsylvania Regional Planning and Development Commission

Award Amount: \$600,000

Announcement Date: October 2020

Project Summary: ARC grant of \$600,000 to the North Central Pennsylvania Regional Planning and Development Commission in Ridgway, PA for the *Pennsylvania LDDAP Statewide Broadband Initiative*. The project, in partnership with Pennsylvania's other six local development districts (LDDs) in the Appalachian Region, will help communities assess strategies and associated costs for deploying broadband in unserved areas. It will also facilitate broadband deployment activities, including the installation of fixed wireless broadband equipment and the partnership with existing internet providers to expand broadband service into target areas. The project will serve 425 businesses, 1,700 households, and 13 communities. Additional funding is being provided by the U.S. Economic Development Administration and the Commonwealth of Pennsylvania.

Project Title: *TEAMing Up to Build Pathways to Jobs*

Grantee: Community College of Beaver County

Award Amount: \$587,950

Announcement Date: October 2018

Project Summary: ARC grant to the Community College of Beaver County in Beaver, PA, for the Tristate Energy and Advanced Manufacturing (TEAM) Consortium in order to launch a three-part, regional (Pennsylvania, Ohio, and West Virginia) workforce development initiative. The initiative's goal is to increase enrollment and graduation from education and training programs to provide a supply of skilled workers for energy and advanced manufacturing (E&AM) industries that are critical to the resurgence of the tristate region. The initiative's first step is to align relevant curricula among higher education institutions in the three states to facilitate the creation of seamless pathways to jobs. The second is to provide the necessary online access to information and referrals to programs within E&AM, and the third builds on the success of outreach and engagement practices that raise awareness of, change perceptions about, and increase interest in pursuing occupations in targeted STEM manufacturing sectors. Within three years of completion of this project all 120 participating businesses will be improved by upskilling their current workforce and/or hiring new workers, 600 jobs will be created, 402 students will obtain employment, 752 workers will have higher skills, and eight new programs will be implemented. The grant builds on work funded by the Claude Worthington Benedum Foundation and Chevron and takes advantage of an agreement for developing the region's shale resources signed in 2015 (and subsequently renewed) by the Governors of the three participating states.

Project Title: *Penn Highlands Healthcare Behavioral Health Hospital*

Grantee: City of DuBois

Award Amount: \$500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$500,000 to the City of DuBois in DuBois, PA for the *Penn Highlands Healthcare Behavioral Health Hospital* project. The project will construct a stand-alone behavioral health hospital as part of the eight-building construction/renovation project started by Penn Highlands Healthcare. This project will serve patients suffering from drug and alcohol addiction and behavioral health issues, and/or use medication-assisted treatment (MAT). The facility will include the addition of a psychiatric urgent care center and acute psychiatric care for children and adolescents, along with an extended sub-acute unit for at-risk children and adolescents. The project will help expand the adult inpatient unit by 14 beds. The new behavioral health facility is expected to serve 3,200 patients a year and create 163 jobs. Additional funding for the project is provided by Pennsylvania's Redevelopment Assistance Capital Program.

Project Title: *Pennsylvania Broadband Deployment*

Grantee: City of Erie, PA

Award Amount: \$500,000

Announcement Date: October 2019

Project Summary: ARC grant to the City of Erie, PA for the *Erie, Pennsylvania Broadband Deployment* program. Grant funds will expand the Erie Innovation District's Secure Smart City pilot initiative by providing free public Wi-Fi access to Erie's eight federally designated Opportunity Zones. This project is part of a larger effort by the city to recruit, retain, and expand business investments and jobs in the Opportunity Zones. Erie has experienced significant job losses in manufacturing as a result of reductions in the coal industry supply chain. The project will leverage the expertise of a private sector digital technology solutions provider for smart cities. The initiative will provide outdoor Wi-Fi access; urban security solutions, including license plate recognition and traffic monitoring; analytics that can be tracked on a visualization dashboard; and the ability to remotely control street lights. An

additional investment of \$900,000 from other sources will enable other Smart City components to become operational within the Opportunity Zones. Erie hopes to become an entirely Smart City by 2028.

Project Title: *Nature Tourism Cluster Development in the PA Wilds*

Grantee: Pennsylvania Wilds Center for Entrepreneurship, Inc.

Award Amount: \$500,000

Announcement Date: October 2016

Project Summary: ARC grant to Pennsylvania Wilds Center for Entrepreneurship, Inc., in Russell, PA, for the *Nature Tourism Cluster Development in the PA Wilds* project. The ARC award will be used to create a coordinated regional cluster development system to capitalize on Pennsylvania's numerous nature tourism assets that spread across 2,000,000 acres in 12 counties. This strategy will drive attendance to these natural attractions, and will be leveraged by \$500,000 in match investments to develop a network of small businesses to support the increased demand for products and services in the area.

Project Title: *Revitalization of Southwestern Pennsylvania Coal-Impacted Communities through Innovation and Entrepreneurship*

Grantee: Innovation Works Inc.

Award Amount: \$500,000

Announcement Date: October 2016

Project Summary: ARC grant to Innovation Works, Inc., in Pittsburgh, PA, for the *Revitalization of Southwestern Pennsylvania Coal-Impacted Communities through Innovation and Entrepreneurship* project. ARC funds will be used to implement five different but complimentary programs designed to deliver a variety of benefits to entrepreneurs and small businesses in a nine-county region in southwestern Pennsylvania— including the provision of human resource services to early-stage, high-growth companies, and training services for existing small businesses. Programs will target entrepreneurs who were formerly employed in the coal industry, coal-fired power plants, and suppliers to those industries. The project will create 65 new jobs and 7 new businesses, leverage \$1,100,000 in additional investment, and retain 30 existing jobs.

Project Title: *Central PA Asset Based Economy - Adaptive Reuse of Coal-Impacted Land and Outdoor Recreation as an Economic Engine*

Grantee: SEDA—Council of Governments

Award Amount: \$471,843

Announcement Date: January 2017

Project Summary: ARC grant to the SEDA-Council of Governments in Lewisburg, PA, for the *Central PA Asset Based Economy—Adaptive Reuse of Coal-Impacted Land and Outdoor Recreation as an Economic Engine* project. ARC funds will be used to position reclaimed mine land in five central Pennsylvania counties as a regional outdoor tourism destination. Specifically, the project will construct an EMS/cell tower to provide 911 and cellular communications and broadband services to the Anthracite Outdoor Adventure Area (AOAA); design and construct 15 miles of new multi-use trails; develop and construct in-facility campground infrastructure; provide support for a coordinated marketing campaign focused on the region's tourism options; and provide entrepreneurial assistance activities to build-out the service industry around the increased tourism activity in the area. The project will drive 12,000 new visitors annually to the area, generate over \$18,000,000 in non-export revenue, and create 26 jobs.

Project Title: *Northwest PA Broadband Assessment*

Grantee: Northwest PA Regional Planning and Development Commission

Award Amount: \$100,000

Announcement Date: January 2017

Project Summary: ARC grant to the Northwest PA Regional Planning and Development Commission in Oil City, PA, for technical assistance to develop a feasibility study for broadband access in the Northwest Pennsylvania region. The *Northwest PA Broadband Assessment* project will include capacity building among regional partners, identify gaps in high-speed internet infrastructure, and recommend solutions to improve internet connectivity among residents and local business. State sources will provide an additional \$86,047 to support the project.

Project Title: *Erie to Pittsburgh Trail and PA Wilds Loop - Feasibility Study*

Grantee: Pennsylvania Environmental Council

Award Amount: \$72,000

Announcement Date: October 2018

Project Summary: ARC grant to the Pennsylvania Environmental Council in Pittsburgh, PA, for a feasibility study assessing the uncompleted sections of the Erie to Pittsburgh Trail and the PA Wilds Loop. These two trails are a part of the Industrial Heartland Trails Coalition, which utilizes existing natural and cultural assets in the region to diversify the local economies. Work will include right-of-way acquisition assessments, community outreach, segment prioritizations, and identifying funding sources that will help cover the costs of completing the final 210 miles in the trail system. The local communities have already seen the benefits of a burgeoning tourism sector from recently completed trail sections. A previous POWER grant is supporting entrepreneurship activities in the Pennsylvania Wilds.

Project Title: *Regional Freight & Mobility Plan for Coal Impacted Communities in North Central PA*

Grantee: North Central Pennsylvania Regional Planning and Development Commission

Award Amount: \$60,000

Announcement Date: February 2019

Project Summary: ARC grant to the North Central Pennsylvania Regional Planning and Development Commission in Ridgway, PA, for the development of a Regional Freight and Mobility Strategic Plan for the six-county region of Cameron, Clearfield, Elk, Jefferson, McKean, and Potter counties in North Central Pennsylvania. The coal downturn has greatly impacted North Central Pennsylvania, leading to loss of high paying jobs and a declining tax base, as well as supply chain and infrastructure issues. Developed in partnership with the Pennsylvania Department of Transportation and the Federal Highway Administration, the plan will help impacted communities better understand the freight challenges they face as a result of the coal decline, inventory existing infrastructure and freight assets across transportation modes, and develop strategies to optimize the freight network in support of industry diversification and economic growth.

Project Title: *Rural Broadband Coverage and Feasibility Study*

Grantee: Greene County Board of Commissioners

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to the Greene County Board of Commissioners in Waynesburg, PA for the *Rural Broadband Coverage and Feasibility Study*. This study will identify county-wide gaps in broadband access and will determine the best technology to fill these gaps (such as fiber, white space, cable, and DSL). When Greene County, which has experienced significant mining job losses, updated its comprehensive plan in 2018, the top-ranked issue identified was a need to expand broadband access. The feasibility study will review the

county's broadband assets, conduct a field survey of existing broadband access, determine customer demand, identify the best technology options for service gaps, and develop an implementation matrix.

Project Title: *South-Central Pennsylvania Broadband Infrastructure Assessment*

Grantee: Southern Alleghenies Planning & Development Commission

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to the Southern Alleghenies Planning & Development Commission in Altoona, PA for a *South-Central Pennsylvania Broadband Infrastructure Assessment*. This feasibility study will identify ways of increasing broadband and cellular services to residents and businesses in an eight-county region of South Central Pennsylvania. These eight counties have experienced economic downturn as a result of the decline of mining and manufacturing industries, and expanded broadband access could create new economic opportunities for the region. The study will identify the broadband assets already in place, assess community broadband requirements, identify the best technology to meet the needs, and provide cost estimates for different deployment strategies.

Project Title: *Enhancing Northeastern Pennsylvania's Entrepreneurial Ecosystem - Incubator Optimization*

Grantee: tecBRIDGE, LLC

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to tecBRIDGE, LLC in Scranton, PA for the *Enhancing Northeastern Pennsylvania's Entrepreneurial Ecosystem - Incubator Optimization* project. This project will assess the business incubation climate and assets in five counties in northeastern Pennsylvania (Lackawanna, Luzerne, Monroe, Schuylkill, and Wayne) and identify proven programs that can be replicated in communities to strengthen the regional entrepreneurial ecosystem and support the successful start-up and expansion of small businesses. The project capitalizes on a broad network of partners, including the NEPA Alliance, Ben Franklin Technology Partners, East Stroudsburg University, the Scranton Chamber of Commerce, and the Wayne Economic Development Corporation.

Project Title: *Armstrong County 2017 POWER Technical Assistance*

Grantee: Armstrong County Industrial Development Council

Award Amount: \$50,000

Announcement Date: January 2017

Project Summary: ARC grant to the Armstrong County Industrial Development Council in Freeport, PA, to develop an Economic Development strategy for the county. The *Armstrong County 2017 POWER Technical Assistance* project will, in cooperation with local partners, build a road map for shaping the delivery system of economic development services and programs in Armstrong County. The plan will look at new and existing services, programs and initiatives. Local sources will provide an additional \$60,820 for the project.

Project Title: *Central PA Rural Broadband Coverage and Feasibility Study*

Grantee: SEDA-Council of Governments

Award Amount: \$40,000

Announcement Date: October 2018

Project Summary: ARC grant to SEDA-Council of Governments in Lewisburg, PA, for a feasibility study of broadband access in four central Pennsylvania counties (Clinton, Lycoming, Northumberland, and Union). The study will assess current broadband needs in the four-county region and review existing infrastructure assets, both public and private. With this data, three communities in each county found to likely benefit the most from

increased access to broadband will be selected for further implementation projects. The study will also help create a model Request For Proposals (RFP) that can be used for future implementation projects.

Project Title: *Fayette County Multi-Tenant Spec Building Feasibility Study*

Grantee: Fay-Penn Economic Development Council

Award Amount: \$20,000

Announcement Date: October 2019

Project Summary: ARC grant to Fay-Penn Economic Development Council (Fay-Penn) in Lamont Furnace, PA for the *Fayette County Multi-Tenant Spec Building Feasibility Study*. The study will determine the feasibility of constructing multi-tenant speculative ("spec") shell buildings at various locations throughout Fayette County to accommodate and attract new business development. Fay-Penn has received an increasing number of inquiries from companies seeking industrial/commercial space availability. In many cases, especially for larger building size needs, the county does not have readily available, suitable space. The feasibility study will determine priority locations for development, building requirements for those companies, economic impacts of spec buildings, and marketing approaches for new development.

Project Title: *ARC POWER TA Grant Application Development*

Grantee: United Mine Workers Association Career Centers, Inc.

Award Amount: \$14,214

Announcement Date: October 2016

Project Summary: ARC grant to the United Mine Workers Association Career Centers, Inc. in Prosperity, PA, to provide grant writing assistance to raise funds for the development of a training program at their Greene County, PA, training facility. The program will emphasize high demand occupations such as commercial driver's license, and heavy equipment and diesel mechanics.

TENNESSEE (16 awards)

Project Title: *Duck River EMC's East Loop Fiber Optic and Smart Grid Project*

Grantee: Duck River Electric Membership Corporation

Award Amount: \$2,147,125

Announcement Date: February 2019

Project Summary: ARC grant to Duck River Electric Membership Corporation (DREMC) in Shelbyville, TN, for its *East Loop and Smart Grid Fiber Communication* project. The project will deploy smart grid improvements that form the backbone of a gigabit-speed fiber retail broadband network. The project will enable DREMC's Internet service provider (ISP) partners to provide affordable broadband access to 1,202 businesses and 2,876 households in Franklin, Coffee, and Marion Counties, resulting in the creation of 103 new jobs.

Project Title: *Advancing Aviation Technology*

Grantee: Northeast State Community College

Award Amount: \$1,566,927

Announcement Date: October 2019

Project Summary: ARC grant to Northeast State Community College in Blountville, TN for the *Advancing Aviation Technology* project. Through a partnership with the Tri-Cities Airport, the project seeks to build a reliable workforce pipeline of trained and certified aviation maintenance professionals in support of regional economic development priorities. It will expand the community college's Aviation Technology program, relocate the program to a new hangar at the Tri-Cities Airport, and secure FAA Airframe and Powerplant program certification. This includes constructing a new aircraft hangar in the adjacent airport,

acquiring instructional equipment, improving program outreach, revising curriculum, and creating jobs by hiring faculty. Over three years, the project will serve eight businesses, while training 72 community college students. The project is also a prerequisite for the success of the Tri-Cities Airport Aerospace Park, which will create up to 2,000 jobs in the aviation maintenance and manufacturing sector. Additional funding for the project is being provided by the Tri-Cities Airport Authority.

Project Title: *Workforce Development and Re-employment Opportunities*

Grantee: East Tennessee Development District (ETDD)

Award Amount: \$1,546,400

Announcement Date: October 2019

Project Summary: ARC grant to the East Tennessee Development District (ETDD) in Alcoa, TN for the *Workforce Development and Re-employment Opportunities* project. This project will expand and enhance skills training opportunities in the high-demand fields of allied health, welding, industrial maintenance, construction, diesel repair, and truck driving in East Tennessee and Southern Kentucky. ETDD will partner with Somerset Community College in Kentucky, Tennessee College of Applied Technology-Oneida/Huntsville, and Tennessee College of Applied Technology-Jacksboro. Counselors will work with drug court administrators, jail and prison administrators, and American Job Centers to enroll individuals that normally would not participate in the labor market. The project will develop and promote paid work-based learning opportunities by establishing co-ops, internships, and apprenticeships. Twelve new training programs will be implemented by the three participating colleges, and 465 workers/trainees will obtain a job in their field of study. Additional funding is provided by the Tennessee Higher Education Commission, the York Institute, and USDA Rural Business-Cooperative Services.

