Team Ferrity - A geo-location app designed to spur economic development in small towns in Appalachia by connecting tourists to local businesses and attractions.

Team Refill Vibes - is innovating on ways to reduce single use plastics by making it easy to refill household cleaning liquids and personal products with a refill van, vending machines, and online with sustainable packaging

Team What's Cookin' - An app that will make it easier for people with food allergies and specific health conditions to create healthy dishes maximizing what you already have in your pantry.