Project Title: *Marion County Regional Center for Higher Education Phase II & III*

Grantee: Marion County, Tennessee

Award Amount: \$1,501,499

Announcement Date: October 2018

Project Summary: ARC grant to Marion County, TN, for the *Marion County Regional Center for Higher Education Phase II & III* project. ARC funds will be utilized to construct a 30,000-square-foot educational facility that will house new technology and industrial training programs. The project will also conduct outreach to displaced workers from the Widows Creek Power Plant—a coal-fired facility in the area that was recently retired. The project will train 109 people for careers in advanced manufacturing and information technology, and will improve 20 existing businesses in the region.

Project Title: *Volunteer Energy Cooperative Smart Grid and Fiber Optic Deployment Project*

Grantee: Volunteer Energy Cooperative

Award Amount: \$1,500,000

Announcement Date: October 2018

Project Summary: ARC grant to the Volunteer Energy Cooperative in Decatur, TN, for the Internet of Things (IoT) Innovation Ecosystem Project. This project involves the buildout of an Internet of Things ecosystem with three components: an IoT technology platform, innovation partners, and an entrepreneurial ecosystem. Volunteer Energy Cooperative (VEC) is developing the IoT technology platform by deploying fiber optic broadband and smart grid technology to improve real time management of power supply and demand. These investments will drive the prototyping of technology solutions by innovation partners like Tennessee Tech University and the Massachusetts Institute of Technology Lincoln Laboratory. Viable solutions can be further developed and commercialized by entrepreneurial clients of the Biz Foundry and other entrepreneur centers in the Launch Tennessee network, itself a prior POWER grantee. An IoT innovation ecosystem holds the promise of utilizing local utility

infrastructure to expand rural broadband access and to generate new businesses and jobs from an emerging "data economy." Anticipated outcomes of deployment include \$4.4 million of additional grid improvements by VEC, 416 households improved by subscribing to fiber broadband service, 22 businesses improved by subscribing to fiber broadband service, 250 households improved by subscribing to load management service, and 13 businesses improved by subscribing to load management service.

Project Title: *Create Appalachia Arts & Technology Economic Development Initiative*

Grantee: East Tennessee State University

Award Amount: \$727,815

Announcement Date: October 2019

Project Summary: ARC grant to East Tennessee State University in Johnson City, TN for the *Create Appalachia Arts & Technology Economic Development Initiative*. East Tennessee State University (ETSU), in partnership with the Johnson City Development Authority and Create Appalachia, will establish a micro-enterprise incubator and professional development center to support the launch and continued success of artists and makers working with digital technologies. To attract and retain younger workers needed for robust economic development, ETSU plans to incubate not only individual businesses but also a thriving digital arts industry. This project will leverage the talent of ETSU and the Tennessee Visual Content Modernization Act to encourage the growth of new businesses. ETSU will provide 1570 students, 200 workers/trainees, 35 businesses, and 38 organizations a state-of-the-art instruction facility that can accommodate continuing education in arts technology, entrepreneurship training, business training, and software certification.

Project Title: *Holston Electric Cooperative Rural Broadband*

Grantee: Holston Electric Cooperative

Award Amount: \$862,017

Announcement Date: October 2019

Project Summary: ARC grant to Holston Electric Cooperative in Rogersville, TN for the *Holston Electric Cooperative Rural Broadband* project. The project will install 25.9 miles of fiber optic cable on Holston Electric's existing power poles to provide up to 1 Gbps service to areas not covered by a broadband or cable provider in the Goshen Valley in Hawkins County, TN. A number of employers in the region use the work-at-home model for portions of their workforce. Holston Electric Cooperative projects that several households in this service area are a part of this model, and greater broadband access will give this community access to online education, training, and/or retraining to expand this job market. The new fiber network will make broadband service available to 133 businesses and 600 households and create 20 new jobs over three years. In addition to farms and businesses, the expanded coverage will serve multiple churches, a school, and a fire department.

Project Title: *Appalachian Investors Alliance (AIA) - Angel Investing in Coal Communities*

Grantee: Appalachian Investors Alliance

Award Amount: \$577,840

Announcement Date: February 2019

Project Summary: ARC grant to the Appalachian Investors Alliance in Knoxville, TN, for the *Angel Investing in Coal Communities* program. Building on a prior POWER grant, the project will develop new Angel Investment Funds serving coal-impacted communities in Appalachia and provide technical and investment support to existing funds. The project will create four new angel funds in the Appalachian region, each capitalized with between \$500,000 and \$2 million of private financing. Additionally, it will provide due diligence support to Appalachian angel investment funds that lack professional management staff, expand educational offerings to investors and entrepreneurs, and sponsor a referral network of syndication and co-investment partners to increase investment in the region. Typically, angel investments

focus on companies that support advanced manufacturing, advanced materials, aerospace, healthcare, agricultural technology, and other regionally significant industry clusters. The project anticipates these activities will result in syndication and direct investment of \$11.25 million in leveraged private investment, with 25 businesses served, leading to 125 entrepreneurial jobs created.

Project Title: *LaunchTN's Entrepreneurial Education & Workforce Development*

Grantee: Tennessee Technology Development Corp DBA LaunchTN

Award Amount: \$500,000

Announcement Date: June 2017

Project Summary: \$500,000 ARC grant to LaunchTN in Knoxville, TN, for the *Entrepreneurial Education and Workforce Development* project. LaunchTN is working with partner organizations to provide high-impact entrepreneurial support services to innovators, entrepreneurs, and early-stage companies. The programs help increase availability of and access to resources, grow and diversify the entrepreneurial ecosystem, and create sustainable financial roadmaps for organizations and companies. Activities will focus on expanding rural youth innovation and idea generation programs, increasing access to technology and business support that result in customer acquisition and strategic partnerships, building out a roadmap to the marketplace for entrepreneurs from east Tennessee colleges and universities; and elevating opportunities for independent makers and local craft manufacturers. The programs will primarily target the coal-impacted counties of Anderson, Campbell, Claiborne, Cumberland, Fentress, Grundy, Marion, Morgan, Scott, and Sequatchie. The project is expected to result in 31 new businesses and 60 new jobs created, as well as roughly \$154,000 in leveraged private investment.

Project Title: *Northern Unicoi County Broadband*

Grantee: Erwin Utilities

Award Amount: \$400,333

Announcement Date: October 2020

Project Summary: ARC grant of \$400,333 to Erwin Utilities in Erwin, TN for the *Northern Unicoi County Broadband* project. This broadband expansion project will provide gigabit service to Unicoi County residents and businesses that are not currently served by a broadband or cable provider. Over 17 miles of fiber will be placed on Erwin Utilities' existing power poles. Broadband expansion will enable the northern area of Unicoi County to offset the county's topographical and geographical hurdles to economic development, resulting in the creation of new businesses, increased access to teleworking opportunities, and greater opportunities for remote learning. After the fiber installation, this project will serve eight businesses and 95 residents in the short term, with growth expected in the next three years. Unicoi County has been adversely affected by the closure of a major rail yard as a result of the decline in coal shipments.

Project Title: *Erwin Utilities - Temple Hill & Bumpus Cove Broadband*

Grantee: Erwin Utilities

Award Amount: \$400,000

Announcement Date: October 2016

Project Summary: ARC grant to Erwin Utilities in Erwin, TN, for the *Temple Hill & Bumpus Cove Broadband* project. ARC funds will be used to install 35 miles of fiber optic cable on existing pole lines— allowing business and residential subscribers in Temple Hill and Bumpus Cove access to broadband services. The area does not currently have cable broadband available, and DSL service is not offered ubiquitously. Tourism expansion is a major economic driver in the area and increased bandwidth will help expand the tourism industry and revenue base. The project will serve 680 households and 30 businesses, and will act as an

economic driver in a three county area in northeast Tennessee, which has been adversely affected by the closure of a major rail yard as a result of the decline in coal shipments.

Project Title: *Unicoi - Mountain Harvest Kitchen Incubator & Entrepreneurial Training Program*

Grantee: Town of Unicoi

Award Amount: \$353,086

Announcement Date: October 2016

Project Summary: ARC grant to the Town of Unicoi, TN, for the *Mountain Harvest Kitchen Incubator and Entrepreneurial Training Program*. ARC funds will purchase equipment for a shared-use, commercial kitchen where value-added processing of locally-harvested products will take place. Entrepreneurial training will be offered by partner organizations including AccelNow, the Appalachian Resource Conservation and Development Council, and the University of Tennessee Agricultural Extension for startups and established businesses in the agricultural sector. The program will serve a nine-county region in northeast Tennessee and northwest North Carolina, create 30 new businesses and 60 new jobs, serve 91 trainees, and leverage \$1,200,000 in private investment.

Project Title: *Northern Unicoi County Broadband*

Grantee: Erwin Utilities

Award Amount: \$342,646

Announcement Date: October 2019

Project Summary: ARC grant to Erwin Utilities in Erwin, TN for the *Northern Unicoi County Broadband* project. The project will enable Erwin Utilities to install 16.8 miles of fiber optic cable on existing power poles and provide high-speed broadband to businesses and residential subscribers in areas of northern Unicoi County that are not covered by a broadband or cable provider. With an increasing number of businesses utilizing telework employment, expanded infrastructure will allow more residents to pursue remote work from home. Within three years, the project is expected to expand broadband access for 14 businesses and 488 residents. Erwin Utilities also projects that the expansion will increase the number of businesses in the service area, resulting in three new businesses and 15 additional jobs. The project builds on an existing fiber network, a portion of which was supported by a previous POWER grant.

Project Title: *"Funding the Future" Pre-Implementation Study*

Grantee: Appalachian Community Federal Credit Union

Award Amount: \$68,000

Announcement Date: October 2018

Project Summary: ARC grant to Appalachian Community Federal Credit Union in Kingsport, TN, to underwrite a study for developing an affordable, flexible loan program called *Funding the Future*. The program will focus on providing accessible financing to residents in a 17-county area across Kentucky, Tennessee, and West Virginia for in-demand certificate training programs. Despite being hit by the decline of the coal industry, there exists a demand for good-paying jobs in the service area including welders, line technicians, and commercial truck drivers. Current loan programs at the state and federal level are limited in what they can offer for certificate-granting programs and are restrictive in what can be paid for using loan funds. *Funding the Future* looks to fill the existing funding gap by providing flexible loans for in-demand programs that can also be used to cover living expenses and tools of the trade, as well as tuition and books.

Project Title: *Northeast Tennessee Regional Outdoor Development Strategic Plan*
Grantee: Northeast Tennessee Regional Foundation for Economic Development, Innovation, and Outdoor Recreation (NETRF)
Award Amount: \$44,450
Announcement Date: October 2020
Project Summary: ARC grant of \$44,450 to Northeast Tennessee Regional Foundation for Economic Development, Innovation, and Outdoor Recreation (NETRF) in Johnson City, TN for the *Northeast Tennessee Regional Outdoor Development Strategic Plan*. The strategic plan will support Phase II of NETRF's regional Outdoor Master Plan. NETRF will gather data on local asset utilization from tourism and outdoor recreation and will recommend best practices for outdoor branding. The Outdoor Master Plan will ultimately encourage environmental stewardship of public land and prioritize investment in the natural assets in the Northeast Tennessee region.

Project Title: *Lawrence County Broadband Feasibility Study*
Grantee: Lawrence County, Tennessee
Award Amount: \$35,000
Announcement Date: February 2019
Project Summary: ARC grant to Lawrence County, TN, for the *Lawrence County Broadband Feasibility Study* project. The broadband feasibility study will be used to help determine next steps in obtaining better broadband coverage throughout Lawrence County. Currently only 25 percent of the population has access to broadband service. The study will include the creation of a steering committee for the county and address identifying broadband demand, creating an accurate broadband availability map, conducting a strategic review of county and city policies for broadband, developing an inventory of assets, and studying potential adoption rates.

VIRGINIA (30 awards)

Project Title: *Building Appalachian Spring: Growing the Economy of Southwest Virginia*
Grantee: Friends of Southwest Virginia
Award Amount: \$3,000,000
Announcement Date: October 2016
Project Summary: ARC grant to Friends of Southwest Virginia in Abingdon, VA, for the *Building Appalachian Spring: Growing the Economy of Southwest Virginia* project. This comprehensive project will significantly enhance the outdoor recreation industry as an economic driver in a four-county region in southwestern Virginia. ARC funds will be used to develop four access points to the New River that strategically link the river to nearby communities' hospitality and tourism services; construct a 4,000-square-foot Gateway Center to the High Knob Recreation Area—providing visitors with more centralized access to numerous nearby recreation assets; build an Appalachian Trail Center in downtown Damascus; and create a 30-mile, multi-use trail connecting Breaks Interstate Park directly to downtown Haysi's business district. The project will increase travel expenditures in project locations by \$30 million over the next five years, create 60 new businesses and 200 new jobs, and is supported by funding from the Virginia Tobacco Region Revitalization Commission.

Project Title: *Impact Appalachia: A Market-Making Fund*
Grantee: Virginia Community Capital
Award Amount: \$2,500,000
Announcement Date: January 2017
Project Summary: ARC grant to Virginia Community Capital in Christiansburg, VA, for *Impact Appalachia: A Market-Making Fund for Central Appalachia*. The project will fill

critical capital gaps to strengthen Central Appalachia's economy and accelerate market development for a six-state region (Kentucky, North Carolina, Ohio, Tennessee, Virginia, and West Virginia). *Impact Appalachia* will support business development and advance emerging sectors in the region by acting as an entrepreneurial ecosystem coordinator to increase the region's readiness and capacity to attract and absorb capital. It will provide grant-like funds to fill critical gaps in the investment pipeline and will serve as an investment vehicle providing capital to investment-ready businesses. It will also launch an impact investment fund that will raise and deploy affordable capital to expand essential infrastructure and invest in job-creating businesses that build local wealth and increase the number of quality jobs. The project is anticipated to improve 15 communities, leverage \$111 million of private capital, and create or retain 649 jobs.

Project Title: *Virginia Emerging Drone Industry Cluster Project*

Grantee: Industrial Development Authority

Award Amount: \$2,220,000

Announcement Date: October 2016

Project Summary: ARC grant to the Industrial Development Authority in Wise, VA, for the *Virginia Emerging Drone Industry Cluster Project*. ARC funds will be used to position five counties in southwestern Virginia as a national destination for the development of a drone-operator workforce to support the emerging drone industry in the United States. The award will enable Mountain Empire Community College to offer courses that train students, including former coal industry workers, to operate drones and drone sensors to provide commercial and government services—including geospatial surveys, close-up inspections of fixed structures, and mapping. The award will train 64 new workers, leverage \$15,000,000 in additional investment, and enable a private aerospace company in the region to perform work on a major contract—thereby creating 210 new direct and indirect jobs.

Project Title: *Site Improvements at Commonwealth Crossing Business Centre (CCBC)*

Grantee: Henry County

Award Amount: \$1,500,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,500,000 to Henry County in Collinsville, VA for the *Site Improvements at Commonwealth Crossing Business Centre (CCBC)* project. This project will complete a steel natural gas pipeline from the Patriot Line to the Commonwealth Crossing Business Centre (CCBC) and associated facilities. Lack of a direct natural gas line has been cited as a significant recruitment and job-creation weakness for the CCBC. The CCBC is a key component of the county's transition from a mineral-extraction-based economy to a manufacturing economy that seeks to incorporate aviation, automotive, food processing, and advanced film production as sectors in a more diversified local economy. By installing a pipeline that can deliver a maximum natural gas volume of four million standard cubic feet per hour, this infrastructure improvement will expand the area's opportunities for large, transformational projects. The project will serve a facility that has already created over 200 jobs and will enable more companies to move jobs into CBCC and the surrounding area. Key partners include the Harvest Foundation and Southwest Virginia Gas Company.

Project Title: *Recovery Opportunities and Pathways to Employment Success (ROPES)*

Grantee: Southwest Virginia Workforce Development Board

Award Amount: \$1,500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Southwest Virginia Workforce Development Board in Lebanon, VA for the *Recovery Opportunities and Pathways to Employment Success (ROPES)* project. The ROPES program will create a recovery-to-employment ecosystem that combines substance abuse disorder recovery and treatment with workforce development and re-

employment opportunities. The program will provide upskilling and work-based learning opportunities while at the same time developing a menu of recovery services focused on the post-treatment to employment continuum. The project will make the workforce of Southwest Virginia healthier and more competitive as the region strives to overcome the opioid crisis and revitalize an economy that has been heavily dependent on coal. Guided by the Workforce Board's Business Services Team, the program will work with employers to foster understanding and support for recovery-safe work environments. ROPES will serve and improve 25 businesses, 90 workers/trainees will obtain new employment, and four new jobs for case managers and certified peer recovery specialists will be created.

Project Title: *The Central Appalachian Food Enterprise Corridor*

Grantee: Appalachian Sustainable Development

Award Amount: \$1,500,000

Announcement Date: October 2016

Project Summary: ARC grant to Appalachian Sustainable Development in Abington, VA, for the *Central Appalachian Food Enterprise Corridor*. This 5-state, 43-county project will develop a coordinated local foods distribution network throughout Central Appalachia, and will connect established and emerging producers in Ohio, West Virginia, Tennessee, Southwest Virginia, and Eastern Kentucky to wholesale distribution markets. The ARC award will support planning, partner convening, and capacity building, as well as production and processing equipment, supplies, and labor costs, and will be supported by funding from the Just Transition Fund. The strengthened food corridor will act as regional economic driver—creating 120 jobs, retaining 250 jobs, and ultimately creating 95 new businesses.

Project Title: *Pathways to a Strong and Healthy Region*

Grantee: New River/Mount Rogers Workforce Development Area Consortium Board

Award Amount: \$1,494,000

Announcement Date: October 2020

Project Summary: ARC grant of \$1,494,000 to the New River/Mount Rogers Workforce Development Area Consortium Board in Radford, VA for the *Pathways to a Strong and Healthy Region* project. This project will create a recovery-ready region by collectively tackling the full range of the substance abuse disorder (SUD) problem. Project partners will address the lack of coordination between the economic and workforce development sectors and the healthcare and human service sectors in addressing SUD as an economic development issue. This coordination will help the region create continuity among support services, sustain long-term recovery for individuals, and scale efforts for greater impact on the individual/family, business/industry, and the region. The result will be a strong regional recovery ecosystem. The project will serve 350 workers in recovery and 30 workers in the healthcare/human services sector as well as 150 businesses. Additional support is being provided by the grantee, Eagles Nest Regeneration, and Ballad Health.

Project Title: *Southwest Virginia Regional Cybersecurity Initiative*

Grantee: Southwest Virginia Community College

Award Amount: \$1,420,219

Announcement Date: October 2016

Project Summary: ARC grant to Southwest Virginia Community College (SWCC) in Cedar Bluff, VA, for the *Southwest Virginia Regional Cybersecurity Initiative*. The initiative brings together three colleges in southwestern Virginia—SWCC, Mountain Empire Community College (MECC), and University of Virginia's College at Wise (UVA-Wise)—and aims to position this seven county southwestern Virginia area as a regional hub for the cybersecurity industry. Specific activities will include creating a certification/credential program aligned with industry needs and National Security Agency guidelines; providing support services to cybersecurity start-up companies that locate to the region; and expanding UVA-Wise's

existing bachelor's degree program in cybersecurity through an accelerator space in which cybersecurity companies can co-locate research and development activities. Additional funding for the project is being provided by the Virginia Tobacco Region Revitalization Commission. The project will train 161 new workers, and retain 110 jobs.

Project Title: *REDI Center for Dislocated Coal Miners*

Grantee: Southwest Virginia Community College

Award Amount: \$1,417,375

Announcement Date: October 2016

Project Summary: ARC grant to Southwest Virginia Community College (SWCC) in Cedar Bluff, VA, for the *Retraining Energy Displaced Individuals (REDI) Center for Dislocated Coal Miners* program. The REDI program will provide fast-track reemployment services directly to displaced coal miners—equipping them with the necessary skills to get back to work in a high-demand field, earning comparable wages to their previous employment. Through an intensive, accelerated program of coursework, workers can obtain credentialed skills in as little as four months, rather than the more traditional training periods of a year or more. Training will be focused on three sectors with local employment opportunities: advanced manufacturing, construction, and health technology. The program will certify 165 new trainees over the life of the award, and will be supported by funding from the Thompson Charitable Fund and the Virginia Tobacco Commission.

Project Title: *The Heart of Appalachia Economic Transition Project*

Grantee: Southwest Virginia Alliance for Manufacturing

Award Amount: \$1,307,650

Announcement Date: October 2016

Project Summary: ARC grant to the Southwest Virginia Alliance for Manufacturing, Inc., in Abingdon, VA, for *The Heart of Appalachia Economic Transition Project*. The project will align the grantee—a non-profit industry association of manufacturers from southwest Virginia—local workforce development boards, and the Virginia Manufacturing Extension Partnership (MEP) Center to deliver business technical assistance to coal supply chain manufacturers in an effort to return them to profitability. The project will conduct outreach to prospective companies in the 16-county southwest Virginia service territory, and perform network analysis that will allow for participating companies to retool their manufacturing efforts in the most feasible, cost-effective manner possible. In addition, the project will increase the number of young adults pursuing careers in manufacturing by redefining the image and value of manufacturing among young people, their parents, their educators, and policy makers. The award will create 300 jobs and retain 200 existing jobs, and will positively impact the operations of 58 existing businesses.

Project Title: *Seed-to-Sale: Strengthening the Central Appalachian Food Corridor*

Grantee: Appalachian Sustainable Development (ASD)

Award Amount: \$1,250,000

Announcement Date: February 2019

Project Summary: ARC grant to Appalachian Sustainable Development (ASD) in Abingdon, VA, for the *Seed-to-Sale: Strengthening the Central Appalachian Food Corridor* project. ASD, in partnership with Refresh Appalachia, Sprouting Farms, the Kentucky Center for Agriculture and Rural Development, Community Farm Alliance, and Whitlock Farm, will expand the impact and scale of the Central Appalachian Food Enterprise Corridor across four Appalachian states. Through previous POWER funding, the Central Appalachian Food Enterprise Corridor has effectively connected established and emerging producers throughout Central Appalachia to wholesale distribution markets, leading to increased agricultural business development and job creation. The current project will focus attention on portions of the Corridor that need additional support by increasing technical assistance

and extending effective practices. It will enhance the network through mediation between private industry and small-scale farmers, fostering aggregation and distribution opportunities. It will increase the supply of produce, attracting more regional and national buyers to purchase local produce, and will pursue priority procurement policies by states and institutions. The project will span 91 counties in four states (Virginia, West Virginia, Kentucky, and Tennessee) and serve 349 businesses and 938 participants. It is anticipated that the project will improve 238 businesses and 786 participants, create 38 new businesses and 85 jobs, and leverage \$732,666 of private investment.

Project Title: *BARC Rural Economic Development via Broadband*

Grantee: BARC Electric Cooperative

Award Amount: \$1,000,000

Announcement Date: October 2019

Project Summary: ARC grant to BARC Electric Cooperative in Millboro, VA for the *BARC Rural Economic Development via Broadband* project. The project will deploy a gigabit last-mile fiber-to-the-premise (FTTP) network to businesses and residents of the Town of Goshen, Virginia, a remote area in Rockbridge County. The area is not currently served by a broadband provider. The reduction in coal rail shipping has caused economic deterioration in the Goshen area. Improved broadband access is crucial for increased economic development, the creation of an entrepreneurial ecosystem, improved educational opportunities, and reduced workforce migration. The eight-mile fiber network will make FTTP available for 301 households and 8 businesses. The network will also further BARC Electric's smart grid strategy by connecting its Network Operations Center to its entire Smart Grid.

Project Title: *Power Linemen Career Education*

Grantee: Mountain Empire Community College (MECC)

Award Amount: \$950,000

Announcement Date: January 2017

Project Summary: ARC grant to Mountain Empire Community College (MECC) in Big Stone Gap, VA, for the *Power Linemen Career Education* program. MECC will partner with regional power industry employers to develop and implement a training curriculum that equips participants across a four-county area in southwest Virginia for entry-level employment as apprentice utility line workers and positions them for a career as journeyman-level power lineman. The project will also partner with the Flatwoods Job Corps Center's in order to utilize their outdoor instructional facilities. The project will serve 362 trainees over the life of the award.

Project Title: *Project Intersection*

Grantee: LENOWISCO Planning District Commission

Award Amount: \$917,315

Announcement Date: October 2018

Project Summary: ARC grant to the LENOWISCO Planning District Commission in Duffield, VA, to conduct *Project Intersection*, a new regional 200-acre industrial site in the coalfields of southwestern Virginia. LENOWISCO will partner with the Norton Industrial Development Authority and Lonesome Pine Regional Industrial Facilities Authority in developing the site on abandoned mine land. The ARC grant will be paired with a portion of an already awarded grant from the Abandon Mine Lands (AML) Pilot program of the Office of Surface Mining Reclamation and Enforcement at the U.S. Department of the Interior. Project activities will yield a highly visible, highly desirable, regional industrial and business site. *Project Intersection* is situated at the junction of U.S. Highways 23 and 58A, with the highest cumulative non-Interstate traffic volume in far southwestern Virginia. No comparable combination of available land and transportation infrastructure exists in that part of the state.

The development of *Project Intersection* aids the effort to foster diversification and rejuvenation of the regional economy, luring private investment and new employment opportunities. The initial phase of development will create 75 jobs and an initial private capital investment of \$10 million as a result of companies locating at the site.

Project Title: *New Economy Loan Fund*

Grantee: Virginia Community Capital

Award Amount: \$800,000

Announcement Date: January 2017

Project Summary: ARC grant to Virginia Community Capital in Christiansburg, VA, for the *New Economy Loan Fund* project. The project—which will leverage the capacity of a variety of regional governments, education institutions, and business incubators—will provide needed capital and targeted technical assistance to small business owners in coal-impacted communities across nine counties in southwest Virginia. Specifically, ARC funds will assist in capitalizing a loan fund that will support small business development in the service area, and will enable a full-time technical assistance provider to deliver business assistance directly to entrepreneurs to build the knowledge and skills for continued profitability and sustainability. The project will create or retain 55 jobs, enable 17 businesses to receive loans and 30 businesses to receive technical assistance, and leverage \$4,800,000 in private capital.

Project Title: *Southwest Virginia Medication-Assisted Treatment Services*

Grantee: St. Mary's Health Wagon (The Health Wagon)

Award Amount: \$793,500

Announcement Date: October 2020

Project Summary: \$793,500 grant to St. Mary's Health Wagon (The Health Wagon), in Wise, VA for the *Southwest Virginia Medication-Assisted Treatment Services* project. The project will establish a substance use treatment program that complements the region's existing services. Southwest Virginia has been hit hard by the downturn in the coal economy and the concurrent epidemic of substance use disorder. Community organizations have been leaders in identifying and implementing services that prevent and treat substance use issues, and they seek to offer an alternative to existing medication-assisted treatment services. The proposed service will be based at the Appalachian Center for Healthcare Excellence, a family practice clinic in Coeburn, VA. The Southwest Virginia Medication-Assisted Treatment Services Project is expected to create four jobs and serve 75 patients in its first year of operation. In the future, the program will have the capacity to serve approximately 150 patients each year.

Project Title: *SWCC Automotive Service Excellence Center*

Grantee: Southwest Virginia Community College (SWCC)

Award Amount: \$588,072

Announcement Date: October 2019

Project Summary: ARC grant to Southwest Virginia Community College (SWCC) in Cedar Bluff, VA for the *SWCC Automotive Service Excellence Center*. The project will create a credit-based, fast-track curriculum to prepare students for entry-level automobile technician positions. Students will receive certification from the National Institute for Automotive Service Education (ASE). Rapid changes within the automotive, heavy-duty truck, and diesel engine fields have created a strong demand for workers with training and certification in the latest technologies, but no specialized training opportunities currently exist within an hour's drive of SWCC. These businesses offer employment opportunities in an area that has been heavily dependent on the coal industry. As a result of the grant, at least 59 students will obtain jobs or will still be enrolled in the program at the end of the three-year project period, 25 workers/trainees will have enhanced positions, and five businesses will be improved.

Project Title: *New Market Tax Credit Project Growth in Appalachia*

Grantee: People Incorporated Financial Services

Award Amount: \$486,769

Announcement Date: February 2019

Project Summary: ARC grant to People Incorporated Financial Services (PIFS) in Abingdon, VA, for the *New Market Tax Credit Project Growth in Appalachia* project. PIFS will launch a new program providing technical assistance and advisory services to entrepreneurial start-ups, emerging businesses, units of local government, and other community-based organizations to engage in and carry out high impact, capital intensive projects. PIFS will increase capacity of these actors to undertake transformative community development projects. Capacity building will include assistance in how to plan, structure, fund, and carry out community and economic development projects. It will also build capacity to leverage multiple sources of funding, understand and access complicated financing sources, such as New Markets Tax Credits, and accept significant financial and organizational risk. To select projects, PIFS will work with regional, state, and local economic development organizations, community development leaders, private philanthropy, federal/state agencies, and past POWER grant recipients. PIFS anticipates working with eight to ten unique projects over a three-year period, creating 50 jobs, and leveraging \$10 million in new capital into the impacted communities. The initiative will focus on coal-impacted communities in West Virginia, Virginia, Tennessee, and Kentucky.

Project Title: *Bland County Broadband Deployment*

Grantee: Bland County

Award Amount: \$459,764

Announcement Date: February 2019

Project Summary: to Bland County, VA, for the *Bland County Broadband Deployment* project. The project will construct a 33-mile fiber run that will be used to supply broadband to businesses in Bland County. The fiber run will start in Rocky Gap and go south through Bastian and on to Bland. The fiber will run along the Route 52 corridor. Once the fiber construction is finished, the competitively selected ISP partner will use wireless technology to reach additional locations off Route 52. The project will make access available to 37 businesses, as well as Bland County schools, the Board of Education Offices, and the Bland County Medical Clinic, a Federally Qualified Health Center.

Project Title: *Building POWERful Economic Diversity and Sustainability within Appalachian Communities*

Grantee: Friends of Southwest Virginia

Award Amount: \$100,000

Announcement Date: February 2019

Project Summary: ARC grant to Friends of Southwest Virginia in Abingdon, VA, for the *Building POWERful Economic Diversity and Sustainability within Appalachian Communities* project. It will create an interstate collaborative plan for developing common natural and cultural assets that can boost regional economic diversification. This process will bridge communities in Southwest Virginia with their neighbors in North Carolina, Tennessee, West Virginia, and Kentucky, to create a community-driven identification and planning process. This will expand current collaboratives within the footprint of Friends of Southwest Virginia, including a previous POWER project, beyond Southwest Virginia to develop natural and cultural assets and strategies that are shared across neighboring states. Natural and cultural asset planning across state lines will help generate a diverse and sustainable economy for Central Appalachia.

Project Title: *Southwest Virginia Renewable Energy and Economy*

Grantee: Appalachian Voices

Award Amount: \$99,670

Announcement Date: January 2017

Project Summary: ARC grant to Appalachian Voices in Norton, VA, for the *Southwest Virginia Renewable Energy and Economy* Project. The project will conduct a feasibility study, develop a strategic plan, and provide capacity building assistance to determine the viability of a renewable energy plan for the Southwest Virginia region. The project's activities will include a structured process for engaging local officials and organizations that are interested in renewable energy as part of the region's economic diversification strategy.

Project Title: *RESOURCE-FULL: A Consortium Approach to Workforce and Economic Development in Southwest Virginia*

Grantee: Friends of Southwest Virginia

Award Amount: \$75,000

Announcement Date: October 2015

Project Summary: ARC grant to Friends of Southwest Virginia in Abingdon, Virginia, for *RESOURCE-FULL: A Consortium Approach to Workforce and Economic Development in Southwest Virginia*. The U.S. Economic Development Administration (EDA) is also awarding \$275,000 to this project. The ARC award will be used to brand the southwest Virginia region as an international outdoor recreation destination and will include the development of tools and materials to be used for business and employee recruitment.

Project Title: *Virginia Coalfields Telecommunications Planning Grant*

Grantee: Virginia Coalfield Coalition, Inc.

Award Amount: \$61,603

Announcement Date: January 2017

Project Summary: ARC grant to the Virginia Coalfield Coalition, Inc., in Lebanon, VA, for technical assistance to conduct a comprehensive assessment of Southwest Virginia's telecommunication needs, which include identifying current levels of service, any gaps in that service, and the affordability of various broadband solutions. The *Virginia Coalfields Telecommunications Planning Grant* will develop a road map to address the specific deficiencies in each community and assess building capacity amongst regional partners. Local sources will provide an additional \$37,757 for the project.

Project Title: *Tri-State Broadband Infrastructure Feasibility Study*

Grantee: LENOWISCO Planning District Commission

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to LENOWISCO Planning District Commission in Duffield, VA, for the *Tri-State Broadband Infrastructure Feasibility Study*. The project will create a plan to establish a fiber-optic network in a 13-county region of Kentucky, Tennessee, and Virginia. The LENOWISCO Planning District Commission (which comprises the Virginia counties of Lee, Wise, and Scott and the City of Norton) will convene stakeholders and determine the region's critical Network Access Points to connect households and businesses to other nearby regional networks. Currently, only 64 percent of households in this service area have access to high-speed internet. After establishing a fiber-optic network, the multi-county region will be marketed for data center development.

Project Title: *Technology Innovation Ecosystem for Rural Water Systems*

Grantee: LENOWISCO Planning District Commission

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to LENOWISCO Planning District Commission in Duffield, VA for the *Technology Innovation Ecosystem for Rural Water Systems* project. This pilot project will identify innovative and emerging technologies that can be scaled to monitor and evaluate small, rural public water systems for potential leaks. It will include a strategic analysis of existing leak detection technologies in both real and simulated testing environments. It can provide an immediate cost savings to the Wise County Public Service Authority, reducing water loss costs that are typically absorbed by the customer base. Partners include the Wise County Public Service Authority, University of Virginia's College at Wise, and the MIT Lincoln Lab.

Project Title: *Taking a Proven Energy Model to Scale*

Grantee: Appalachian Voices

Award Amount: \$49,940

Announcement Date: October 2019

Project Summary: ARC grant to Appalachian Voices in Boone, NC for the *Taking a Proven Energy Model to Scale* project. The project will provide technical assistance to grow the emerging solar energy cluster in Central Appalachia, helping diversify the regional economy. It will support a commercial-scale solar group purchase program in Southwest Virginia that helps building owners who want to use solar energy navigate the often complex process of a commercial-scale solar installation and pool demand to reduce costs. The project will examine options for expanding the group purchase approach to other states, conduct a multi-state market analysis of solar opportunities, and prepare an assessment of the solar project finance ecosystem.

Project Title: *Virginia Rural Leaders Institute (VRLI)*

Grantee: Center for Rural Virginia

Award Amount: \$39,755

Announcement Date: October 2020

Project Summary: ARC grant of \$39,755 to the Center for Rural Virginia in Richmond, VA for the *Virginia Rural Leaders Institute (VRLI)*. The project will fill a gap in civic leadership development for rural communities in Virginia. VRLI will deliver a robust curriculum involving leadership, community, and economic development competencies to community leaders throughout Southwestern Virginia. Community leaders will be convened over a series of four sessions throughout the region. The first VRLI will graduate 30 leaders and create a state-wide rural network to strengthen rural development at the local level.

Project Title: *Blue Ridge Plateau Abattoir Regional Partnership*

Grantee: Grayson LandCare, Inc.

Award Amount: \$34,750

Announcement Date: January 2017

Project Summary: ARC grant to Grayson Land Care, Inc., in Fries, VA, to develop a feasibility study for the development of an abattoir, or slaughter house, in the I-81 and I-77 corridor, a region that includes parts of Virginia and West Virginia. The *Blue Ridge Plateau Abattoir* project will, in cooperation with local partners, directly support the development and planning tasks needed to launch the facility and implement a workforce training program. The proposed abattoir would strengthen the local food system and help diversify the regional economy.

Project Title: *New River Water Trail Expansion Strategic Plan*

Grantee: New River Valley Regional Commission

Award Amount: \$32,940

Announcement Date: October 2020

Project Summary: ARC grant of \$32,940 to New River Valley Regional Commission in Fairlawn, VA for the *New River Water Trail Expansion Strategic Plan*. The project will develop a plan to cultivate natural assets around the New River to increase talent attraction, tourism, and job growth. The strategic plan will formulate a strategy to improve river accessibility and trail signage, provide a market analysis of user groups and potential partners, and create a marketing strategy for the water trail. The strategic plan will develop an expansion model that can be applied throughout Virginia and its surrounding Appalachian states.

Project Title: *Grant-Writing Assistance for "A Bolder Brew, a Brighter Bouquet: Strengthening the Craft Beverage Cluster Across Southwest Virginia"*

Grantee: Round the Mountain: Southwest Virginia's Artisan Network

Award Amount: \$11,108

Announcement Date: January 2017

Project Summary: ARC grant to Round the Mountain: Southwest Virginia's Artisan Network in Abingdon, VA, to provide grant writing assistance to raise funds for the creation of a regional craft beverage cluster that will strengthen Virginia's agriculture industry and tourism in the region. The project will build off the extensive network cultivated by the Southwest Virginia Cultural Heritage Foundation.

WEST VIRGINIA (64 awards)

Project Title: *Mercer County Regional Airport Development and Diversification Initiative*

Grantee: Bluewell Public Service District

Award Amount: \$2,500,000 total

Announcement Date: October 2016

Project Summary: \$2,500,000 total (a \$1,500,000 ARC grant and a \$1,000,000 grant for the U.S. Economic Development Administration) to the Bluewell Public Service District in Bluefield, WV, for the *Mercer County Regional Airport Development and Diversification Initiative*. POWER funds will be used to extend public water service along Route 52 and Airport Road to the Mercer County Regional Airport. In addition to providing essential infrastructure to the regional airport, the project will create 38 new jobs, and will capitalize on an existing regional asset by providing funding for a strategic plan that will position the airport and its adjoining 200 acres of flat, developable land as an economic driver for four counties in Southern West Virginia and Southwestern Virginia.

Project Title: *Thundercloud Gigabit City Deployment*

Grantee: Thundercloud, Inc.

Award Amount: \$2,353,788

Announcement Date: October 2020

Project Summary: ARC grant of \$2,353,788 to Thundercloud, Inc., in Huntington, WV for the *Thundercloud Gigabit City Deployment project*. The project will support approximately 25 miles of fiber construction to create a fiber loop that will connect Barboursville to downtown Huntington and deploy a robust last-mile underground fiber ring linking businesses and anchor institutions to gigabit speed infrastructure. Once fully operational, it is estimated 500 businesses will utilize the fiber ring. It will be part of a larger planned broadband network in the nine-county Advantage Valley region. The loop will also connect to the Thundercloud Data Center, which is planned for a federally designated Opportunity Zone and is benefitting from a prior POWER grant to Opportunity Appalachia. The center will provide state-of-the-

art, secure, dual-redundant, high-capacity data storage and cloud computing capacity for the greater Huntington region. Large anchor institutions are likely candidates to use the data center services. The center would also connect to the established state-of-the-art data center in South Charleston. Thundercloud will boost telehealth and telelearning progress, drive new economic development, serve downtown and technology park businesses seeking better broadband access, and upgrade four key Huntington municipal and public safety facilities.

Project Title: *SEED-LIFT: Social Enterprise and Economic Diversification - Leveraging Investment For Transformation*

Grantee: Coalfield Development Corporation

Award Amount: \$2,034,667

Announcement Date: October 2018

Project Summary: ARC grant to Coalfield Development Corporation in Wayne, WV, to support its Social Enterprise and Economic Diversification-Leveraging Investment for Transformation (SEED- LIFT) project. The project's primary objective is to remove barriers to participating in the workforce. SEED-LIFT plans to improve the education and skill-sets of residents to ensure workforce readiness within a four-county region in West Virginia (Lincoln, McDowell, Mingo, Wayne). It will strengthen cultural assets (especially coal community downtowns) by investing in community-based real estate development through social entrepreneur oriented revitalization concepts; and will continue to grow Coalfield Development Corporation's network of employers leading to reemployment training and job placement services. Lastly, the project will recapitalize existing social enterprises to expand job creation and business development. At the project's completion, there will be seven communities improved, 60 jobs created, three new businesses created, revenues increased by 35 percent, 50,000 square feet of redeveloped downtown space, and \$7 million in leveraged private investment. The project builds on the demonstrated success of Coalfield's previous POWER grant and its innovative 33-6-3 on-the-job training/education/life skills workforce development model. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *EntreEd K-14: Every Student, Every Year*

Grantee: Consortium for Entrepreneurship Education

Award Amount: \$2,196,450

Announcement Date: October 2018

Project Summary: ARC grant to the Consortium for Entrepreneurship Education in Charleston, WV, for the *EntreEd K-14: Every Student, Every Year* project. The EntreEd program enables K-12 teachers to integrate entrepreneurial content and context into delivery of required standards in any subject or grade level. The project will educate the next generation of Appalachia's workforce to create their own businesses to drive the local economy. ARC funds will expand the footprint of the proven EntreEd program into five additional counties in West Virginia, eleven counties in Kentucky, three counties in Ohio, one county in Tennessee, and two counties in Virginia. The program will be supported by expertise from the National Association for Community College Entrepreneurship (NACCE), project management from the EdVenture Group, and funding from the Claude Worthington Benedum Foundation. The EntreEd program will serve 15,000 K-12 Appalachian students in 50 individual schools and 7 community colleges over the life of the award.

Project Title: *Appalachian Social Entrepreneurship Investment Strategy*

Grantee: Coalfield Development Corporation

Award Amount: \$1,870,000

Announcement Date: October 2018

Project Summary: ARC grant to the Coalfield Development Corporation in Wayne, WV, for the *Appalachian Social Entrepreneurship Investment Strategy*. ARC funds will be used to

incubate job-creating social enterprises; scale-up Coalfield Development Corporation's innovate 33-6-3 on-the-job training/education/life skills workforce development model; and expand Coalfield Development Corporation's service territory to other coal-impacted areas in Southern West Virginia. The award will create 85 new jobs and equip 60 trainees to pursue quality jobs in high-demand industries in the Appalachian Region, and will be supported by funding from the Claude Worthington Benedum Foundation.

Project Title: *Hardwood Cluster Manufacturing Expansion Project*

Grantee: Randolph County Development Authority

Award Amount: \$1,822,500

Announcement Date: October 2016

Project Summary: \$1,822,500 total (a \$1,200,000 EDA grant and a \$622,500 ARC grant) to the Randolph County Development Authority in Elkins, WV, for the *Hardwood Cluster Manufacturing Expansion Project*. POWER funds will be utilized to expand a major cabinet manufacturer's operation by enabling the doubling of its current production rate due to a new national contract—thereby creating 45 new jobs and adding \$2,500,000 in annual wages to the regional economy. In addition, the award will strengthen the Hardwood Alliance Zone—a nine-county region in Central West Virginia containing a cluster of hardwood businesses.

Project Title: *West Virginia Forest Products Cooperative*

Grantee: West Virginia Forest Products Cooperative, Inc.

Award Amount: \$1,800,000

Announcement Date: October 2018

Project Summary: ARC grant to the West Virginia Forest Products Cooperative, Inc. (WVFPC) in Princeton, WV, to foster a more competitive forest products-based industry in an interstate region centered at Princeton, West Virginia. WVFPC plans to develop a skilled, competitive workforce capable of utilizing advanced manufacturing equipment and processes for the manufacture of secondary forest products. Training will be provided through a partnership with the Robert C. Byrd Center for Advanced Manufacturing at Marshall University. The Cooperative will also encourage business development and entrepreneurial activities from the pool of trained members. These two initiatives will lead to the formation of a forest products hub that will allow businesses to be independent designers and manufacturers but at the same time capture the efficiencies of scale that are usually only afforded to larger companies. The resulting numbers at the project's completion are expected to include 50 new businesses created, 250 new jobs created, ten existing jobs retained, and \$4 million in leveraged private investment, 50 businesses improved, 1,000 workers improved, and 40 students improved. The U.S. Forest Service will provide manufacturing space for WVFPC.

Project Title: *Sprouting Farms*

Grantee: Marshall University Research Corporation

Award Amount: \$1,502,938

Announcement Date: October 2018

Project Summary: ARC grant to Marshall University Research Corporation in Huntington, WV, for the *Sprouting Farms* project. The project will facilitate the development of a vibrant agricultural industry in a nine-county area in southern West Virginia by educating new farmers, launching farm businesses, and jumpstarting wholesale market channels, all while encouraging business and farm sustainability. ARC funds will be used to implement workforce and farm business accelerator training programs; secure and upgrade the project site and facilities; and provide direct business support and employment to new agricultural businesses and program graduates. The project will create 20 new businesses and 33 new jobs, and leverage \$961,475 in additional investment. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *Center of Excellence in Manufacturing Engineering (CEME)*

Grantee: Bluefield State College (BSC)

Award Amount: \$1,500,000

Announcement Date: June 2017

Project Summary: ARC grant to Bluefield State College (BSC) in Bluefield, WV, for equipment and program support for the *Center of Excellence in Manufacturing Engineering (CEME)*. The leading-edge training and lab equipment will prepare existing workers and new students, including displaced coal industry workers, to meet the demands of new manufacturing technology and processes. In response to changing industry needs and emerging markets, BSC recently updated its degree and workforce training programs to offer the new Manufacturing Engineering Technology program of study. This project will build the capacity and equip that program so that it may train new students, displaced coal miners, and other workers impacted by the decline of the coal industry. The center will provide consultation, assessments, and other technical assistance to mining equipment and service companies to help them innovate, develop new product lines, and streamline existing services. The center will focus on collaborative robotics and offer services and training related to 3D printing, design for manufacturability, and adaptive manufacturing methods. These activities collectively will create a strong manufacturing sector in an area that has been heavily dependent on coal. The center will serve 15 businesses and 210 students and lead to the creation of approximately 100 jobs.

Project Title: *Appalachian Hatchery*

Grantee: Marshall University Research Corporation

Award Amount: \$1,500,000

Announcement Date: October 2018

Project Summary: ARC grant to the Marshall University Research Corporation in Huntington, WV, for the *Appalachian Hatchery* project. The program, operated through the Robert C. Byrd Institute, will assist specific businesses affected by the decline in coal production return to profitability through the adoption and deployment of emerging advanced manufacturing technologies—primarily 3D printing and additive manufacturing. In addition, the program will provide other business assistance services, including shared equipment options, modern workforce development strategies, and the establishment of better linkages between large and small manufacturers. The program will serve a 20-county region—including 13 Distressed or At-Risk counties—in southern West Virginia, will create or retain 375 jobs, and will leverage \$750,000 in private investment. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *Growing Capacity: Integrating Agri-Development Centers in Central Appalachia*

Grantee: Sprouting Farms Corporation

Award Amount: \$1,499,993

Announcement Date: October 2019

Project Summary: ARC grant to Sprouting Farms Corporation in Talcott, WV for the *Growing Capacity: Integrating Agri-Development Centers in Central Appalachia* project. Sprouting Farms, in collaboration with nine key partners, will build upon existing food system work in Central Appalachia by creating a network of Agri-Development Centers in West Virginia and Southwest Virginia. These Centers will support the scaling of agricultural production to meet the needs of additional wholesale markets as well as build a workforce development network that creates a pipeline of skilled, reliable workers. Project activities will support the expansion of a wholesale production incubator program for beginning farmers; the integration of existing post-production and culinary workforce training programs for youth and adults who are unemployed, in recovery, or previously incarcerated; and the development of replicable

food enterprise and workforce development programs for partners across Central Appalachia. Sprouting Farms projects that this project will serve 152 business, create 125 new jobs, and leverage \$1.4 million in private investment across 16 counties in central Appalachia. Other federal funding is being provided by the USDA Local Food Promotion Program, a Rural Business Development grant, and the Abandoned Mine Lands pilot program. Additional support for the work in West Virginia is being provided by the Claude Worthington Benedum Foundation.

Project Title: *Creating Communities of Healings by Cultivating Businesses to Address the Opioid Crisis*

Grantee: Region 4 Planning and Development Council

Award Amount: \$1,499,894

Announcement Date: October 2020

Project Summary: ARC grant of \$1,499,894 to the Region 4 Planning and Development Council in Summersville, WV for *Creating Communities of Healings by Cultivating Businesses to Address the Opioid Crisis*. The Region 4 Planning and Development Council—in partnership with Seed Sower, Inc., Fruits of Labor, Wright Venture Services, the WV Hive, and Workforce WV Region 1—will create a program that strengthens the recovery-to-work ecosystem in southern West Virginia through the growth of social entrepreneurship in the food sector. This work will encourage businesses to meet the needs of communities coping with the opioid crisis by creating a “social impact hub” that offers cohort-based training for food-based businesses and entrepreneurs seeking to invest in the social mission of recovery. The cultivation of businesses and entrepreneurs to address the opioid crisis in Appalachia is a key component in improving the response to substance use disorder. The project takes advantage of entrepreneurship resources supported by a prior POWER grant to the WV Hive. As a result of the project, 75 businesses, 30 workers/trainees, and 150 participants will be served; 30 businesses, 20 workers/trainees, and 100 participants will be improved; nine jobs will be created; and \$500,000 in private investment will be leveraged.

Project Title: *Sustainable Jobs Initiative*

Grantee: Canaan Valley Institute

Award Amount: \$1,499,400

Announcement Date: June 2017

Project Summary: ARC grant to the Canaan Valley Institute in Davis, WV, for the *Sustainable Jobs Initiative*. The project will create an economic diversification and entrepreneur training program to grow the apiculture (honey and bee products) and native plant industries across 14 coal-impacted counties in southern West Virginia, with a focus on using reclaimed mine land. Activities include training for displaced and underemployed workers and veterans to gain the business and technical skills necessary to become successful entrepreneurs in these sectors. A Beekeeping Collective will enable residents of Central Appalachia to take advantage of the robust, growing market for honey and other bee products, while a Native Plant Horticulture Program will train workers to collect, grow, and market high-demand local varieties of native plants, a growing niche market in the eastern United States. Key partners include Appalachian Headwaters, Green Forests Work, the West Virginia Department of Agriculture, and New River Technical and Community College. The project will serve over 2,600 workers, generate \$2.4 million of revenue over three years, and attract \$4.6 million of leveraged private investment.

Project Title: *Creating Opportunities for Recovery Employment (CORE)*

Grantee: Marshall University Research Corporation

Award Amount: \$1,499,175

Announcement Date: October 2018

Project Summary: ARC grant to the Marshall University Research Corporation in Huntington,

WV, for the Creating Opportunities for Recovery Employment (CORE) Program. The program will develop a regional system to provide treatment and recovery services, job training, and placement assistance for displaced workers suffering from the effects of the downturn in coal production and the opioid epidemic in rural, southern West Virginia. Components of this large-scale project include three hubs offering peer recovery coaches and job training and placement, six Drug Free Moms and Babies sites, three new programs offering medication assisted treatment by health care providers, and a network of private sector partnerships. Other innovative aspects of the CORE Program feature development of social enterprises to create additional sustainable employment opportunities to those in recovery and leveraging sustainable investment in health care delivery services by developing a “pay for success” or other innovative financing model. Key partners in the project include the Region 1 Workforce Development Board, the West Virginia Perinatal Partnership, and Coalfield Development Corporation. As a result of the CORE Program, of 1,500 participating individuals, 850 will gain improvements in the form of documented placement in a new job or the retention of an existing job. Of 250 participating businesses, 83 will benefit, as measured by the successful hiring of at least one CORE client. Sixteen jobs will be created for professionals working in the partner agencies. Approximately three new business social enterprises will be formed, providing employment opportunity and social returns for their communities. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *Southern Coalfields Sustainable Tourism & Entrepreneurship Program*

Grantee: Hatfield McCoy Regional Recreation Authority

Award Amount: \$1,372,275

Announcement Date: October 2016

Project Summary: ARC grant to the Hatfield McCoy Regional Recreation Authority in Man, WV, for the *Southern Coalfields Sustainable Tourism & Entrepreneurship Program*. ARC funds will develop and implement a comprehensive program to expand tourism-related employment and businesses in southern West Virginia, and will foster Hatfield McCoy Trail expansion in Kentucky and Virginia. In addition, the award provides for the deployment of a coordinated marketing effort, which will increase the region-wide economic impact of the Trails by \$13,000,000 per year. The project will create 225 jobs and 50 new businesses along the Trails, and will be supported by funding from the Claude Worthington Benedum Foundation.

Project Title: *Downtown Appalachia Redevelopment Initiative (REDI)*

Grantee: Natural Capital Investment Fund

Award Amount: \$1,370,000

Announcement Date: October 2018

Project Summary: ARC grant to the Natural Capital Investment Fund (NCIF) in Shepherdstown, WV, for the *Downtown Appalachia Redevelopment Initiative (REDI)*. The project seeks to create healthy downtown commercial districts with robust, resilient local economies in coal-impacted West Virginia towns by catalyzing downtown revitalization. Through an integrated, comprehensive set of strategies, REDI, in collaboration with the Northern West Virginia Brownfields Assistance Center, will identify, grow, and support property owners, private developers, and community development groups who will invest in and manage their properties to benefit their communities, bringing about the return of healthy real estate markets and local economies, as well as creating economic opportunities. REDI will drive sustainable economic development downtown by building local capacity among private and public sector participants, enabling catalytic commercial real estate redevelopment projects through targeted technical assistance, and providing financial packaging, structuring, and equity-like financing for projects. In addition to providing technical assistance, NCIF will launch a Downtown Appalachia Redevelopment Loan Fund as a financial resource for eligible property owners. Expected initiative outcomes include: five

communities served through the revitalization of significant buildings, five businesses improved through increased property values and/or revenues, \$8 million in leveraged private investment (LPI), 80 jobs retained, and 80 jobs created. Additional financial support for REDI is being provided by the Claude Worthington Benedum Foundation.

Project Title: *Tri-State Aviation Maintenance Technician Start-Up*

Grantee: Region II Development Council

Award Amount: \$1,360,852

Announcement Date: October 2020

Project Summary: ARC grant of \$1,360,852 to the Region II Development Council in Huntington, WV for the *Tri-State Aviation Maintenance Technician Start-Up*. The project will fill the growing need for aviation maintenance technicians to support the burgeoning aerospace industry in West Virginia, Ohio, and Kentucky, helping diversify the regional economy. Marshall University will offer a new Aviation Maintenance Technician (AMT) Program that will prepare individuals for aviation maintenance careers. Students will earn an Applied Associate of Science degree to be jointly awarded by Marshall University and Mountwest Community and Technical College. This dual degree option will be the first of its kind in Appalachia. Within three years of the project's completion, at least 105 students and 43 workers/trainees will have obtained new jobs or enhanced their current employment or still be enrolled in the program. And at least 95 businesses will have been improved by hiring these students and workers/trainees. Other major funding is being provided by the U.S. Economic Development Administration.

Project Title: *Sustainable Employment for Community Health Workers in Coal Impacted Counties*

Grantee: Marshall University Research Corporation

Award Amount: \$1,325,655

Announcement Date: January 2017

Project Summary: ARC grant to the Marshall University Research Corporation in Huntington, WV, for the *Sustainable Employment for Community Health Workers in Coal-Impacted Counties* project. The ARC award will create permanent jobs for at least 26 Community Health Workers (CHWs)—who will provide healthcare coordination services directly to high-risk patients in coal-impacted communities across 10 counties in southeastern Ohio, eastern Kentucky, and central West Virginia. CHWs will be a critical component of the local care team, supervised by a Registered Nurse and Nurse Practitioner or other clinician. Their inclusion in the regional healthcare workforce will streamline the provision of healthcare services; increase health outcomes for patients suffering from diabetes, congestive heart failure, and COPD—diseases that are disproportionately common in Appalachia; and ultimately drive down the overall cost of healthcare in the service territory. In addition to the 26 permanent jobs created, the project will serve 625 patients and leverage \$780,000 over the life of the award. Additional funding is being provided by the Sisters Health Foundation and the Claude Worthington Benedum Foundation.

Project Title: *Growing Triple Bottom Line Small Businesses in Coal Impacted Communities in Central Appalachia*

Grantee: Natural Capital Investment Fund, Inc.

Award Amount: \$1,250,000

Announcement Date: October 2018

Project Summary: ARC grant to the Natural Capital Investment Fund, Inc. in Shepherdstown, WV, for the *Growing Triple Bottom Line Small Businesses in Coal Impacted Communities in Central Appalachia* project. These funds will be used to expand coal-impacted communities' access to capital in Southern West Virginia by capitalizing a \$4,000,000 tourism-related revolving loan fund and developing a West Virginia New Markets Tax Credit Fund. The

project will create 200 new jobs and 20 new businesses, bring \$5,000,000 of leveraged private investment into the region, and will be supported by funding from the Claude Worthington Benedum Foundation.

Project Title: *Green Mining Model Business Program*

Grantee: WV Regional Technology Park Corp.

Award Amount: \$1,073,304

Announcement Date: January 2017

Project Summary: ARC grant to the West Virginia Regional Technology Park Corporation in South Charleston, WV, for the *Green Mining Model Business Program*. The project brings 17 public and private partners together to operate a system of linked activities designed to use reclaimed soils on inactive surface mining land to grow value-added crops; extract high-value products from these crops and market/sell them; and leverage land reclamation, crop cultivation, and chemical extraction and processing activities to provide displaced coal and energy industry workers across 13 West Virginia counties with training, employment, and entrepreneurial opportunities. The project will focus primarily on training these displaced workers to farm and cultivate lavender—during a demonstration of the project, it was discovered that cultivation of 2.5 acres of lavender supported the direct and indirect employment of 25 individuals. The WV National Guard and coal company partners will donate free or reduced-cost land and land preparation assistance to the project, and the West Virginia Regional Technology Park will provide access to its multi-million dollar chemical manufacturing facilities. The project will create 250 direct and indirect jobs, leverage \$459,987 private investment, and create six new businesses. Additional funding for will be provided by the Claude Worthington Benedum Foundation.

Project Title: *Fostering Advantages for Startups and Entrepreneurial Resurgence (FASTER) in West Virginia*

Grantee: Advantage Valley

Award Amount: \$1,055,001

Announcement Date: October 2019

Project Summary: ARC grant to Advantage Valley in Charleston, WV and the Wyoming County Economic Development Authority in Pineville, WV for *Fostering Advantages for Startups and Entrepreneurial Resurgence (FASTER) in West Virginia*. This program is designed to encourage economic diversification, business growth, and job creation within a seven-county region of West Virginia. FASTER will partner with local economic development authorities, educational institutions, and business incubators to foster startups and business expansion. The project consists of two components: technical assistance to entrepreneurs and businesses through Advantage Valley and its contractors (a \$930,001 grant to Advantage Valley); and recapitalizing a revolving loan fund operated by the Wyoming County Economic Development Authority (a grant of \$150,000). The loan fund will be limited to businesses referred by Advantage Valley. Together they will provide entrepreneurial training, business coaching, certifications, and a capital lending fund. FASTER anticipates the creation of at least 50 new businesses, 60 credentialed entrepreneurs, and 150 new jobs, while leveraging \$4.5 million in private investment. Additional funding is being provided by the Claude Worthington Benedum Foundation, Bridge Valley Community and Technical College, and Unlimited Future, Inc.

Project Title: *Geographic Food and Agriculture Systems Development*

Grantee: West Virginia Food & Farm Coalition, Inc.

Award Amount: \$1,020,556

Announcement Date: February 2019

Project Summary: ARC grant to the West Virginia Food & Farm Coalition in Charleston, WV, for the *Geographic Food and Agriculture Systems Development* project. The project will

provide coordination, capacity building, training, and technical assistance to enable farmers, food businesses, and community members to determine and execute agribusiness priorities. This will result in increased food production and access to previously unreachable markets, thereby creating greater economic diversity for areas that have been heavily impacted by the decline in coal production. The project will deploy seed capital, in the form of mini grants, to attract private dollars and execute larger-scale projects that strengthen the local food system. The West Virginia Food & Farm Coalition will strengthen the local food supply chain, increase market opportunities for local growers, including more than 75 food-related entrepreneurs, and attract private investment in five foodsheds that span seventeen coal-impacted counties of West Virginia. Additional funding for the project is provided by the Mary Reynolds Babcock Foundation and the Greater Kanawha Valley Foundation.

Project Title: *Powering Up the Aerospace Workforce in Coal-Impacted Communities of West Virginia*

Grantee: Pierpont Community & Technical College

Award Amount: \$1,017,308

Announcement Date: June 2017

Project Summary: ARC grant to Pierpont Community and Technical College in Fairmont, WV, for *Powering Up the Aerospace Workforce in Coal-Impacted Communities of West Virginia* project. The ARC grant will help increase the number of former coal miners who graduate from workforce training and two-year degree programs at the Robert C. Byrd National Aerospace Education Center (NAEC) in Bridgeport, WV, a joint venture of Pierpont Community and Technical College and Fairmont State University. NAEC provides the state's only FAA-certified aerospace training, degrees, and certifications. The project will maintain and build existing components of the NAEC program, including the Aircraft Structures training program, the Aviation Technician associate's degree program, and the Airframe and Powerplant certificate program. The project will also provide funding for the development of a new 12-month Avionics certificate program. The project rests on a strong partnership with private-sector aerospace companies. It is expected that 130 students will enroll in these programs, and 89 students will complete the various training programs over a two-year period.

Project Title: *Mountain State Capital: Filling the Critical Venture Capital Gap in West Virginia*

Grantee: WV Community Development Hub

Award Amount: \$1,000,000

Announcement Date: October 2018

Project Summary: ARC grant to the WV Community Development Hub (The Hub) in Charleston, WV, for the *Mountain State Capital: Filling the Critical Venture Capital Gap in West Virginia* project. The project will support the development of a new venture capital (VC) fund to support high-growth startups in Central Appalachia. The fund will be a partnership between The Hub and Mountain State Capital (MSC). It seeks to boost entrepreneurial activities and grow capital investment by supporting the creation of the first seed-stage venture capital investment fund serving West Virginia and Central Appalachia. MSC will fill a critical gap in the state's entrepreneurial ecosystem, providing coaching, technical assistance support, and VC investment funds to business startups. MSC and The Hub, as a community-driven institutional investor, will target West Virginia-based startups during the first phase of the investment cycle. All revenue generated by the initial investment will be directed to a dedicated technical assistance fund to support community development across West Virginia, with particular priority given to coal-impacted rural communities. The success of these business startups will then provide long term investment return to MSC and The Hub and enable the expansion of their technical assistance grants to support community development, entrepreneurial learning, and business development products across the state.

Project Title: *Linking Trails and Communities to Spawn Economic Growth: The Southern WV Bike Trail Network*

Grantee: Region 4 Planning and Development Council

Award Amount: \$999,963

Announcement Date: June 2017

Project Summary: ARC grant to Region 4 Planning and Development Council in Summersville, WV, for the *Linking Trails and Communities to Spawn Economic Growth: The Southern WV Bike Trail Network* project. The investment will create a regionally connected bike trail system and build on the region's strengths and potential for outdoor recreation and increased tourism. The trail system will be located in Fayette, Nicholas, and Greenbrier Counties—areas hit hard by job losses in the coal industry—and will traverse sections of the Monongahela National Forest, the New River Gorge National River, the Babcock State Park, and other key recreational areas. The project will focus on building new segments and improving existing ones that will provide the greatest economic impact by facilitating access to towns, businesses, and other tourism anchors. Major activities will include trail construction and mapping, developing a trail maintenance program, and facilitating partnerships with local business incubators and regional development organizations to support business creation. The project is expected to attract \$3 million in new revenue through increased visitors to the area.

Project Title: *New River Gorge Region - Developing an Entrepreneurial Economy (HIVE)*

Grantee: New River Gorge Regional Development Authority

Award Amount: \$967,500

Announcement Date: October 2018

Project Summary: ARC grant to the New River Gorge Regional Development Authority in Beckley, WV, for the *New River Gorge Region – Developing an Entrepreneurial Economy* project. ARC funds will be used to establish a technical assistance support program—which will assist start-up businesses with hands-on technical aspects of their operations—and to hire social enterprise and region-wide business coaches. The project will yield 15 new businesses, improve 294 existing businesses, and create 225 new small business jobs.

Project Title: *BuildJobs Initiative*

Grantee: PRIDE Community Services

Award Amount: \$899,791

Announcement Date: June 2017

Project Summary: ARC grant to PRIDE Community Services in Logan, WV, for the *BuildJobs Initiative* project. In an effort to develop a pool of construction trade professionals for the region, the BuildJobs Initiative will provide training programs with career pathways and re-employment opportunities in construction trades for displaced coal economy workers. It will also provide entrepreneurial support for participants who wish to create new businesses in the construction sector. PRIDE will implement the project in partnership with EnAct Community Action, MountainHeart Community Services, Southern Community Action Council, Coalfield Community Action Partnership, and Southern West Virginia Technical College. The BuildJobs Initiative will focus on five ARC counties in southern West Virginia that have been adversely affected by the decline in the coal industry sector: Boone, Lincoln, Logan, Mingo, and Wyoming. Within three years of the start of the project, 84 displaced workers will be retrained and find employment, and 15 new businesses will be created.

Project Title: *Growing Social Enterprises and Healthy Communities*

Grantee: West Virginia Healthy Kids and Family Coalition

Award Amount: \$856,050

Announcement Date: January 2017

Project Summary: ARC grant to the West Virginia Healthy Kids and Family Coalition (HKFC) in Charleston, WV, for the *Growing Social Enterprise and Healthy Communities* project. HKFC will expand the successful Try This WV economic and community development program to 15 local communities in the service territory— which will enable them to phase-in second stage development activities designed to improve community vitality and health. Simultaneously, Strong Mountain Communities, a southern West Virginia economic development organization, will build a pre-market social enterprise development program and create an Investors' Circle; combined, these two activities will deliver technical assistance directly to social entrepreneurs, and will raise capital to invest in the creation and expansion of local social enterprises. The project will serve 23 counties in southern West Virginia, create 100 jobs, leverage \$1,200,000 in private and community financing, and will provide for 200 entrepreneurs and community leaders to receive in-depth technical assistance.

Project Title: *Agribusiness Development in the Upper Ohio Valley*

Grantee: Grow Ohio Valley Inc.

Award Amount: \$796,924

Announcement Date: February 2019

Project Summary: ARC grant to Grow Ohio Valley (GOV) in Wheeling, WV, for the *Agribusiness Development in the Upper Ohio Valley* project. Serving agricultural producers and businesses in a three-state region (West Virginia, Ohio, and Pennsylvania), Grow Ohio Valley will help diversify and strengthen the regional economy in an area that has been heavily dependent on coal. It will launch a year-round consignment market in an unused downtown space of Wheeling, West Virginia, and will develop a branded product line featuring local ingredients to be sold at the market. The project will bridge gaps in the supply chain by producing in-demand goods not currently grown by local farmers. Additional market opportunities for farmers will be developed through the expansion of GOV's FARMacy initiative, which partners with healthcare providers to offer prescriptions of fresh produce to patients suffering from chronic diseases and substance abuse issues. The project will also roll out a STEM-focused curriculum in Ohio County, West Virginia, schools that equips high school students to pursue indoor agricultural careers. The project will improve 100 businesses, create 66 jobs, launch three businesses, and leverage more than \$460,000 in private investment. Additional funding is provided by the Claude Worthington Benedum Foundation.

Project Title: *Polymer Technology Center of Huntington (P-TeCH) Project*

Grantee: Huntington Municipal Development Authority

Award Amount: \$750,000

Announcement Date: March 2017

Project Summary: ARC grant to the Huntington Municipal Development Authority in Huntington, WV, for the Polymer Technology Center of Huntington ("P-TeCH"). Part of a larger plan for creating jobs and businesses in the regional polymer industry, the project will convert a 27-acre abandoned brownfield in downtown Huntington (a former coal barge rail docking facility) into a multi-purpose resource for West Virginia's growing polymer manufacturing sector. A Product Development Center will assist manufacturing and technology firms with product development and design, testing, validation, and other commercialization services. A Light Manufacturing Center will provide business incubation and scale-up manufacturing space for polymer industry start-ups. P-TeCH will also be a job skills and workforce development center for a pipeline of interns, manufacturing workers, and entrepreneurs in the region. The project will partner with a leading private-sector polymer manufacturing company, leverage \$2 million in private investment, and improve the competitiveness of 24 businesses.

Project Title: *Workforce Construction, teleCommunications, & Energy (CCE) Training Center*

Grantee: BridgeValley Community and Technical College

Award Amount: \$749,001

Announcement Date: October 2018

Project Summary: ARC grant to BridgeValley Community and Technical College in South Charleston, WV, to develop a Construction, teleCommunications, and Energy (CCE) Workforce Training Center based in Montgomery, West Virginia. This center will provide workforce training in content areas identified by industry partners that provide the job skills needed to obtain an entry-level position in the industry. The center will also have HVAC and energy management coursework that will prepare students with the skills needed to obtain employment in the HVAC industry and electrical metering departments of utility companies. After completing eight weeks of training, students will be eligible for on-the-job training experiences at partnering companies. Expected project outcomes include ten businesses improved through access to skilled workforce and 202 workers/trainees improved through employment.

Project Title: *Simulated Workplace Entrepreneurship Education Pathway (SWEET)*

Grantee: EdVenture Group Inc.

Award Amount: \$717,166

Announcement Date: October 2019

Project Summary: ARC grant to the EdVenture Group Inc. in Morgantown, WV for the *Simulated Workplace Entrepreneurship Education Pathway (SWEET)* program. SWEET seeks to build entrepreneurial mindsets and support business venture development within West Virginia's Career and Technical Education (CTE) students. It capitalizes on the state's innovative Simulated Workplace initiative, which transforms CTE environments into industry-recognized, functioning workplaces in which students drive their own learning. By providing students with in-depth entrepreneurial training in a simulated workplace environment, SWEET will equip students with the skills needed to find success within their own communities in six economically distressed counties (Calhoun, Fayette, Gilmer, Lincoln, Mingo, and Wyoming). Key partners include the West Virginia Department of Education, Marshall University, Intuit Education, and Standwatch Academy. The project will expose 1000 students and 75 instructors to entrepreneurship education through project-based learning, and 50 business plans will be developed.

Project Title: *Broadband Infrastructure to Augment Education and Industry Cluster Development at the West Virginia Regional Technology Park*

Grantee: West Virginia Regional Technology Park Corp.

Award Amount: \$650,000

Announcement Date: October 2019

Project Summary: ARC grant to the West Virginia Regional Technology Park Corp. in South Charleston, WV for the *Broadband Infrastructure to Augment Education and Industry Cluster Development at the West Virginia Regional Technology Park* project. The project will construct a fiber ring around 12 buildings in the West Virginia Regional Technology Park. Currently only half of the buildings at the park have broadband access. The project will equip all of the park's buildings for broadband service speeds up to 100 Gbps and will complete a redundant fiber ring. It will add a 288 fiber-count ring around the park and 24 fiber-count drops into each building. This will cover diverse access from selected buildings to the park's network and from the park's network to the provider's broadband network, providing support for all voice, data networking, and internet access services. This expanded broadband access is expected to serve 30 businesses. It will facilitate an expansion by an existing company in the park, adding 150 new jobs.

Project Title: *Appalachian Beekeeping Collective Diversification and Expansion*

Grantee: Appalachian Headwaters

Award Amount: \$622,280

Announcement Date: October 2019

Project Summary: ARC grant to Appalachian Headwaters in Lewisburg, WV for the *Appalachian Beekeeping Collective Diversification and Expansion* project. Appalachian Headwaters will build on a previous POWER grant by expanding its economic diversification and entrepreneur training program focused on the apiculture (honey and bee products) industry to 17 counties in southern West Virginia and five counties in Appalachian Virginia. The project will provide employment opportunities, training, and business support services to take advantage of significant market opportunities in beekeeping and honey production. The project will serve over 1,000 new and existing beekeeping entrepreneurs, and is expected to create an estimated 150 jobs, retain 145 existing jobs, and create 65 new businesses. It will leverage \$635,580 in private investment, and non-export sales revenues are expected to increase by \$1.4 million after three years. The project will establish a new processing and training hub in southwestern Virginia and develop a training and marketing program for new bee products and services.

Project Title: *Reintegrate Appalachia: Job Creation and Workforce Development for West Virginians Impacted by Substance Use Disorders*

Grantee: Morgantown Sober Living Inc.

Award Amount: \$485,284

Announcement Date: February 2019

Project Summary: ARC grant to Morgantown Sober Living Inc. in Morgantown, WV, for the *Reintegrate Appalachia: Job Creation and Workforce Development for West Virginians Impacted by Substance Use Disorders* project. *Reintegrate Appalachia* is a unique job creation and workforce development project specifically designed for those recovering from substance use disorder (SUD). Morgantown Sober Living, with its addiction treatment expertise and recovery monitoring approach, will enhance Coalfield Development Corporation's successful workforce development model by adding a robust addiction recovery monitoring program to create the 33-6-3-PLUS program. The 33-6-3-PLUS program consists of 33 hours of full-time employment per week, 6 hours per week of higher education in a community or technical college setting, 3 hours per week of a professional development curriculum and mentorship, and an addiction recovery monitoring program (the PLUS). *Reintegrate Appalachia* re-engages each participant in the community through meaningful employment and the opportunity to continue their education and grow their professional skills, while providing the clinical and peer-to-peer support needed to maintain sobriety. The project will establish centers in Braxton, McDowell, Wayne, and Monongalia counties. At least 40 adults will obtain full-time employment and 24 will still be enrolled in the program and working towards that goal at the end of the project period.

Project Title: *Strengthening Substance Abuse Recovery Ecosystems to Provide a Healthy and Ready Workforce*

Grantee: Southern Highlands Community Mental Health Center (SHCMHC)

Award Amount: \$480,000

Announcement Date: October 2020

Project Summary: ARC grant of \$480,000 to Southern Highlands Community Mental Health Center (SHCMHC) in Princeton, West Virginia, for the *Strengthening Substance Abuse Recovery Ecosystems to Provide a Healthy and Ready Workforce* project. This project will implement a peer navigator/recovery coach (PN/RC) model that provides outreach and linkage to integrated care for substance use disorder (SUD), mental health, and drug-use-related chronic infections. SHCMHC, which serves McDowell, Wyoming, and Mercer counties, will employ PN/RCS to reach persons with SUD through existing programs that respond to

overdoses, provide syringe services, and via self-referral. This model will build a strong local recovery ecosystem by linking existing medical treatment with job training and assistance for entering the workforce. Through the project, 150 individuals with SUD will complete treatment, and 60 former individuals with substance use disorder will be gainfully employed.

Project Title: *Manufacturing Value Stream for Shale*

Grantee: West Virginia University Research Corporation

Award Amount: \$400,000

Announcement Date: January 2017

Project Summary: ARC grant to the West Virginia University Research Corporation in Morgantown, WV, for the *Manufacturing Value Stream for Shale* project. The project will transition companies and suppliers affected by the downturn in the coal economy toward the emerging shale-manufacturing sector by providing direct economic diversification and investment assistance. The applicant—partnering with the Manufacturing Extension Partnership (MEP) Centers in West Virginia, Pennsylvania, and Ohio—will identify specific companies in the tri-state service area with shale-manufacturing assets and opportunities; assess participating companies' prospective entry points into the shale-manufacturing value stream; and deliver direct guidance to SMEs on value chain opportunities. The award will create 400 new jobs and 12 new businesses. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *WV Rural Health Infrastructure Loan Fund*

Grantee: Center for Rural Health Development, Inc.

Award Amount: \$362,989

Announcement Date: October 2016

Project Summary: ARC grant to the Center for Rural Health Development, Inc., in Hurricane, WV, for the *WV Rural Health Infrastructure Loan Fund* project. ARC funds will assist in capitalizing a revolving loan fund designed to strengthen the health care industry in a 25-county region in central West Virginia. In addition, the award will provide technical and business development assistance to existing health care providers with business-related needs. The project will create or retain 65 jobs, yield \$1,000,000 of financing for health care businesses, and provide 216 organizations with technical assistance.

Project Title: *Financing Entrepreneurship in Randolph, Barbour and Tucker Counties*

Grantee: Woodlands Community Lenders (WCL)

Award Amount: \$300,000

Announcement Date: January 2017

Project Summary: ARC grant to Woodlands Community Lenders (WCL) in Elkins, WV, for the *Financing Entrepreneurship in Randolph, Barbour, and Tucker Counties* project. The ARC award will expand WCL's proven, comprehensive set of services to the tri-county area of Randolph, Barbour, and Tucker Counties in northeast West Virginia. Specifically, the project will deliver program participants services focused around small business development, real estate and downtown redevelopment, innovative financing of entrepreneurs, and finance packaging. WCL will work closely with local small business development center business coaches, and with Main Street/OnTRAC staff to provide technical assistance to borrowers. The project will create 100 jobs and 25 businesses, and will leverage \$1,100,000 in additional private investment.

Project Title: *Hobet Strategic Plan*

Grantee: West Virginia Development Office

Award Amount: \$200,000

Announcement Date: January 2017

Project Summary: ARC grant to the West Virginia Development Office for the *Hobet Strategic Plan*. West Virginia will receive technical assistance to develop a detailed economic assessment and strategic plan for the best use of the Hobet Surface Mine Site in Boone and Lincoln Counties, previously the largest surface mining operation in the state.

Project Title: *Reconnecting McDowell*

Grantee: Reconnecting McDowell, Inc.

Award Amount: \$150,000

Announcement Date: September 2016

Project Summary: ARC grant to Reconnecting McDowell, Inc., in Charleston, WV, to develop an economic development and diversification strategy for the City of Welch and McDowell County centered on the Renaissance Village Apartments, a housing project that will develop rental housing in downtown Welch for teachers and young professionals employed in the area. Renaissance Village will serve as an anchor for redevelopment efforts in the downtown area and provide affordable housing. The planning project will assist with an entrepreneurship and small business initiative, along with financial and operations modeling for Renaissance Village.

Project Title: *Linking Trails and Communities to Spawn Economic Growth and Wellness: The Southern West Virginia Bike Trail Network*

Grantee: West Virginia Connecting Communities Inc

Award Amount: \$140,000

Announcement Date: September 2016

Project Summary: ARC grant to the West Virginia Connecting Communities Inc. in Charleston, WV, in partnership with the New River Gorge Trail Association for the development of an economic feasibility study for a regionally-connected bike trail system in Fayette and Nicholas Counties. The focus of the study will be the viability of linking over 500 miles of bike trails and the impact to small communities throughout the region.

Project Title: *UKV Revitalization Plan*

Grantee: Region 4 Planning and Development Council

Award Amount: \$123,488

Announcement Date: October 2016

Project Summary: ARC grant to the Region 4 Planning and Development Council in Summersville, WV, to develop a strategic plan for the Upper Kanawha Valley. In partnership with the Center for Rural Entrepreneurship, the plan will include prioritizing economic strategies, building regional collaboration across counties, and assisting communities to create greater economic diversification that fosters sustainability.

Project Title: *Healthy Workforce Initiative: Workforce Empowerment and Opioid Recovery Center*

Grantee: Williamson Health and Wellness Center

Award Amount: \$105,000

Announcement Date: October 2016

Project Summary: ARC grant to Williamson Health and Wellness Center in Williamson, WV, to provide grant writing assistance, and develop a feasibility study, a strategic plan, and preliminary architectural design work for a vacant building in Williamson's downtown, a former "pill mill." If deemed viable, the building will be rebuilt as a one-stop facility that would

provide workforce training, opioid addiction and substance abuse treatment services to assist individuals in recovery to become employment ready. The service area will include counties in both Kentucky and West Virginia.

Project Title: *Entrepreneur Coalfield Alternative Opportunity (ECAO)*

Grantee: Southern Appalachian Labor School

Award Amount: \$101,981

Announcement Date: September 2017

Project Summary: ARC grant to the Southern Appalachian Labor School in Kincaid, WV, for technical assistance to develop a strategic planning and feasibility study for the establishment of the Entrepreneur Coalfield Alternative Opportunity (ECAO) project. ECAO will be a social enterprise that will train and employ individuals to deconstruct old coal camp houses and replace them with modular units. The feasibility study will focus on establishing market demand for the start-up, documenting the financial ability to maintain positive cash flow, and building a management operational plan and staffing plan. The ultimate goal is a business enterprise that can provide workforce training and improve the local housing stock in Central Appalachia.

Project Title: *State of West Virginia Broadband Development Hub*

Grantee: West Virginia Geological & Economic Survey

Award Amount: \$100,000

Announcement Date: September 2018

Project Summary: ARC grant to West Virginia Geological & Economic Survey in Charleston, WV, for the State of West Virginia Broadband Development Hub. The grant will fund an online hub hosting information concerning prospective broadband deployment in West Virginia. Initially ten counties and their municipalities will have access to a broadband development hub that will host content related to broadband deployment, including information on access, public rights-of-way, a database of currently available assets, and draft contracts for dealing with service providers. Multiple agencies throughout the state will contribute to the platform. The data collected throughout this process will then be used to create a *Guide to Broadband Development in West Virginia* and a supplemental legal toolkit. Once the initial ten counties' broadband deployment needs have been addressed, access to the broadband development hub will be extended to the rest of West Virginia. In addition to the POWER grant, an additional \$50,000 for the hub is being provided through special ARC funding for broadband work in distressed West Virginia counties.

Project Title: *Appalachian Heartland Highway Initiative*

Grantee: Region II Development Council, Inc.

Award Amount: \$100,000

Announcement Date: September 2017

Project Summary: ARC grant to Region II Development Council, Inc. in Huntington, WV, for a strategic plan that will analyze the feasibility and economic impact of potential heritage tourism projects along West Virginia State Route 152, also known as the Appalachian Heartland Highway. The proposed study will be a coordinated and comprehensive regional planning effort to create a tourism cluster that increases the chances of successfully restructuring the regional economy away from a reliance on the coal industry. A top priority will be to study the construction of an Appalachian Heartland Visitors Center at the interchange of Route 152 and I-64.

Project Title: *Creating a More Vibrant Economy for Coal-Impacted Counties in West Virginia*

Grantee: Center for Rural Health Development

Award Amount: \$100,000

Announcement Date: February 2019

Project Summary: ARC grant to the Center for Rural Health Development in Hurricane, WV, for the *Creating a More Vibrant Economy for Coal-Impacted Counties in West Virginia* project. The project will provide technical assistance for the development of a Community Health Improvement Plan in each of five targeted distressed West Virginia counties (Calhoun, Logan, McDowell, Roane, and Webster). Each plan will be developed by a cross-sector partnership involving government agencies, private businesses, education, economic development organizations, health care organizations, and residents in each county. The project will build capacity through a model of change that was developed by the Centers for Disease Control and Prevention (CDC) and the National Association of County and City Health Officials (NACCHO). The project aims to create a culture of health which will help prevent future opioid use and help stymie expansion of the current opioid crisis. Financial partners include the Claude Worthington Benedum Foundation, the Logan Healthcare Foundation, and the Sisters of Health Foundation.

Project Title: *Economic Diversification Mentoring for Innovation Acceleration Strategy Communities*

Grantee: West Virginia Community Development Hub

Award Amount: \$93,495

Announcement Date: September 2016

Project Summary: ARC grant to the West Virginia Community Development Hub in Fairmont, WV, which, in partnership with the International Economic Development Council, will provide technical assistance to five coal-impacted counties (Boone, Greenbrier, Lincoln, McDowell, and Wyoming) through economic development mentoring for local community teams. As a result of this investment, community teams will develop local economic diversification strategies.

Project Title: *Hardwood Industry Cluster Strategic Plan*

Grantee: Randolph County Development Authority

Award Amount: \$90,000

Announcement Date: October 2016

Project Summary: ARC grant to Randolph County Development Authority in Elkins, WV, to develop a strategic plan focused on the promotion and expansion of the hardwood industry cluster. In partnership with the Hardwood Alliance Zone, the strategic plan will assist in strengthening the economy of the nine-county region. The project will build on the recent U.S. Economic Development Administration and ARC POWER grants that are enabling a local wood products manufacturer to expand its operations.

Project Title: *Benefit U: An Entrepreneur's Guide to Financial, Health Insurance & Retirement Solutions*

Grantee: Women's Institute for a Secure Retirement

Award Amount: \$80,691

Announcement Date: February 2019

Project Summary: ARC grant to the Women's Institute for a Secure Retirement (WISER) in Washington, D.C., for *Benefit U: An Entrepreneur's Guide to Financial, Health Insurance, and Retirement Solutions*. Targeting five distressed counties in West Virginia (Boone, Logan, McDowell, Mingo, and Wyoming), WISER will develop Benefit U to serve as a virtual human relations department for entrepreneurs, self-employed workers, independent contractors, and other workers without access to benefits resources. Benefit U will include paycheck

guidance, income tax assistance programs, health insurance navigators, emergency and long-term savings advice, and financial education and retirement planning tools.

Project Title: Craft Beer and Spirit Trail

Grantee: Marshall University Research Corporation

Award Amount: \$79,270

Announcement Date: February 2019

Project Summary: ARC grant to the Marshall University Research Corporation, in Huntington, WV for the *Craft Beer and Spirit Trail* project. The project will conduct an economic impact study of the emerging craft beer and spirits industry in central and western West Virginia counties (Cabell, Kanawha, Putnam, and Roane). The study will identify emerging strengths, existing leakages, and new business and employment opportunities to guide local economic development leaders. Project activities will include asset mapping, leakage monitoring, and guidance to establish a road map for building local efforts into a cohesive regional program for the craft beer and spirits trail. Key partners include the WV Department of Tourism, Putnam County Economic Development Authority, Huntington Area Development Corporation, Huntington Regional Chamber of Commerce, and the Charleston Area Alliance.

Project Title: *Health Innovation and Food Hub*

Grantee: Williamson Health and Wellness Center

Award Amount: \$75,000

Announcement Date: September 2015

Project Summary: ARC grant to the Williamson Health and Wellness Center in Williamson, WV, for the *Health Innovation and Food Hub*. The U.S. Economic Development Administration (EDA) is also awarding \$600,000 to the Coalfield Development Corporation as part of this project. The ARC award will support consulting fees and startup equipment necessary to launch the Health Innovation and Food Hub, which will play a key role in facilitating regional collaborative networks, providing technical assistance and training opportunities, facilitating access to capital, and linking the local food systems infrastructure to supply markets.

Project Title: Tug Fork River Water Trail Access Plan

Grantee: National Coal Heritage Area Authority

Award Amount: \$64,000

Announcement Date: September 2018

Project Summary: ARC grant to the National Coal Heritage Area Authority in Oak Hill, WV, to study natural and cultural heritage assets of the Tug Fork River and the communities along its banks. The 159-mile river runs through three states—Kentucky, West Virginia, and Virginia—and much of the region has been heavily impacted by the decline of the coal industry. This study would lay the foundation for the development of an outdoor recreation tourism sector by establishing the Tug Fork River as a recreational water trail. GIS technology will be utilized to identify and mark potential river access points, mile markers, and potential hazards. Local communities will be assisted in applying for Kentucky Blueway and West Virginia Water Trail designations. The resulting plan will complement existing county and regional efforts and elevate awareness of the region's natural and cultural assets.

Project Title: *Central WV ATV Trail System Feasibility Study*

Grantee: Webster County Economic Development Hub

Award Amount: \$60,000

Announcement Date: September 2016

Project Summary: ARC grant to Webster County Economic Development Authority in Webster Springs, WV, to conduct a feasibility study for the development of a multi-county

All-Terrain Vehicle trail system in five counties. This grant will assist in developing a major tourism asset for the region and create opportunities for local small businesses. The project will work in partnership with the Hatfield McCoy Trail Authority.

Project Title: *Linking Trails and Communities to Spawn Economic Growth and Wellness: Expanding the Southern West Virginia Bike Trail Network*

Grantee: New River Gorge Trail Alliance

Award Amount: \$59,500

Announcement Date: February 2019

Project Summary: ARC grant to the New River Gorge Trail Alliance (NRGTA) in Fayetteville, WV, for the *Linking Trails and Communities to Spawn Economic Growth and Wellness: Expanding the Southern West Virginia Bike Trail Network* project. The project will guide the expansion of the current regional trail network to add five counties: Kanawha, Monroe, Raleigh, Summers, and Webster. Key partners include the Rails to Trails Conservancy, WV Division of Highways, Region 4 Planning and Development Council, and the National Park Service. The project will support community engagement for trail towns, trail vision mapping, capacity building for local trail organizations, and trail mapping, which includes rail corridor and road inventory, rail and trail assessment, and trail feasibility efforts. The trail planning documents will serve as a comprehensive roadmap for communities to transform an unused railroad corridor or other areas into a dynamic multi-use trail and will produce trail town toolkits to benefit all eight counties along the trail.

Project Title: *Creating a Sustainable Volunteer Trail Maintenance Program: A Key Requirement for Achieving Economic Development through Recreational Tourism*

Grantee: Appalachian Forest Heritage Area, Inc.

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to Appalachian Forest Heritage Area, Inc., in Elkins, WV for *Creating a Sustainable Volunteer Trail Maintenance Program: A Key Requirement for Achieving Economic Development through Recreational Tourism*. The project will develop a business plan for a volunteer trail maintenance center and program. Elements of the business plan will include community leadership initiatives, local partnerships, relationships with businesses that benefit from recreational tourism, growing a funding base, delivering trail maintenance training, a volunteer management system, and a communications/marketing plan for the program and center. These elements will provide tourist trail maintenance at low cost while connecting each community to its surrounding natural assets, thereby strengthening the area's recreation-based businesses. Matching funds are provided by the Claude Worthington Benedum Foundation.

Project Title: *Wheeling Heritage Gateway Initiative*

Grantee: Wheeling National Heritage Area Corporation (WNHAC)

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to Wheeling National Heritage Area Corporation (WNHAC) in Wheeling, WV, for the *Wheeling Heritage Gateway Initiative*. The project will conduct a feasibility study, including the creation of an economic and technical feasibility strategy, to transform four key sites along Wheeling's Main Street into a unified "heritage gateway" for the downtown core. The centerpiece of the heritage gateway will be a new Wheeling Heritage Center that includes a multiuse visitors center, heritage museum, and events venue. The "heritage gateway" will reinvigorate the downtown, support regional job creation, and attract new visitors and businesses.

Project Title: *Aero-Ready in Southern WV*

Grantee: New River Gorge Regional Development Authority

Award Amount: \$50,000

Announcement Date: October 2020

Project Summary: ARC grant of \$50,000 to the New River Gorge Regional Development Authority in Beckley, WV, for *Aero-Ready in Southern WV*. This project will craft a strategic plan, including cost analysis, to create and implement a workforce training and education curriculum to support the aerospace industry in southern West Virginia. It will identify gaps in the existing aerospace programming currently serving West Virginia, work with the Federal Aviation Administration, and present an implementation plan for a workforce training and degree curriculum between New River Community and Technical College and WVU Tech.

Project Title: *Mountaineer Trail Network: Preston County Pilot Trail Plan*

Grantee: Friends of the Cheat, Inc.

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to Friends of the Cheat, Inc. in Kingwood, WV for the development of the *Mountaineer Trail Network: Preston County Pilot Trail Plan*. This project will produce the first comprehensive trail plan within the newly formed Mountaineer Trail Network, a 10-county bike trail system in north-central West Virginia. Centered on Preston County, the trail plan will map all existing trail resources, highlight existing connection gaps, and identify trail routes that would link existing amenities to other key trails and recreation hubs. The project will also conduct a market assessment and a workforce development assessment, linking the trail to broader economic development efforts. As the first trail plan within the Mountaineer Trail Network, the plan will serve as a model to be replicated in the network's other nine counties. Additional funding is coming from the federal Abandoned Mine Lands pilot program.

Project Title: *Bio Based Manufacturing*

Grantee: Wayne County Economic Development Authority

Award Amount: \$50,000

Announcement Date: October 2019

Project Summary: ARC grant to the Wayne County Economic Development Authority in Wayne, WV for the *Bio Based Manufacturing* strategic plan. The strategic plan will assess new market and employment opportunities in bio-based manufacturing, and will lead to business formation and job creation in recycling, trucking, logistics, and manufacturing across parts of Ohio, West Virginia, and Kentucky. The project will develop market-ready business plans around bio-manufacturing opportunities in local markets, including upcycling of landfill-destined materials and developing the logistical networks for connecting those opportunities. It will provide the blueprint for further collaboration with Coalfield Development Corporation to create new jobs, rescue and repurpose thousands of tons of materials from landfills, and promote sustainable investment in local economies and infrastructures. Additional funding comes from the West Virginia Specialty Crop program and the Cliff Bar Foundation.

Project Title: *Beefing Up the Local Food Economy*

Grantee: Unlimited Future, Inc.

Award Amount: \$36,700

Announcement Date: January 2017

Project Summary: ARC grant to Unlimited Future, Inc. in Huntington, WV, for capacity building and development of a feasibility study for expansion of local food systems. The *Beefing Up the Local Food Economy* project will support the planning process for a value-

added meat processing facility in a local, vacant plant. The project will also look at workforce training programs serving the meat business and at expanding market opportunities for producers across the region, which includes Kentucky, Ohio, and West Virginia. Local sources will contribute an additional \$20,000 to the project.

Project Title: *KVC Health Systems College*

Grantee: KVC Health Systems, Inc.

Award Amount: \$20,800

Announcement Date: May 2017

Project Summary: ARC technical assistance grant to KVC Health Systems, Inc., in Charleston, WV, for the *KVC Health Systems College* project. The technical assistance will help KVC Health Systems develop a feasibility study for the KVC College concept, which envisions repurposing the former campus of the West Virginia University Institute of Technology in Fayette County into a specialized, accredited college with a focus on young adults emerging from foster care. The feasibility study will evaluate the site for redevelopment and determine the appropriate workforce and life skills programming that will benefit the region. The downturn in the regional coal economy and the closure of the WVU Tech branch campus provide an opportunity to recruit and create a skilled workforce and make non-residential educational programming available. Once the feasibility study and workforce plans are completed, KVC Health Systems will explore various funding opportunities to implement the full concept.

Project Title: *Grant-Writing Assistance for CODE: Creating Opportunities, Diversifying Economy Projects Proposal*

Grantee: The EdVenture Group

Award Amount: \$10,000

Announcement Date: June 2016

Project Summary: ARC grant to The EdVenture Group in Morgantown, WV, for the Creating Opportunities, Diversifying Economy for displaced coal miners (CODE) project to develop a sustainable plan for economic diversification. The project being developed is expected to serve 12 counties in West Virginia.

POWER Special Regional Projects (22)

Project Title: *Building Entrepreneurial Communities: The Foundation of an Economic Transition for Appalachia*

Grantee: Center for Rural Entrepreneurship in Chapel Hill, NC

Award Amount: \$1,747,806

Announcement Date: October 2016

Project Summary: ARC grant to the Center for Rural Entrepreneurship in Chapel Hill, NC, for the *Building Entrepreneurial Communities: The Foundation of an Economic Transition for Appalachia* project. The project will build and strengthen the entrepreneurial ecosystem in an 18-county region covering southeastern Ohio, southern West Virginia, and southeastern Kentucky. Project activities include establishing a support system that can identify and develop new entrepreneurs; assisting new and expanding businesses with skill development; and connecting entrepreneurs with existing capacity building resources in the region. The project will create 72 new businesses and 250 new jobs.

Project Title: *Fostering Self ESTEAM in Appalachia's Emerging Workforce*

Grantee: The Consortium for Entrepreneurship Education

Award Amount: \$1,431,549

Announcement Date: October 2019

Project Summary: ARC grant to The Consortium for Entrepreneurship Education in Charleston, WV for the *Fostering Self ESTEAM in Appalachia's Emerging Workforce* project. ESTEAM will infuse entrepreneurship into the region's STEAM (Science, Technology, Engineering, Arts, and Mathematics) initiatives to graduate a workforce of entrepreneurially-minded students poised to recognize and create solutions to gaps within their local economy. The project is a collaborative effort between EntreEd, the EdVenture Group, the National Association for Community College Entrepreneurship, the National Center for Resource Development, and local community college and education agency partners. The project will offer professional development programming for educators, award an official "America's Entrepreneurial Schools" designation for participating schools, and provide mini-grants for schools that pursue ESTEAM integration. Targeting middle and high school students across seven Appalachian states, the two-year program will deliver high-quality teacher training and support STEAM-focused entrepreneurship projects to reach 51 Appalachian counties and a potential 75 rural school districts. The project will expand best practices from EntreEd's previously awarded POWER grant. Additional funding is being provided by the Greater Kanawha Valley Foundation.

Project Title: *Shale POWER*

Grantee: Southwestern Pennsylvania Coalition (SPC)

Award Amount: \$1,423,497

Announcement Date: October 2019

Project Summary: ARC grant to the Southwestern Pennsylvania Coalition (SPC) in Pittsburgh, PA for the *Shale POWER* project. The project will develop regional centers for technical assistance to manufacturers in Pennsylvania, West Virginia, and Ohio that are seeking to expand into the shale energy sector. The technical assistance and business support will target small and medium enterprises and will include mini-grants, one-to-one counseling, and training. *Shale POWER* will engage directly with these entities to connect them to the shale-manufacturing sectors, develop business strategies for expanding in these sectors, and support workforce and job development to meet the burgeoning demand in shale-related markets. The project is expected to create 400 new jobs, retain 600 existing jobs, create 50 new businesses, and leverage \$250 million in private investment. It builds on an earlier POWER grant that assessed the demand for business technical assistance in this sector and informed the shape and scale of the current project. Anchor institutions for the project are Carnegie Mellon University, West Virginia University, and Belmont College.

Project Title: *Growing Food System Capacity and Scaling Economic Impact in Central Appalachia*

Grantee: Natural Capital Investment Fund, Inc

Award Amount: \$1,200,000

Announcement Date: September 2017

Project Summary: ARC grant to the Natural Capital Investment Fund, Inc., in Shepherdstown, WV, on behalf of the Central Appalachian Network (CAN) for the Growing Food System Capacity and Scaling Economic Impact project. ARC's investment will support the members and partners in CAN to build upon five years of collective local food systems development work across Central Appalachia. Building a strong local food economy will help diversify and strengthen the regional economy. The project will target production capacity, one of the primary leverage points holding back the Region's food system. This will be achieved by providing small and medium-sized farms, farm workers, value-added processors, and food businesses with technical assistance, training, capacity building, capital improvements of equipment and facilities, market development, supply chain intermediation, and peer learning. Members of CAN include the Appalachian Center for Economic Networks, Appalachian Sustainable Development, the Coalfield Development

Corporation, the Community Farm Alliance, and Rural Action. It is anticipated that the project will serve and improve 37 existing businesses, create 26 new businesses, create 100 jobs, and leverage \$4 million in additional private investment across 58 counties in 5 states (Kentucky, Ohio, Tennessee, Virginia, and West Virginia).

Project Title: *Opportunity Appalachia*

Grantee: Appalachian Community Capital (ACC)

Award Amount: \$1,039,500

Announcement Date: October 2019

Project Summary: ARC grant to Appalachian Community Capital (ACC) in Christiansburg, VA for the *Opportunity Appalachia* project. ACC has partnered with five organizations, including the Appalachian Partnership for Economic Growth in Ohio, the University of Virginia's College at Wise, and the West Virginia Community Development Hub, to develop a program that attracts investment funding to federally designated Opportunity Zones located in Central Appalachia. *Opportunity Appalachia* will cultivate investment deals that both benefit investors and provide robust social returns for communities found with the zones. It will provide technical assistance to develop and structure investable transactions, create investment prospectuses and pitch decks, and lead outreach to potential investors. The project will develop transactions to create a portfolio of Opportunity Zone investments in Central Appalachia. This initiative is expected to bring an estimated \$7.5 million of new private investment to Opportunity Zones in Central Appalachian coal communities, investing in 15 businesses and creating 720 jobs, 70 of which are projected to be for persons in recovery from substance abuse. Additional funding is being provided by the Claude Worthington Benedum Foundation.

Project Title: *ARC/National Institutes of Health Interagency Agreement on HIV, HCV and Opioid Overdose: Year 1*

Grantee: National Institute on Drug Abuse

Award Amount: \$750,000

Announcement Date: August 2016

Project Summary: ARC grant to the National Institute on Drug Abuse (NIDA) at the National Institutes of Health (NIH), and other federal partners to help continued collaborative research on effective interventions for opioid use disorders and related diseases in rural Appalachian coal communities. Appalachia faces disproportionate impacts from substance use disorders, as well as an increased risk for the spread of associated diseases such as HIV and hepatitis C. As part of a multi-year Federal effort that aims to implement and assess evidence-based interventions in rural areas, ARC funds will allow teams from the University of Kentucky and West Virginia University to continue research focused on coal-impacted communities in the Region. Successful completion of this effort will help establish and deploy best practices in the prevention and treatment of opioid use, HIV, and hepatitis, especially within the context of rural Appalachia.

Project Title: *ARC/National Institutes of Health Interagency Agreement: Year 4*

Grantee: National Institute on Drug Abuse (NIDA) at the National Institutes of Health (NIH)

Award Amount: \$750,000

Announcement Date: October 2020

Project Summary: ARC grant of \$750,000 to the National Institute on Drug Abuse (NIDA) at the National Institutes of Health (NIH) for continued collaborative research with other federal partners, including the Centers for Disease Control and Prevention (CDC) and the Substance Abuse and Mental Health Services Administration (SAMHSA), on effective interventions for opioid use disorders and related disease in rural Appalachian coal communities. This is the fourth year of support for this initiative. New funding will allow the University of Kentucky to continue implementing clinical programs focused on formerly incarcerated people who use

drugs. The ultimate result of this collective research will be the establishment of evidence-based practices that effectively address Appalachia's recovery ecosystem.

Project Title: *ARC/National Institutes of Health Interagency Agreement on HIV, HCV and Opioid Overdose: Year 3*

Grantee: National Institute on Drug Abuse

Award Amount: \$750,000

Announcement Date: March 2018

Project Summary: ARC grant to continue a collaborative effort with the National Institute on Drug Abuse (NIDA) at the National Institutes of Health (NIH) and other federal partners to research opioid abuse and related problems of HIV and Hepatitis C (HCV) in Appalachia's coal communities.

Project Title: *ARC/National Institutes of Health Interagency Agreement on HIV, HCV and Opioid Overdose: Year 2*

Grantee: National Institute on Drug Abuse (NIDA) at the National Institutes of Health

Award Amount: \$750,000

Announcement Date: October 2019

Project Summary: ARC grant to the National Institute on Drug Abuse (NIDA) at the National Institutes of Health for continued collaborative research with other federal partners, including the Centers for Disease Control and Prevention and the Substance Abuse and Mental Health Services Administration, on effective interventions for opioid use disorders and related diseases in rural Appalachian coal communities. This is the third year of support for this initiative. Prior work has included research on clinical practices for addressing overdose, HIV, and hepatitis interventions. The new funding will allow the University of Kentucky and West Virginia University (the Appalachian institutions in the NIDA project) to begin implementing clinical programs focused on the substance abuse recovery ecosystem.

Project Title: *An Assessment of the Impact of the Downturn in the Coal Economy in Appalachia*

Grantee: West Virginia University

Award Amount: \$500,000

Announcement Date: October 2019

Project Summary: ARC grant to the Regional Research Institute at West Virginia University in Morgantown, WV for an assessment of the evolving impact of the downturn in the coal economy in Appalachia. This research builds on research reports released by the Regional Research Institute in 2018 exploring the coal industry ecosystem in Appalachia. The new research will provide quarterly updates to Appalachian-based coal employment and production data and forecasts, shift-share analysis of Appalachian counties, and updates to data on power plant retirements and repowerings to reflect recent changes in the industry. It will also provide identification and analysis of existing industrial clusters and causal impacts of coal employment on local education funding, as well as a scan of state treatment and recovery responses to substance abuse epidemic and an examination of entrepreneurship ecosystem conditions for coal-impacted communities.

Project Title: *Appalachian Angel Investor Network*

Grantee: Rain Source Capital Inc.

Award Amount: \$499,480

Announcement Date: November 2016

Project Summary: ARC grant to RAIN Source Capital, Inc., for the *Appalachia Angel Investor Network* project. ARC funds will enable the awardee to work with existing and new angel investment funds to enhance the capability of coal-impacted communities across 9 Appalachian states to make investments in start-up, early stage, and growth companies.

Specifically, the project will create at least four new angel funds in target communities, and will provide tools, training, and support services to existing angel funds and networks already operating in Appalachia. The project will result in the creation of 20 new businesses and 100 new jobs, and will leverage \$4,000,000 in private investment from 100 investors.

Project Title: *Coalfields Cluster Mapping Initiative*

Grantee: Region 1-Planning and Development Council

Award Amount: \$497,000

Announcement Date: September 2016

Project Summary: ARC grant to the Region 1 – Planning and Development Council in Princeton, WV, for the *Coalfields Cluster Mapping Initiative* research project. ARC funds will be used to map the extent of the coal industry supply chain across the tri-state region of Kentucky, Virginia, and West Virginia. The resulting detailed information on the supply chain will complement ongoing work undertaken by other ARC-funded projects, examining the extent of the decline in the coal economy and providing business technical assistance to aid the impacted supply chain firms in their return to growth and profitability.

\$400,000 for a partnership with the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Agriculture (USDA) to expand the Cool & Connected Initiative to help 10 Appalachian coal-impacted communities use broadband service to revitalize small-town main streets and promote economic development. Participating communities will receive technical assistance for strategic planning, as well as initial implementation support for the first steps of their plans. The communities are located in Alabama, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia.

Project Title: *Export Promotion for the Mining Equipment Supply Chain*

Grantee: Southern Alleghenies Planning & Development Commission (SAPDC)

Award Amount: \$352,000

Announcement Date: September 2015

Project Summary: ARC grant to Southern Alleghenies Planning & Development Commission in Altoona, PA, to provide training, technical support, and expanded market opportunities to Appalachian based coal supply chain companies through partnerships developed at MineExpo 2016, the world's largest and most comprehensive exposition dedicated to mining equipment, products, and services. This trade show is part of the 2016 U.S. Commercial Service International Buyer Program schedule, which connects U.S. exhibitors with foreign buyer delegations at the show. ARC funds will be used to ensure the participation of companies from Appalachia and enable them to get international trade support tailored to the specific needs of the individual companies. Southern Alleghenies Planning and Development Commission is coordinating the ARC assistance.

Project Title: *Economic Analysis of Coal Industry Ecosystem in Appalachian*

Grantee: West Virginia University Research Corporation

Award Amount: \$349,999

Announcement Date: September 2016

Project Summary: ARC grant to West Virginia University Research Corporation in Morgantown, WV, for the *Economic Analysis of Coal Industry Ecosystem in Appalachia* project. This study will examine the full ecosystem of the coal industry in Appalachia through in-depth quantitative analysis. Specifically, this research will identify, quantify, and map data on all relevant coal industry activity throughout the Appalachian Region. The three tasks of this research project are to: 1) identify all components of the coal ecosystem and estimate the supply chain impacts in Appalachia; 2) examine the implications of the coal industry downturn on freight rail, barge, and truck transportation in Appalachia; and 3) develop a typology of regional economies that surround the coal-fired plants in the Region using both

econometric and input-output techniques.

Project Title: *POWER Monitoring and Evaluation*

Grantee: Chamberlin Dunn, LLD

Award Amount: \$199,665

Announcement Date: October 2019

Project Summary: ARC grant to Chamberlin Dunn, LLC of Indianapolis, IN, for a contract to monitor and evaluate the POWER Initiative. Chamberlin/Dunn will continue their work in assessing previous POWER grants. The new scope of work will include two components: an evaluation of three high-priority topics (substance abuse recovery ecosystem projects, Central Appalachia POWER projects, and multi-state/multi-site projects) and an evaluation of POWER projects funded in FY2018-2019, along with an assessment of technical assistance grants from prior years that have not been covered in earlier reviews. Chamberlin/Dunn will work with ARC and its partners to determine the extent to which POWER grantees are progressing toward their stated performance goals. Deliverables include monthly reports that provide a snapshot of grantee performance. The reports will highlight success stories, flag potential challenges, and recommend technical assistance and training needs to ensure grantee success.

Project Title: *POWER Monitoring and Evaluation*

Grantee: Chamberlin Dunn, LLC

Award Amount: \$184,595

Announcement Date: October 2018

Project Summary: to Chamberlin/Dunn, LLC of Indianapolis, IN, for a contract to monitor and evaluate the POWER Initiative thus far. In particular, contractors will work with ARC and its partners to determine the extent to which POWER grantees funded in Fiscal Years 2015-2017 are progressing toward their stated performance goals. Deliverables include monthly reports that provide a snapshot of grantee performance during that period. The purpose is to highlight success stories, flag potential challenges, and recommend technical assistance and training needs to ensure grantee success, particularly in performance monitoring and evaluation.

Project Title: *Industry-Informed Infrastructure in Appalachian Colleges*

Grantee: American Association of Community Colleges

Award Amount: \$175,000

Announcement Date: March 2017

Project Summary: ARC grant to the American Association of Community Colleges (AACC) in Washington, DC, for the Industry-Informed Infrastructure in Appalachian Colleges ("I3") project. I3 will start as a two-state pilot effort over one year to expand the industry connections and technical training capacities of community colleges serving coal-impacted communities in Pennsylvania and West Virginia, along with adjacent areas of neighboring states. The activities in Pennsylvania will focus on the oil and gas industry, while those in West Virginia will highlight management and leadership in the hospitality industry.

Additional components of the project will link participating community colleges with industry leaders in other high-demand sectors identified by the colleges. The initiative is founded on the concept that Appalachian community colleges deserve the highest-caliber industry infusion of resources to create critical talent pipelines for the Region's workforce. AACC will identify national industry partners and trade associations that can be leveraged to provide reduced-price services or partnerships that can build the capacity of the colleges, communities, and students. At least 12 colleges are expected to benefit from the project.

Project Title: *Strengthening Economic Resilience in Appalachian Communities*

Grantee: Downstream Strategies

Award Amount: \$149,998

Announcement Date: October 2016

Project Summary: ARC grant to Downstream Strategies in Morgantown, WV, for the *Strengthening Economic Resilience in Appalachian Communities* project. This research will explore and document strategies and policies local leaders can use to enhance the future economic prospects of coal-impacted communities throughout the Appalachian Region. There are four key components to this research project: 1) develop a comprehensive, quantitative framework to explore economic resilience; 2) identify a series of best practice strategies for strengthening local economic resilience; 3) conduct up to 10 in-depth case studies; and 4) produce a concise guidebook that interprets and integrates findings of the research, written specifically for local economic development practitioners.

Project Title: *Career Online High School: A Leapfrog Strategy for Appalachian Communities*

Grantee: Jobs for the Future, INC

Award Amount: \$100,000

Announcement Date: January 2017

Project Summary: ARC grant to Jobs for the Future (JFF) in Boston, MA, for the *Career Online High School: A Leapfrog Strategy for Appalachian Communities* project. JFF will partner with Cengage Learning to eliminate high school completion barriers for individuals in Appalachian states and help them progress along learning and career paths. Key to the project's success will be the integration of a cutting-edge high school diploma completion model with educational and career pathway strategies and supports to ensure long term workforce and economic opportunity for students. Through a competitive process, JFF will work with coal-impacted communities from Kentucky, Tennessee, and West Virginia to help students complete high school and secure in-demand jobs. The project will train 40 students and expose 1,000 participants to the high school completion program.

Project Title: *Stronger Economies in Coal-Reliant Places*

Grantee: National Association of Counties Research Foundation

Award Amount: \$60,000

Announcement Date: July 2016

Project Summary: for a partnership with the National Association of Counties Research Foundation to provide additional technical assistance to 11 teams from Appalachian coal communities that participated in the The U.S. Economic Development Administration-funded Innovation Challenge for Coal-Reliant Communities Program. This support includes grant writing, feasibility studies, strategic plan development or updates and capacity building to facilitate strategic and sustainable investments. Community teams are located in Kentucky, Pennsylvania, Virginia, and West Virginia.

Project Title: *Enhancing the Economic Impact of Rural Hospitals and Health Centers*

Grantee: Partners in Health Network, Inc.

Award Amount: \$49,974

Announcement Date: October 2019

Project Summary: ARC grant to Partners in Health Network, Inc. in Charleston, WV for the *Enhancing the Economic Impact of Rural Hospitals and Health Centers* project. The project will prepare a feasibility study for expanding the Appalachian Pulmonary Health Project to additional critical access rural hospital and healthcare facilities in 12 medically underserved counties in Kentucky, West Virginia, and North Carolina that have been adversely affected by the downturn in the coal economy. The study will help members of the Partners in Health Network plan for this large-scale implementation to achieve economic development and recovery by maintaining necessary health services, preserving and expanding the rural health infrastructure, and contributing to a ready and healthy workforce.

Project Title: *Creating a Regional Network of Collegiate Recovery Programs Feasibility Study*

Grantee: Appalachian College Association

Award Amount: \$40,713

Announcement Date: October 2020

Project Summary: ARC grant of \$40,713 to the Appalachian College Association in Bristol, TN, for the *Creating a Regional Network of Collegiate Recovery Programs Feasibility Study*. The study will create a plan to implement Collegiate Recovery Programs (CRP) on five college campuses in Appalachia: Bethany College and University of Charleston in West Virginia; Union College and University of Pikeville in Kentucky; and Lincoln Memorial University in Tennessee. Planning work will engage a network of teams from each college to develop an implementation model for integrating recovery, degree attainment, and job placement programs into a cohesive CRP for individuals with substance use disorders. The proposed CRPs will enhance the recovery ecosystem in five Appalachian communities, increasing the likelihood that individuals in recovery will graduate from college and enhance their labor force participation.
